

Occidental Institute Research Foundation

Happy 45th Sapphire Anniversary!!! Congratulations Occidental Institute

Occidental Institute first opened its doors in Weston, Ontario Canada on July 2, 1972. It's been a long and winding history from those first heady days of being the first traditional acupuncture school in North America until today's non-profit research organization dedicated to the dissemination of information about Biological Medicine.

As we celebrate our 45th Anniversary in a few short weeks, I am once again amazed by the number of years that have passed. How did that really happen? Or is it just that time flies when you're having fun? The other day as I spoke with an acupuncturist from California who worked closely with OIRF when we were located in Florida and California, I was deeply touched to hear firsthand how the research and teaching done by OIRF over the years has influenced his practice and so many others as they implemented the Biological Medicine techniques recommended by this organization.

As a small family-run business, achieving this anniversary of 45 years in continuous operation is an incredible accomplishment all on its own. But, to think we have survived in this field of complementary and alternative medicine in spite of legal and registration obstacles is nothing short of amazing.

I thank you for your support, because we quite literally could not have done it without you. And so, as we celebrate our past, we are entering a summer of transition and change while we move forward to embrace our future. As Canada celebrates 150 years on July 1st and our American friends enjoy Independence Day on July 4th, we hope you will also join with us to celebrate this very special anniversary for Occidental Institute.

Carolyn

Occidental Institute Research Foundation

THE BRIDGE

Linking Practitioners of German Biological Medicine

Volume 13, Issue #6, June 2017

Tuesday, 20 June 2017

Dear Colleagues, Friends and Supporters of OIRF,

👉 Welcome to Volume 13, Issue #6 of "The Bridge" newsletter!

Welcome to this sixth Issue of "The Bridge" for 2017. In this Issue I have included an article translated from a recent German Journal about "*Dental Treatments for Cancer Patients*". It was written by **Johanna Graf, DMD** and **Karlheinz Graf, DMD** who have a large clinic in southeastern German. Similar procedures are discussed in depth during the Acupuncture Meridian Assessment seminars in St. Louis, sponsored by **Simon Yu, MD**.

Next month's Issue #7 will feature another one of Carolyn's translations out of a recent German Journal about "*Breast Cancer: Better Results through Holistic Treatment*" with mention of a MORA application. Then, (finally) in Issue #8 (August) another article translated from one of the German Journals that will give you an introduction to the re-designed **RM10 diagnostic device from Med-Tronik**. This smaller and reasonably priced device offers a long list of benefits and capabilities! More on that to follow . . .

👉 Please see the 2017 Events Calendar on Page 27 of this Issue and also on the [Events Page](#) of our website where you will find the current conference listings. Watch for announcements of several other conferences and seminars where you will find OIRF in an education or exhibit booth.

👉 I remind you about the forthcoming [OIRF Germany Tour #44](#) which will take place October 26 through November 1, 2017. These dates coincide with the dates for the world famous Baden-Baden **Medizinische Woche** Congress, If you already plan to travel to German to participate in that congress, let us handle your "in Germany" arrangements and then join us for the exclusive private sessions planned specifically for our tour group participants. Here is the inexpensive and easy way to enjoy a relaxing, well organized and carefully arranged educational program.

Now that the Medicine Week organizers are finally announcing and completing their seminar schedules, we have made great progress in finalizing our own tour itinerary. You can follow this [Itinerary 2017](#) link to see our daily activities and travels through the beautiful Black Forest of Germany.

We have already received and confirmed registrations for this tour program. This year we are specifically limiting attendance to a smaller group in order to ensure each participant receives the personal and individual attention that will guarantee a pleasurable and worthwhile series of educational events.

Some of the special features of this Tour #44 are:

Keynote Speaker is **Manfred Doepp, MD** on the “*Digital Clinic*” and “*Rapid exponential increase in the blanket of electromagnetic frequencies in our environment*”.

