## THE BRIDGE

### Linking Practitioners of German Biological Medicine

Volume 11, Issue #6, June 2015

Wednesday, 17 June 2015

Dear Colleagues, Friends and Supporters of OIRF,

👉 **Welcome to Volume 11, Issue #6 of "The Bridge" newsletter!** Featured in this June issue is the Part 2 article by **Dr. Richard Kraßnigg** on the Hypersonic Theories of **Reiner Gebbensleben** as they relate to the diagnosis and treatment of Borrelia and Lyme disorders. Although OIRF does not work with nor recommend the Hypersonic techniques, of great interest is the development of the connections and concepts of Borreliosis, Lyme Disease, autoimmune diseases and of course that most interesting of developments shown by the link to Syphilis. We are most interested in hearing your comments and experiences working with these concepts.

👉 **Gateway Foundation for Biological & Integrative Medicine** presents **Curing the Incurables**, Sept. 11-13, 2015, St. Louis, Missouri USA, OIRF Educational Exhibit area featuring the MORA Beauty/Nova. Details and registration at <http://www.iamconf.com/> Register early for this well attended conference!

There is an impressive lineup of speakers including **Dr. Dietrich Klinghardt**, **Dr. Garry Gordon**, **Dr. Dan Beilin**, **Dr. Jeremy Kaslow**, **Marguerite Lane**, **Dr. Michael Gurevich**, **Dr. Michael Rehme**, **Dr. Robert Cass** and **Dr. Simon Yu**.

Attend the optional one-day pre-conference workshop on "**MORA BioResonance Therapeutic Possibilities**" on Thursday, Sept. 10, 2015 with **Marguerite Lane, ND** from Australia.

THE GATEWAY FOUNDATION FOR BIOLOGICAL AND INTEGRATIVE MEDICINE  
PRESENTS:

### Curing the Incurables

*Fibromyalgia, Chronic Fatigue Syndrome,  
Lyme disease, Autism Spectrum Disorders,  
Cancer, ...*

September 11 - 13, 2015  
Frontenac Hilton Hotel  
St. Louis, Missouri

Join with Simon Yu, M.D.  
and Other Leading  
Practitioners to Collaborate  
on "Curing the Incurables"

*Fibromyalgia  
Chronic Fatigue Syndrome  
Lyme disease  
Autism Spectrum Disorders  
Cancer, ...*

THE GATEWAY FOUNDATION FOR BIOLOGICAL AND INTEGRATIVE MEDICINE  
continues their prestigious series of conferences

CONFERENCE PRESENTERS

Daniel Berlin, MD, PhD, Apr, CA  
Hal Bateman, MD, Cincinnati, OH  
Robert Cass, MD, Santa Barbara, CA, London, Ontario  
Charles Crist, MD, Columbia, MO  
Todd Frisch, DC, St. Louis, MO  
Garry Gordon, MD, DO, Peppin, AZ  
Michael Gurevich, MD, Glen Head, NY  
Paul Johnson, M.Divinity, Wildwood, MO  
Jeremy Kaslow, MD, FACP, FACC, Santa Ana, CA  
Dietrich Klinghardt, MD, PhD, Wiesbaden, WI, Germany  
Young H. Ko, PhD, Baltimore, MD  
Marguerite Lane, ND, Sydney, Australia  
Mark McClure, DMD, Washington D.C.  
Kimchi Meyer, LAc, Santa Clara, CA  
Michael Rehme, DDS, Casa Grande, AZ  
Rev. Phyllis Sparks, Lake Santa Louis, MO  
Simon Yu, MD, St. Louis, MO

Visit [www.iamconf.com](http://www.iamconf.com) for additional information and registration.

➡ Registrations for the Institute's **42nd Biological Medicine Tour to Germany** are being received on a regular basis and we highly recommend early application to ensure your participation in this unique educational event. The major arrangements for our program have been finalized and the speakers confirmed. Based on our Tour program theme of *"The Latest Discoveries for Long Standing Therapeutics"*, we are looking forward to the latest information and research in our field especially as it affects application of our well known and recognized therapies including MORA BioResonance, BioPhoton Therapy, Pulsed Electromagnetic Field Therapy and so many more. There is always ample time for questions and hands-on. Shall we do a "Top 10 List" of reasons to participate in this tour program à la Mr. Letterman?

## OIRF Top 10 List

- 1) Our exceptional Keynote Speaker, **Prof. Dr. Roeland van Wijk** (Netherlands) was a colleague and co-researcher with the famous (but now retired) **Prof. Dr. Fritz-Albert Popp**. Dr. van Wijk will present their latest research on Stress, Fatigue and BioPhotons. They are also looking at the role of biophotons in activating stem cells.
- 2) Hear from **nine** different lecturers, researchers and clinicians instead of focusing on one personality.
- 3) Hear about a broad range of Biological Medicine methods.
- 4) Lectures and demonstrations focused on education with emphasis on practical application in your daily practice.
- 5) Focused and informed visits to the famous Medicine Week Congress in Baden-Baden.
- 6) Presentations from a famous German Biological Medicine Hospital Clinic and from a highly respected long standing biological pharmaceutical firm.
- 7) Coordinated and hosted by OIRF Managing Director **Carolyn Winsor-Sturm** with 41 previous tours experience.
- 8) Benefit from the experience and expertise of accompanying OIRF Medical Advisor and Director **Marguerite Lane, ND** (often several other OIRF Advisors and Directors annually join these pilgrimages).
- 9) Program involves moderate ground transportation on prearranged comfortable charter bus with lots of room for luggage.
- 10) OIRF tour program is reasonably priced and includes all educational events, single room hotel accommodations and most meals.

Full details and registration information available on our website at:

<http://www.oirf.com/germany2015.html>

Participating in this unique inclusive custom-tailored guided educational tour for medical professionals with OIRF (instead of with another recently announced similar tour program), you will experience friendly and open expertise as well as flawless planning and scheduling that provides a pleasant non-stressful learning environment. Here is a program that will build on the very best from the past, give you a glimpse of the very latest in-depth research and innovation, and then – most importantly – inform you how to utilize these techniques and methods in a modern everyday practice.

I repeat, to ensure a place for this tour program we encourage you to register early as participation is limited.

## Occidental Institute Research Foundation

### 42nd Biological Medicine Tour to Germany

Tuesday, October 27 through Monday, November 2, 2015

**Theme:** Clinical Applications in Biological Medicine: The Latest Discoveries for Long Standing Therapeutics

**Keynote Speaker:** *Prof. Dr. Roeland van Wijk*, BioPhoton Research & Therapy

Plus private English language lectures from renowned researchers and clinicians:

- **Dan Beilin, OMD, LAc** – Alfa ThermoDiagnostics
- **Silvia Binder, ND PhD** – ONDAMED Therapy
- **Tina Först, HP** – AMS Magnetic Field Therapy
- **Michael Galle, DSc**, Researcher - BioResonance
- **Dieter Jossner**, Physicist – BioPhoton Therapy
- **Uwe Reuter, MD** – Biological Medicine Hospital Clinic
- **Nuno Ruivo, DO** – MORA BioResonance Therapy
- **George Stommel, MD & Martin Landenberger, MD** – RNA Therapy / Pharmacy
- **PaedDr Uwe Uellendahl** – “Easy” Resonance Assessment

- Our private lectures present the latest information and research in our field, with ample time for questions and hands-on.
- An opportunity to talk with like-minded colleagues and learn from the experience and expertise of attending OIRF Directors and Advisors.
- Visit and participate in the famous Medicine Week Congress in Baden-Baden
- Travel in comfort with plenty of room for luggage
- Tour price of \$3,295 includes full tour program, single room accommodations and most meals
- Be treated like family with good food, good friends and good conversation in friendly hotels

**ADVANCE REGISTRATION IS RECOMMENDED**

**[Biological Medicine Tour #42](#) information and [Register here](#)**

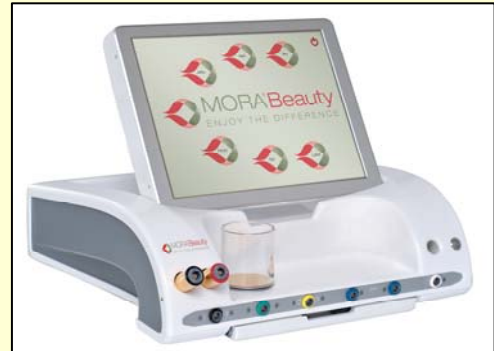

**For more details contact:** Occidental Institute, [www.oirf.com](http://www.oirf.com); E-Mail: [support@oirf.com](mailto:support@oirf.com)

PO Box 100, Penticton, BC V2A 6J9 Canada and register at 800-663-8342 or (250) 490-3318

➡ We are pleased to announce that **Dr. Dan Beilin** from **Alfa ThermoDiagnostics** has been added to the list of lecturers for this 42nd OIRF Tour program. His English language lecture will be an actual part of the Medicine Week program. Alfa ThermoDiagnostics has just recently successfully achieved full US FDA registration of their thermographic diagnostic device. Congratulations to them and we will be looking forward to this lecture.

For further details and information please mention OIRF when you contact them at <http://www.alfathermo.com/>

➡ Here is a picture of the new MORA-Beauty specially designed for cosmetic applications. Four modules with software and appropriate accessories provide highly effective and delegable applications for: smoking cessation, relaxation, detoxification, stress relief, revitalization, cellulite and wrinkle reduction, weight loss, and optimization of nutrition. See more detailed information on this amazing device on our website at: [www.oirf.com/inst-morabeauty.html](http://www.oirf.com/inst-morabeauty.html)

➡ The documentary film "*We Don't Vaccinate!*" by **Michael Leitner** was originally published a year ago, but in German only. They have just completed an extensive project to over-voice the 100 minute documentary into English. All preparation for launch of the DVD has been completed and they are now seeking assistance with marketing. If you have the contacts, capability and interest to help them out, contact OIRF at 1-800-663-8342 and we will put you in touch with the organizers. This is an important and carefully done documentary film. We will let you know as soon as it is available publicly.

➡ Be sure to check out the events and conferences announcements enclosed and on the [Calendar of Events](#) on our website. Make plans **now** for which events you will attend this year. Your support for the organizers is greatly appreciated, and gives you the return of fascinating, informative and educational programs that will enhance your practice. OIRF directors, advisors and/or members are active in each of the recommended events. See Pages 21 and 22 for further details.

➡ All of your 2015 Volume #11 Issues of "The Bridge" newsletter will be sent to you by email and then published on our website. **Access is open to all.** Follow this link to get your PDF print copy of "The Bridge" Volume 11, Issue #6.

### ➡ OIRF Resource Materials:

- For more information and instruction about point and medication testing with EAV see the OIRF: [Medication Testing Report](#) and the [EAV Desk Reference Manuals](#) (both available on disc).
- For more information and instruction about [Diagnostic and Therapeutic Techniques in Biological Medicine](#) with emphasis on BioResonance Therapy be sure to order the recently re-released videos of Dr. Walter Sturm's seminars.
- For a complete [listing of OIRF resource materials](#), including publications, reports, books and videos please follow this link to our website. There are full descriptions of all printed and recorded materials online.
- For a complete [listing of OIRF recommended instrumentation](#), including diagnostic, therapeutic and BioResonance devices please follow this link to our website. There are full descriptions of all instrumentation online.

➡ Here are your newsletter items for this Issue #6 . . .

Notes from the Director:

## The Hypersonic Theory of Gebbensleben

“The word hypersonic is occasionally used to refer to sound above the frequency of about 1 GHz, i.e. for very high frequency ultrasound. In everyday phenomena such noise does not matter. However the engineer **Reiner Gebbensleben** (born 1939 Magdeburg) from Dresden, Germany represents the pseudo-scientific view that many technical and natural processes are based in the presence of hypersonic. In his opinion hypersonic is, among other things, perceptible by humans and in truth electrosmog is hypersonic.”

The above is a definition of hypersonic quoted/translated directly from an encyclopedia source.

Technically hypersonic is not measurable, but is detectable with the use of various radiesthetic devices (i.e. divining rods). There are a number of devices – critically called “non-functional” – available on the European market including pendulums, pyramids and various neutralizers.

Although such devices are not recommended or available through OIRF, there is no question that radionics and radiesthesia are effective methods for many practitioners. The following article (and the Part 1 which appeared in Volume 11, Issue #1) is presented here for the insights and connections developed by our Medical Advisor **Dr. Richard Kraßnigg** regarding Borreliosis, Syphilis and autoimmune illnesses.

In spite of the complicated clinical picture and uncertain laboratory testing for Borrelia, all diagnostics can be accurately defined with EAV, VEGA and other point and medication measurement methods. Treatment with actual or electronic homeopathic remedies and MORA® BioResonance can easily work within the frequency ranges mentioned by Dr. Kraßnigg and should bring comparable results.

Additionally **Dr. Dietrich Klinghardt** has done extensive work in this field and offers many suggestions and protocols for treating Lyme/Borreliosis patients through his ongoing seminars and publications.

As I finalized the formatting and presentation of these articles my thoughts returned to the work of **Dr. Juliane Sacher** and her research with AIDS, cancer and other degenerative illnesses. There still remain many questions concerning the work of **Dr. Luc Montagnier** and the “discovery” of the AIDS virus. In light of Dr. Kraßnigg’s research and findings with autoimmune illnesses being linked to Lyme/Borreliosis, perhaps we should all be testing our patients (with EAV or VEGA or whichever point testing method you use) for Borreliosis?? It is a point to ponder, and a “clue” to be utilized with all our patients.

*An exclusive **article for OIRF Supporters**, published June 2015

## Energy and Oscillation

# Hypersonic Sound

## Borreliosis – A greater Threat than Syphilis and a Trigger of Autoimmune Illnesses (Part 2)

By Richard Kraßnigg, MD  
(OIRF Medical Advisor)

**From an article in CO.med, Vol. 20, Dec. 2014**

**Machine Translation by SYSTRAN, Lernout & Hauspie, LogoMedia & Prompt  
Translation & redaction by: Carolyn L. Winsor, OIRF**

© Copyright 2014, Dr.med. Richard Kraßnigg, Neunkirchen-Seelschied, Germany

In Part 1 of this article about Borreliosis (CO.med 11/2014, The Bridge 01/2015) the evolutionary position of *Borrelia* was explained amongst the bacterial causes according to the current level of biological knowledge. As a result, a direct proximity arose from the *Borrelia* bacterial type to the *Treponema* type, which is the agent best known as the cause of Syphilis. With the comparison of the illness "Borreliosis" to the illness "Syphilis" it must be recorded that both illnesses run in almost identical stages. Nevertheless a serious difference exists: The cause of Syphilis is presently laboratory-chemically determinable relatively clearly, and therapy with the help of antibiotics is effective. In contrast to this studies prove that the cause of Borreliosis is only now and then clearly detectable laboratory-chemically – sometimes directly as a living "creature" in the tissues, sometimes indirectly across the antibodies of the immune system. A plausible reason for this is still absent. On the basis of the study situation of the spirit-like manifestation of *Borrelia* it has to be added that it responds to no antibiotic reliably. Also the "usual" infection pathway by tick bites which is highlighted in the media cannot be confirmed. Too many of the laboratory positive ill people cannot remember a tick bite and in some cases as a certainty such an event is even to be excluded. Consequently, as with Syphilis, infection pathways across the bodily fluids and inherited infections are also assumed.

From the experiences of the author in the physical therapy of Borreliosis by means of material/longitudinal oscillations in the frequency range of hypersonic sound, it

emphasizes not only the effectiveness of the procedure but also a remarkable accumulation of healings with autoimmune illnesses. It suggests the suspicion that possibly all autoimmune illnesses, which currently massively increase in numbers in the population, in the end are due to unrecognized, chronic, laboratory negative Borreliosis. The laboratory-chemical results which refer to the cellular immune defense of the body are interpreted as a fight of the immune system against its own cells.

The realization that apart from their cellular immune defense humans still seem to have a defensive system available by means of hypersonic sound, demands a re-evaluation of all previous immunological interpretations.

According to this new view the apparent autoimmunological suicide is the survival fight of the body. Above all through its immunological activity it clears out the cells no longer capable of surviving or damaged by Borreliosis in order to make the maintenance of their function easier for the remaining cells.

The following article reports about experiences with the unusual healing course of chronic Borreliosis and the possibilities of therapeutic influence.

For deeper understanding brief information about specific physics, energy balance and immune defense has already been published in previous articles [2-5].

### **The Physical Fundamentals**

The foundations of hypersonic sound were compiled by Gebbensleben [1] and summarized into a book.

In physics two wave kinds are known. Whereas the electromagnetic oscillations are investigated so far that their origin and application is extensively understood, until now scientists could only approach the mechanical oscillations in the lower frequencies. The production of usable measuring devices in the upper frequency ranges, which is designated as hypersonic sound, turned out to be very difficult. On account of this these sound oscillations were not investigated by physics up until now.

All kinds of sound require matter as a carrier. This can be gaseous, liquid or solid. The known sound oscillations originate if groups of molecules are set in motion by mechanical stimulation, e.g. a loud speaker membrane, with frequencies in the hearing range. However if molecules are stimulated with impacts, e.g. by electron bombardment from secondary cosmic radiation or from technical sources, then the stimulation occurs in the atomic natural frequencies of the molecule, the hypersonic sound. These molecules deliver the received impulses lossless and directed to the neighboring molecules. A material existing from many homogenous molecules oscillates not only in its atomic

natural frequency. Under the effect of external hypersonic sound fields liquids, gases and even solids form a cluster with a multitude of different natural frequencies so that practically any amount of matter can transmit hypersonic sound frequency and with it an extremely high amount of information. Naturally since hypersonic sound already existed before the development of life on earth, nature has integrated this excellent information carrier into all emerging biological systems from the beginning. In comparison to computer technology at this point you would speak about the “operating system of all life”.

### **The Hypersonic Sound Balance of the Human Being**

It has already been reported several times about the hypersonic sound balance of the human being [2-5].

The human being is healthy provided that he exhibits a continuous hypersonic sound of 60 dB in his tissues. With a weakened, long continued or intensive drop off the tissues suffer. The results are pain, functional losses and in the end death. Short term increases are usually felt as refreshing or strengthening, provided that they do not surpass 500 dB too far or too long. The molecular and atomic connection strength is increasingly overtaxed above 500 dB. A tearing up of the connections occurs. At first the consequences are biological tissue destruction and subsequently a physical return of the molecules and atoms into the range of single protons which are left remaining as hydrogen.

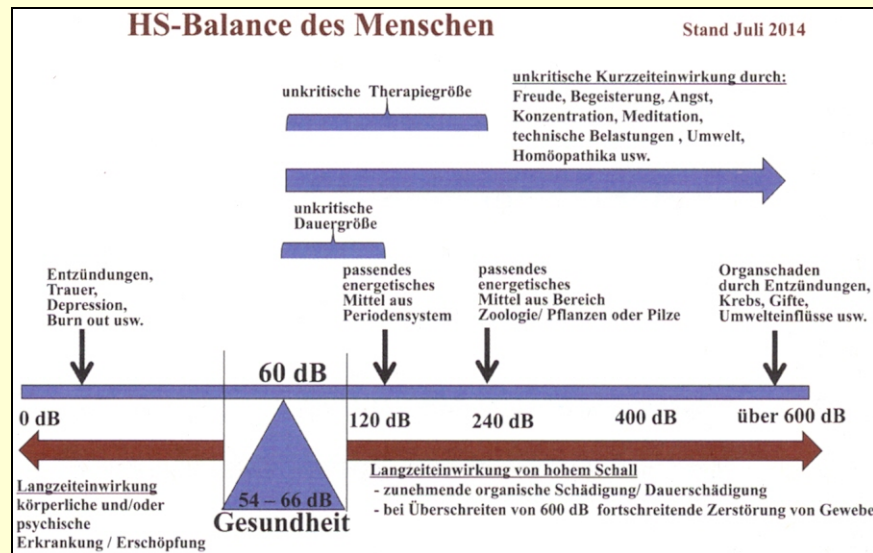

The ongoing supply of suitable hypersonic sound with from 120 to 240 dB supports the healing process, because it supplies the necessary hypersonic sound for the regeneration of the “energetically” suffering tissues. Additional information was entered into a series of articles in the report “Hypersonic Sound – Homeopathy” [5].

### **Homeopathy, Hypersonic Sound Therapy and the Immune Defense of the Body**

Hypersonic sound research has shown that humans have two different possibilities of getting over illnesses available. On the one hand it is about the evolutionary older defense system by means of extremely amplified hypersonic sound spectra and on the other hand it is about the evolutionary younger cellular immune system.

Homeopathy uses a small portion of the possibilities which span over the frequency range of hypersonic sound. If the physically effective similarity principle (isopathy) is applied, the hypersonic sound defense system of the body can be used over unlimited resonances. The result is an effective success on a purely physical basis within seconds, provided that

**Figure 1:** The Hypersonic Sound Balance of the Human Being  
(See Translation Chart for Fig. 1 following this article.)

the frequency spectrum is suitable and the applied wave amount is sufficient. The inspired background of this defensive system consists of the fact that every injurious material, no matter what origin, can be disassembled and rendered harmless with it – only the necessary suitable oscillation levels and sufficient wave spectrum amounts must be made available.

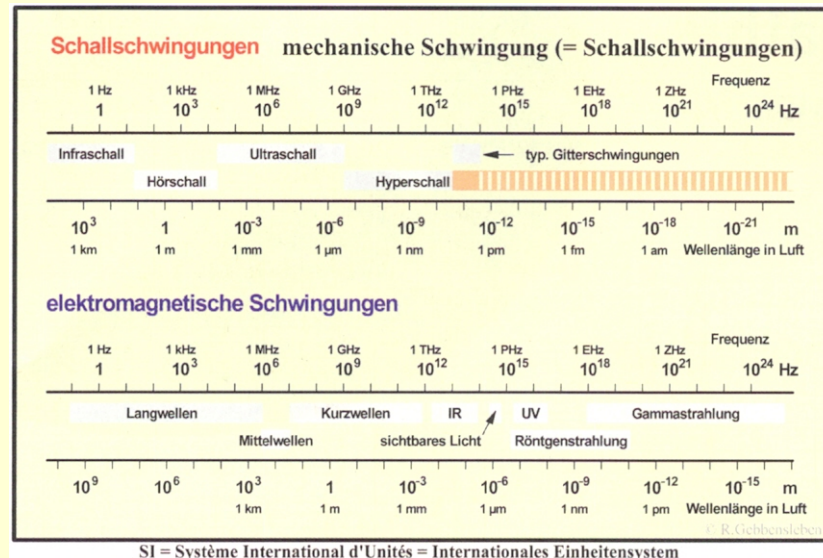

With the cellular immune defense a completely different functional mechanism is at work. If a patient gets over his illness, he is often able to form “memory cells” against the triggering pathogen. For the next illness occurrence the hypersonic sound defense system does not need to be switched on any more. Through its memory cells in the cellular immune system the body immediately generates the suitable antibodies which then accurately attack the opponent.

This is a significant evolutionary advantage compared with animals, who work only with hypersonic sound defense.

### The Physical Therapy of Borreliosis

In an article about the detoxification of organic solvents [4] the basic principle of the physical therapy against Borreliosis was already shown in greater detail.

The natural global field is captured by two collective lenses and is strengthened by their spatial construction. The two collective lenses “speak” with each other and add their individual strength into the field between themselves. In the resulting hypersonic sound

**Figure 2:** The two different wave kinds with their subranges (taken from [1]).  
(See Translation Chart for Fig. 2 following this article.)

field between them, the frequency spectrum of the bacterium, in this case *Borrelia burgdorferi*, is introduced by means of an ampule. Now the frequency spectrum of *Borrelia burgdorferi* is stored not only in the highly strengthened hypersonic sound field, but also in the infusion water which was additionally inserted into this field. The infusion liquid with the frequency of the bacterium in the strength of the fields is available afterwards for energetic therapy. Manufactured infusion bottles with the frequency spectrum of *Borreliosis* and a highly strengthened amplitude can also be referred to the market [11]. The infusion liquid is usually infused into the subcutaneous fatty tissue at navel height. Since with chronic *Borreliosis* a multitude of *Borrelia* are to be killed, a multitude of high oscillation spectra of suitable frequency must be provided. Large volumes are therefore necessary in order to guarantee the immediate success of the destruction of all *Borrelia*. Usually 0.5 liter of infusion solution is sufficient, occasionally up to 0.8 liter was necessary. During the ongoing infusion some patients report a feeling of inner cold, otherwise no recognizable or perceptible changes appear as a rule. After this infusion treatment the patient is immediately *Borrelia* free.

### The Long Pathway of Detoxification

After the infusion the patient believes his suffering pathway is at an end. Unfortunately this assumption is not appropriate. Now begins a so far absolutely unknown medical healing pathway, which leads to an emotional roller coaster and new burdens of an unknown kind.

Only a few Borreliosis [*cases*] were initiated through a tick bite, most are innate or were acquired through partner contact [6]. Depending on:

- Quantity of the initially transferred bacteria,
  - Duration of the illness time,
  - Quantity of attacked organs, organ parts or tissues, and
  - Intensity of the Borrelia activity during the illness time in the attacked elements,
- different suffering pathways and detoxification times emerge until healing for each patient.

On the basis of current experience with time windows it is calculated that for children up to three months and with adults from 6 to 18 months for the detoxification process.

The force of the detoxification burden can be reduced by the timely intake of suitable hypersonic sound solutions [11] and be partially cancelled. If this does not occur the body still heals itself. The quality of life in this transitional period without hypersonic sound support is strongly diminished.

### **What is detoxed from where?**

In conventional considerations of life the cell is almost exclusively described by its function. Nevertheless every cell is a specialist. It is for example a muscle, heart, kidney, liver, etc. cell.

Problems of “service performance” (supply and disposal) are cancelled in these superficial representations. The extracellular space, the direct surroundings of a cell, takes up the eliminated garbage of the cells and transports it to the circulatory system. This passes it forward to the appropriate “detoxification specialists” and/or to the “excretion specialists”. In the reverse direction, essential supply elements are brought into proximity to the cell by the circulatory system. They then cross over the extracellular space into the cell, the destination of their regulation.

The extracellular space is a transit route which must be bridged in both directions for the preservation of the life of every individual cell.

If this space is blocked by garbage, food and

- Defensive bulwarks against Borrelia, or
- Attack elements of Borrelia against the cells, or
- Hiding places or lodging structures of Borrelia, or
- Common to all [*above*] in different quantities

What then? Then the supply of cells is endangered. The cell is starved and dies in its own garbage in a supply deficit.

All hypersonic sound measuring results point to the fact that the “battlefield” of the body against Borrelia lies in this transit area.

In some cases significant amounts of protein structures were built up here in the ill people, which were not used any more after the “war” and hindered the normal transit traffic. Their demolition must urgently and quickly be speeded up, in order to loosen the “stranglehold” in which the surrounding cells are found, or in order to dissolve them. The “Borrelia battle tissue” which is present as a protein conglomerate can nevertheless only be broken down into small enzymatic lumps. Moreover, because the body does not always have the strength and because it allows certain activities only at determined usually rhythmic periods, the broken up lumps always result in temporal thrusts with different quantities. Besides, the released protein decomposition products generate violent defense reactions of different kinds in the affected organs, in the circulation or in the tissues depending on where they appear. The period of this phase after the Borrelia destruction is intensively characterized because of this.

A comparable detoxification problem is familiar to everyone: After unusual physical work a muscular strain arises. Even if the physical stress takes effect on only one day, the detoxification of the “garbage”, in this case lactic acid (*Acidum lacticum*), consequently lasts between two and three days. With the intake of suitable isopathics, therefore *Acidum lacticum*, the actual muscular sprain pain disappears almost immediately and there remain only small muscle adaptation changes. Nevertheless in this case how long must a many years long illness, which was connected with rebuilding processes, have a lasting effect until the generated “garbage” has become detoxed?

### **Detoxification Intensity and Sequence**

For mild and short illness cases the detoxification of enzymatic garbage passes almost without noticeable problems within a few days or up to weeks.

On the other hand, for illnesses which have lasted for decades and have brought significant burdens with them into the illness phase, the detoxification usually proceeds according to the following temporal pattern:

- After the infusion which killed the Borrelia the body is weak but released from the fight against Borrelia. It recovers for a few days – the pains decrease, the patient feels better.
- The beginning of the clean-up work follows this improvement phase. Nevertheless, the reduced strength is only sufficient for small activities. But on account of the still predominating weakness state even these are felt as burdens. It comes to a deterioration of the condition in comparison to the prephase.

The body is integrated into external (e.g. day/night) and internal (activity/regeneration) temporal rhythms. An important clock is the endogenic cortisol production because cortisol influences many cell activities.

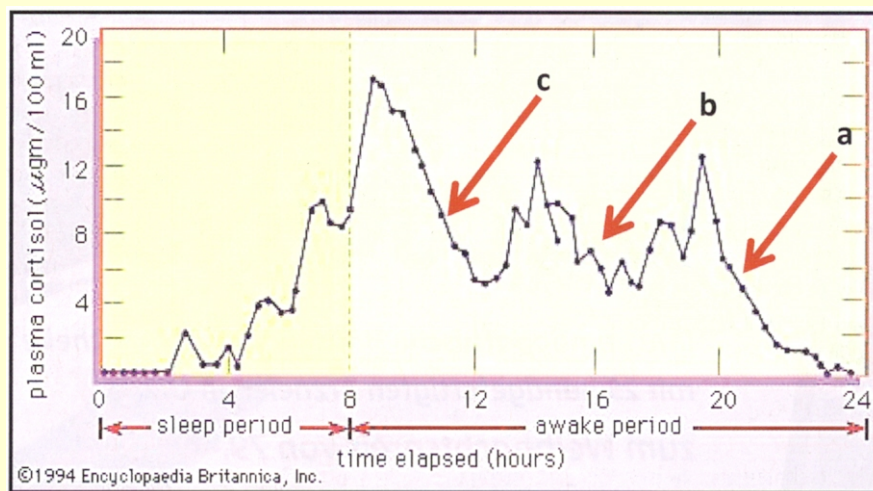

In the early morning hours cortisol is usually produced by the body's own rhythm. Meanwhile between approx. 7:00 and 8:00 PM it significantly reduces the production. Everything points to the fact that cortisol forces the cells to pursue their higher function in the organ group. All further activities are suppressed or hindered. However as soon as the cortisol level subsides, the cell can again easily take necessary specific repair work under attack.

- Apparent deterioration results appear in the early phase of detoxification almost exclusively from 8:00 PM as well as the whole nighttime. The endogenic cortisol level is low and the repair work goes full blast.
- If the body becomes stronger, it even manages to push through detoxification peaks against the lightly raised cortisol level. In the middle phase in addition to the nighttime the detoxification already succeeds in mobilizing the broken up lumps around 4:00 PM.
- In the late phase it has already freed itself from the burdens so that it can also already launch the first discharge activities at midday.
- In the end phase the detoxification comes at any time of the day or night.
- "Detoxification storms" can occur. This means that in the meantime the body has collected a lot of strength. It now passes large amounts of protein debris into the tissues and into the bloodstream over and over again. These accumulate here and in the draining urinary tract and induce through this an illness feeling with significant symptom increase. This state can drag itself on over many hours. If the broken up debris flooding in with each passing minute in thrusts is not dissolved through suitable medications; the body must do it itself. It then develops inflammations in order to "burn" them through high hypersonic sound amplitudes. It remains valid to prevent this with suitable medication in order to avert additional damage. Then such a "storm" sometimes unexpectedly and suddenly comes to a standstill. Whether "storms" will once more appear remains uncertain.
- As a further complication problems can appear which apparently stand completely without connection to the detoxification. Burdens of tissue, organ or skin appear unexpectedly without recognizable connection and also no protein decomposition products are provable. During the cause search, unsuspected results appear –

e.g. herbicides or heavy metals are found in the suffering structures within the extracellular space. As an explanation of these events it must be concluded that during the rebuilding protein structures have been dissolved into the extracellular space which immured this disturbance potential there, and therefore has made them harmless for the body. Of course the elimination of these complications likewise occurs through a specific hypersonic sound therapy.

Over and over again for various reasons it can come to shifts of the basic pattern.

**Figure 3:** The height of physiological cortisol levels and the times of increased detoxification (a = early detoxification phase, b = middle detoxification phase, c = late detoxification phase)

Only after passage of the detoxification and everything has survived, [*then it is*] detectable what permanent damage the *Borrelia* has left behind which is no longer recoverable by the body itself.

### The Symptoms Which the Detoxification Products Generate

The patient recognizes the flooding of the body or of an organ with protein waste products and the repair activity of the organs by the following symptoms:

- Changes in the smell of the urine and skin
- Increased urine excretion particularly at night
- Bladder pain with improvement with urine departure (with infection it burns during urination)
- Hay fever-like symptoms (nose, eyes) with swelling and redness
  - Detoxification of the mucus membranes directly outward

- Asthmatic symptoms (lungs) with coughing and sputum
  - Detoxification from the lungs into the airways by coughing up
- Stomach aches with and without diarrhea
  - Detoxification from the intestinal cells into the intestine by departure with the stool
- Heart pains with compressions or piercing pain
  - Detoxification from the heart cells directly into the surrounding field
- Muscle and joint pains with movement restriction, with feeling of weight and solidification
  - Detoxification from the musculature or the joints directly into the surrounding field
- Destruction feeling, or feeling of total energetic breakdown from complete well being within seconds
  - Detoxification of the cerebral areas directly into the surrounding field
- Headaches, visual, hearing, balance and sensory disturbances of all kinds
  - Detoxification from the brain structures directly into the surrounding field
- Disturbance of heat and cold sensation
  - Detoxification from the thyroid gland and other inner glands
- [Dyssomnia] Difficulties in falling asleep [*dyskoimesis*] and sleeping through [*dysphylaxia*] – during the day very tired, as soon as the body comes to sleeping in the horizontal one is immediately wide awake, sleep almost only possible between 6:00 and 10:00 AM, sleep purely superficial, trance-like, every noise is perceived
  - Detoxification into the sleep regulation center of the brain
- Long continuous feeling of a glowing on the entire external skin
  - Detoxification from the skin, but also from all the other organs into the skin from the destruction by the hypersonic sound (see [5], paragraph 3).
- Depressive irritation over some hour up to days
  - Dissolving of the structures into the tissues which contain the psychic information and which induce long term depressive effects

This enumeration only lists the most frequent symptoms. Not everything appears, others can come. Usually only some of the symptoms are detectable at the same time.

Therefore it is never predictable which symptoms will appear and in which combination. Some have such a menacing effect that the affected person turns to the emergency doctor (e.g. heart pains with suspicion of cardiac infarction), or they are burdened so strongly that they take care of corrections (obtain new glasses, put in new hearing aids, shop for new blankets, etc.) which afterwards turn out as unnecessary because the sensory changes develop further or back on short notice.

In spite of the described symptom thrusts the whole state of the patient continuously improves. Sensation-wise it goes two steps forward and one step backward.

### **What the Detoxification Provokes**

Strong, apparent deteriorations appear above all:

- After phases of physical well being of several days (the body collected strength for the next action)
- After physical, muscular burdens like athletics or massages (increased blood circulation from otherwise less active tissues which are thereby activated)
- During or after heat, e.g. as a result of a sauna session (increased blood circulation of the skin and mucus membranes)
- During or after sun stress (ultraviolet rays activate the formation of special immune cells – dendritic cells – in the affected internal organs reducing the inflammation trend [9,10])

On the basis of various illness courses, variations and changes can also occur here.

### **Medications and Energetic Detoxification Support**

The application of symptomatically effective medications is possible and helpful at any time during the detoxification.

The healing duration and the pains during detoxification can be positively influenced energetically through a constant increase of the hypersonic sound levels in the body (see [5], Paragraph 2). Without testing this is only possible with an energetically informed collection solution from the range of the periodic system [*of chemical elements*] [11]. As a rule the intake amount for the energetic strengthening remains constant during the entire detoxification time.

As soon as the detoxification symptoms appear for the patient (see [5], Paragraph 8), you should try to relieve the body of this additional strain and thereby prevent tissue melting down through inflammation. This is possible while a drinking solution with a suitable hypersonic sound spectrum [11] is taken orally. The desired effect takes place immediately within seconds, so that the burdened tissue can recover in the following 5 to 10 minutes (see [5], paragraph 3), if the assigned solution quantity was sufficient.

However, if no symptom improvement is detectable after taking the drinking solution, as a rule the amount of this solution has not been sufficient. Then a repetition of the intake brings the aspired for success.

During the healing course constantly increase the detoxification strength with the patient.

That's why the detoxification thrusts not only increasingly appear, the patient also increasingly suffers them daily and their intensity increases in force. Under the circumstances during a detoxification storm he must resist for a few hours the aggressively detoxed protein and the symptoms generated by them with hypersonic sound products. – There originates the absolutely unusual picture of a continuously improving illness state which is however interconnected with a climbing quantity of necessary medications.

It turns out to be meaningful with advanced healing to always have a bottle with the manufactured drinking solution in case of need “for the worst” in order to be able to cope with the onrush with an immediate “gulp from the bottle”.

Only at the end of the detoxification phase the medication need reduces in order to then dry up completely.

### **Summary**

During the usually years long illness duration of Borreilosis the body has substantially changed internally. The re-construction of these changes is begun immediately after the elimination of the Borrelia.

The detoxification of the decomposition products occurs in thrusts. The detoxed amounts increase continuously during the healing process as a function of the regained degree of freedom of the cells. Every detoxification thrust is interpreted by the patient as apparent illness increase, provided that he was not intensively cleared over the healing process.

According to the illness intensity the healing is concluded after 3 to 18 months. What damage has remained behind because of the illness can only be judged definitively afterwards.

**Richard Kraßnigg, MD** is a specialist for general medicine with the sub-specialties of homeopathy and acupuncture. Continuing education in various alternative medicine methods. From 2000 to 2014 he was president of the *Internationalen Medizinischen Gesellschaft für Elektroakupunktur nach Voll* (the International Medical Society for ElectroAcupuncture According to Voll / EAV). Has an established private practice near Cologne. Educational and lecture activities with a main focus on hypersonic sound acoustics, EAV and the scientific bases of biological regulation.

Gammastrahlung	Gamma radiation

## MORA BioResonance Therapeutic Possibilities Getting the BEST out of your MORA Technology

**Date:** Thursday, September 10, 2015 (9 AM – 4 PM)

**Location:** Prevention & Healing Clinic, 10908 Schuetz Road, St. Louis MO

**Intended audience:** For beginners and advanced MORA® BioResonance users. For whatever model you are using, learn the true BioResonance Therapy applications.

You have the MORA, but how do you get the **best** out of it? This one-day lecture course guides you gently, starting with how to think about the way the MORA works, how to think about your patient's health problems, and how to match the two for optimum treatments.

For beginners, or for those who need a refresher, the basic concepts of classical BioResonance are clarified. Learn how to immediately provide effective treatments even if you don't know what you're doing yet.

As the day progresses, you receive expert guidance on how to tackle the most common underlying problems in health, including candidiasis, influenza, hay fever, food intolerances, "tummy bugs", Lyme disease, dental support, and hormonal issues. You will also learn how to verify that the treatment you've given has already been effective. Cases are presented to provide additional concrete information and summarize the day's information.

Lecture course features **Marguerite Lane, ND** from Australia. She has been in full time private practice since 2002 and has used the MORA Super since 2003. She is specialized in the BioResonance techniques of **Dr. Gottfried Cornelissen** of Germany.

This course is sponsored by **Occidental Institute Research Foundation** and presented in conjunction with the **Gateway Fdn. for Biological & Integrative Medicine**.

For information about attending this pre-conference program, please contact the Conference Director at [director@iamconf.com](mailto:director@iamconf.com). See further information on the **Curing the Incurables** conference, Sept. 11-13, 2015 at <http://www.iamconf.com/>

## Practice Application:

### MORA® Nova

True BioResonance Therapy with the Patient's own Frequency Spectrum  
From Med-Tronik, Germany

- Design meets Technology – presenting the MORA® Nova by Med-Tronik
- Standard EAV or MORA Optima assessment capabilities of the **Nova® MED Professional**.
- Full EAV assessment software incorporated into Nova® MED Professional for fast accurate testing and assessment using actual or electronic test sets.
- Optional “Tooth Testing” module for standard currents in the mouth, as well as assessment of dental foci.
- Cancer and Mitochondropathy Electronic Test Sets according to the research of **Dr. Gottfried Cornelissen** for cancer assessment and application.
- Or, VEGA-type testing capability has been incorporated into the MORA-Nova to allow utilization of available Electronic Test Sets – or of the coveted actual VEGA test set vials.
- For those who already have other testing and diagnostic methods in place, or for beginning BioResonance practitioners, the recently introduced **Nova® MED Basic** offers a less costly device with “therapy only” applications.
- **MORA BioResonance Assessment and Therapy Applications:**
  - EAV, MORA Optima or Vega-style diagnostics to confirm infection.
  - Major applications for detoxification and intolerance.
  - Building immune system.
  - Delivery of medication information.
  - Follow this link for [MORA BioResonance details](#).
- For order, delivery & pricing information contact OIRF Office at 1-800-663-8342

To start off our “Hot Summer Deals” – OIRF will pay the shipping for all MORA®-Nova orders placed during June 2015!

## Practice Application:

### Biophoton HPT 3D Standard

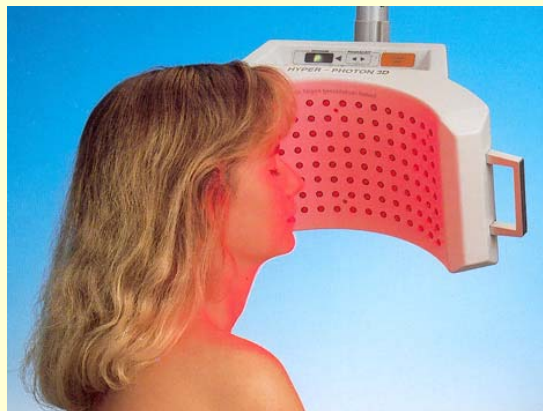

BioPhoton Light/Laser Therapy

From Medical Electronics, Germany

The most modern large area laser therapy, the Biophoton light therapy, with optional magnetic field therapy, depth relaxation, super-learning and energetic homeopathy, make this therapy apparatus a particularly effective instrument.

**64** Hyper-red Special LED  
(HeNe Laser carrier)  
660 Nanometer (Hyperred)  
ca. 6 Milliwatt per diode

**64** Laser diodes  
785 Nanometer (Infrared)  
ca. 6 Milliwatt effective per diode

- Eminently suitable for hair, face and body treatment. Impressive results within a short time – in particular with cellulite and other large area tissue problems.
- New modulation frequencies stimulate the body to produce endorphins. Endorphins improve the mental attitude, activate the immune system and optimize all the body's own self-healing effects.
- That is modern overall therapy – the therapy of the future! With this apparatus it can be impressively confirmed what modern energy therapy is able to do!
- **Optional accessories** for the HPT 3D HyperPhoton device include:
  - Magnetic coils (in three sizes) – to add a stronger and more focused magnetic field therapy component
  - Music modulation – to incorporate relaxing and healing sound through the BioPhoton field (e.g. reflection and meditation music of Arndt Stein, etc.)
  - Specially designed honeycomb for delivery of medication and remedy information
  - Either a rolling floor stand or a wall mounted “swinging” arm
- See further details and information at [www.oirf.com/inst-biophoton.html](http://www.oirf.com/inst-biophoton.html)
- For order, delivery & pricing information contact OIRF Office at 1-800-663-8342

## Practice Application:

### Oxygen Ion 3000 with VNS Diagnosis 3000

By Prof. Dr. Ivan Engler, Inhaled Ionized Oxygen Therapy  
From CS Tronic, Austria

The **Oxygen Ion 3000**/by Dr. Engler is a so-called oxygen-ionizator which enables you to enrich medical oxygen with electrical charge carriers in the form of “oxygen-cations” or “oxygen-anions”. The administration of enriched oxygen is carried out via an oxygen mask. The oxygen quantity varies between 4 and 8 liters, yet the changed charge quantity has to be considered. The therapeutic session lasts 12 minutes. As an alternative, oxygen concentrators may be used instead of oxygen cylinders.

Because of the state-of-the-art processor technology, the respective polarities are changed over automatically, without having to switch the oxygen supply. A data interface to VNS Diagnosis allows an automatic therapeutic transmission from the diagnosis device VNS Diagnosis 3000/by Dr. Engler.

As an ideal complement to Oxygen Ion 3000/by Dr. Engler, **VNS Diagnosis 3000**/by Dr. Engler supports your diagnostic procedure. VNS Diagnosis 3000/by Dr. Engler measures the capacity and the resistance between both gold electrodes and forms an optic display of the vegetative situation in the form of a LED-diagram. Of course there is the possibility to read off the measured values as direct numbers as well and can be interpreted individually. Because of similarities to the Oxygen Ion 3000/by Dr. Engler, a display of therapeutic proposals was also integrated. A data wire immediately transmits the therapeutic proposal to the Oxygen Ion 3000/by Dr. Engler, from which a further program selection can be started afterwards. The shape of the gilded electrode plates is handy and therefore facilitates the reproducibility of the measured results.

- See further details and information at [www.oirf.com/inst-oxygenion3000.html](http://www.oirf.com/inst-oxygenion3000.html) and [www.oirf.com/inst-vnsdiagnosis.html](http://www.oirf.com/inst-vnsdiagnosis.html)
- For order, delivery & pricing information contact OIRF Office at 1-800-663-8342

## ➤ OIRF Resource Materials (continued):

- Of the three full “home-study” or “extension training” programs developed by Occidental Institute, two have been fully updated and are available in PDF format on disc. Research and publication of each of those programs has been pivotal in the development and application of Acupuncture and Biological Medicine in North America and around the world. Be sure to obtain your copies of these famous and well respected volumes for your library and study purposes.
  - Modern & Traditional Acupuncture: \$165
  - Master of Acupuncture Program: Translations of the ancient acupuncture classics (The Nei Ching consisting of the Su Wen and Ling Shu, as well as the “Difficult Classic” the Nan Ching) are still available in printed format – \$125 Work on scanning and reformatting these materials will progress slowly as time allows during our busy summer and fall seasons.
  - EAV Desk Reference Manuals, Parts 1 & 2 – \$200
  - Diagnostics and Therapeutics Seminars of Dr. Sturm – \$200

Get more details at <http://www.oirf.com/resources.html>

### **“EXTENSION TRAINING” PROGRAM IN MODERN & TRADITIONAL ACUPUNCTURE**

Over twelve hundred pages of printed materials incorporating applicable materials from the supplementary textbook ([An Outline of Chinese Acupuncture](#)) and set of four charts (by [China Cultural Corp.](#)). Program starts off assuming you know nothing about acupuncture (a good place to start even if only as a thorough review of the basics) and takes you right through to the most heavy-duty advanced aspects of true, ‘energetical’ acupuncture. The finest and most comprehensive material in the English language, covers all seventy-one meridians of traditional acupuncture; that ‘missing sixty percent’ of acupuncture knowledge most “acupuncturists” have never even heard of; and, the modern electronic ‘needle-less’ treatment methods (Electro-Acupoint Therapy) now so popular.

Over 3,000 students were originally enrolled in this famous Extension Training Program, and the OICS graduate listings read like a “Who’s Who of Acupuncture” in the English speaking world. This program takes you as far as anyone possibly can in a ‘written’ format prior to the clinical finesse and practicum needed to round out your acupuncture study to professional levels.

### **FULL THIRTY-THREE LESSON PROGRAM NOW AVAILABLE ON DVD**

**Price includes** disc with all 33 Lessons, applicable supplementary textbook ([An Outline of Chinese Acupuncture](#)) passages and representation of set of acupuncture charts (China Cultural Corporation set of four). [Current editions of the textbook and charts can be easily obtained from suppliers of acupuncture books and supplies.] Price does **not** include printed materials, binders; or, any tutorial, examination, or certification privileges. Follow above link for full details. **Full set on one disc available for CDN \$165.**

### **Videotaped “DIAGNOSTICS” AND “THERAPEUTICS”**

**Seminar/Workshops by Dr. Walter D. Sturm† of OIRF Staff**

\* 1944-2004 †

#### **Part One on Diagnostics:**

- Electronic point measurement
- Medication testing, and more

#### **Part Two on Therapeutics:**

- **MORA-Therapy**
- Electronic Homeopathy
- Remedy Information Transfer, and more
- *Optional day on his other therapies!*

Follow this link to see a full description of these videotaped [“Diagnostics and Therapeutics” Seminar/Workshops](#) by the late Dr. Walter D. Sturm† of the OIRF Staff.

Available on five (5) DVD’s plus one (1) CD with all overheads and extensive handouts materials for CDN \$200 (plus shipping).

Published in Canada by: **Occidental Institute Research Foundation**

P. O. Box 100, Penticton, BC V2A 6J9 Canada

Phone: 800-663-8342 or (250) 490-3318

Website: [www.oirf.com](http://www.oirf.com) Email: [support@oirf.com](mailto:support@oirf.com)

➡ **Conferences and Conventions:** As a new approach to bring this information and education to a broader range of practitioners this year OIRF will sponsor speakers and lecturers in a number of conferences and events throughout the USA and Canada. Here are **some** of the conferences, conventions and seminars where our OIRF Board of Directors and Advisors are giving presentations and participating.

➤ **Comprehensive Course in Neural Therapy (NT).** This training course consists of six segments, three days each extending over a two-year period culminating with an exam and certification. **Dr. Ulrike Aldag** is a medical specialist for surgery and an experienced and accredited German Neural Therapy Association teacher. This is a unique opportunity to have practical hands-on and educational workshops.

First seminar will be held on Long Island, NY. The fee is \$800.

Friday, June 19, 2015: 1 PM to 4 PM; 5 PM to 7 PM

Saturday, June 20, 2015: 9 AM to 1 PM; 2 PM to 6 PM

Sunday, June 21, 2015: 9 AM to 1 PM

For more details contact **Michael Gurevich, MD** at [www.holisticmd.org/neural-therapy-course-announcement/](http://www.holisticmd.org/neural-therapy-course-announcement/)

➤ Here is a listing of **MORA Therapy and BioResonance training sessions** available in English. The following three sessions will be held in Friesenheim, Germany at the Med-Tronik training center:

<del>March 21-22, 2015</del>	<del>Basic MORA and BioResonance Completed</del>
<b>July 18-19, 2015</b>	Advanced MORA and BioResonance
<b>October 24-25, 2015</b>	Masters Level MORA and BioResonance

**Note:** The Master program takes place the weekend before the start of the OIRF Tour #42 (on Oct. 27) and the start of the famous Medicine Week Congress (on Oct. 28). If you are interested in attending this program, contact Carolyn or Elaine for "Optional Tour Add-Ons".

<b>September 10, 2015</b>	MORA BioResonance Therapeutic Possibilities With <b>Marguerite Lane, ND</b> , Australia at the " <b>Curing the Incurables</b> " Conference, St. Louis MO Sept 11-13, 2015
---------------------------	--

➤ **49th Medicine Week Congress**, Oct. 28 to Nov. 01, 2015, Baden-Baden, Germany, Directors and Germany Tour participants attending. Usually more than 3,000 doctors participate with nearly 200 lectures, workshops and courses (in German language). Main theme this year is "The Whole Keyboard of Healing". Exhibit area with more than 220 exhibits providing you an excellent insight into the big product offerings in natural healing and complementary medicine. There you can find out directly, and compare. Contact OIRF for attendance possibilities.

➤ **Biological Medicine Tour #42 to Germany**, October 27 to November 2, 2015. Join us for our **42nd** group tour including the world famous "Medicine Week" Congress in Baden-Baden. Tour program also includes private OIRF English language lectures from renowned German clinicians and researchers as well as pharmacy and clinic visits. See details previously listed in this Issue. Registration for this program will open within the next few weeks and is expected to fill quickly.

**Full details and registration information available on our website at:**  
<http://www.oirf.com/germany2015.html>

➤ **Gateway Foundation for Biological & Integrative Medicine** presents **Curing the Incurables**, Sept. 11-13, 2015, St. Louis, Missouri USA, OIRF Educational Exhibit area featuring the MORA Beauty/Nova. Details and registration at <http://www.iamconf.com/>

There is an impressive lineup of speakers including **Dr. Dietrich Klinghardt, Dr. Garry Gordon, Dr. Jeremy Kaslow, Marguerite Lane, Dr. Michael Gurevich, Dr. Michael Rehme, Dr. Robert Cass and Dr. Simon Yu.**

Attend an optional one-day workshop on **"MORA BioResonance Therapeutic Possibilities"** on Sept. 10, 2015 with Marguerite Lane, ND from Australia

➡ Follow this link to our website to see Issue #6 in print/PDF format.

### ➡ Updates, Reminders and Announcements:

➤ This morning as I prepared to format and publish this Issue #6 of The Bridge, I received an urgent and quite harried email from OIRF Medical Advisor and Director **Dr. Karim Dhanani**. It is in this issue where Dr. Dhanani's annual (and always anxiously awaited) article was to appear. All is not well in Ontario for our Naturopathic Physicians. A new legislative proclamation will come into effect on July 1st (or at some point in the near future) which will severely limit the scope of practice for our NDs. OIRF will be monitoring this situation closely and has offered all possible support in the movement to 'overthrow' this punitive legislation. Contact Carolyn at OIRF if you are able to offer support directly to this effort.

➤ Watch for Volume 11, Issue #7 of the "The Bridge" newsletter to arrive in your Inbox around mid-July. Next to be featured will be another article out of one of the German journals translated by Carolyn. The planned article by German Heilpraktiker, **Olaf Schultz-Friese** is an interesting look at *"Environmental Pollution and Environmental Illnesses, Therapy Possibilities"*. Hopefully with defeat of the above mentioned situation in Ontario, Canada Dr. Dhanani will become sufficiently un-harried to be able to send us his article contribution at a later date. It will be included within a later issue of The Bridge.

➤ Visit our **Facebook** page – will you be our friend?

I trust you have found much of interest in these pages. Most of the arrangements, plans and details for our many 2015 events and activities have been finalized, and also there are many informational articles being prepared for the next Issues of this Volume 11 of "The Bridge". Electronic publication with access open to all will continue throughout 2015 and we look forward to bringing you that cutting edge information for which OIRF is famous.

We look forward to meeting you during our 2015 activities and programs. As always your comments are welcome. Remember that this is your newsletter – your suggestions, article contributions, critiques, FAQ's and compliments – are gratefully accepted.

Yours in health,

*Carolyn*