- **Clinic Lecture:** Integrative Cancer and Lyme Disease specialist – **Dr. Friedrich Douwes**
- **Clinic Lecture:** Biological Medicine specialists using multiple modalities – **Dr. Uwe Reuter** and **Dr. Ralf Oettmeier**
- **Clinic Lecture:** Diagnostic and Therapeutic procedures and results, as well as newer therapies such as Laser IV Therapy – **Dr. Olaf Kuhnke**
- **Pharmacy Lecture:** RNA Therapy – **Dr. Georg Stommel** and **Dr. Siddhartha Popat**
- **ALFA Thermodiagnosics:** regulation thermography – **Dr. Dan Beilin**
- **ONDAMED:** PEMF with biofeedback – **Dr. Silvia Binder**
- **THERAGEM:** Fusion light therapy – **Catharina Jansma**
- **Med-Tronik: MORA** BioResonance Therapy and Diagnostics – **Dr. Nuno Ruivo** and **Dr. Peter Mahr**
- Evening lectures, training sessions and discussions with attending OIRF directors and advisors

Note: Some of the above lectures are sponsored English language lectures that are part of the Medicine Week Congress program itself. The OIRF group has been specifically invited to attend. Our actual itinerary is being finalized and published following publication of the Med-Week program and schedules.

➡ **Advance Notices** (see details Pages 3, 5 and 27-29 in this Issue):

➤ **AMA** (EAV) hands-on workshop for MD’s during June 2017 sponsored by **Dr. Simon Yu** of **Prevention and Healing** in St. Louis, Missouri.

Note: This AMA training and boot camp session has recently been opened to practitioners with alternate certification. **Final Notice for this Session!**

➤ **The Tenth International Alternative Medical Conference** sponsored by **Dr. Simon Yu’s Gateway Foundation for Biological and Integrative Medicine** will feature multiple excellent speakers. **Dates Sept. 28-30 and Oct. 1, 2017 in St. Louis, Missouri.** See www.iamconf.com/ for full details and registration. This is a highly recommended conference!

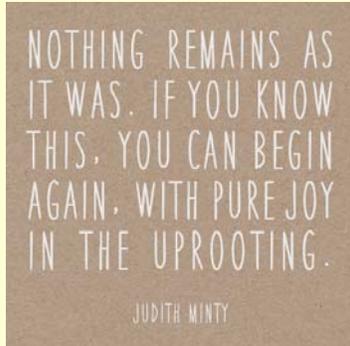

➡ I invite all of you to maintain your email or print subscription to “The Bridge” newsletter. All 2017 issues of “The Bridge” will be sent to you by email and then published on our website. **Access is open to all.** Follow this link to get your PDF print copy of “The Bridge” Volume 13, Issue #6.

Further new and cutting edge articles from our prestigious Board of Advisors and Directors as well as more of Carolyn’s translations of articles from current German journals are underway for future Volume #13 issues of this newsletter. Issue #7 which should arrive in your Inbox around the middle of July, will feature another article translation.

That long awaited introduction of the RM10 diagnostic device will finally appear in Issue #8 and will bring you an article by, as well as an introduction to, our newest Medical Advisor, **Dr. Robert Cass** of the **Academy of International BioEnergetic Sciences**.

It's Official!!

We are moving!

The final papers have been signed and our current big commercial building has been sold. We renovated and designed these offices especially for our purpose just over eleven years ago, but time has passed while priorities and needs have changed.

We have located a new home which is much smaller and more convenient for our working and home environment. Moving days will be the last weekend in July and there will

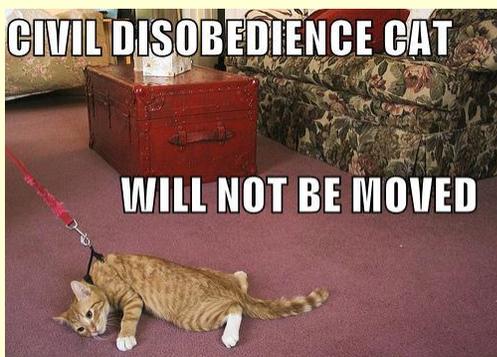

likely be some disruptions in our phone and internet service as everything is transferred over.

Packing and preparing and boxing and all that neat stuff has begun and we will necessarily be away from our desks during the coming days and weeks. The best way to stay in touch is by email, which we will watch and monitor as closely as possible. We'll pick up the phones whenever we can work our way out from under the piles!

We are asking for your patience and understanding as we move through this period of change and transition. Carolyn will be participating in two seminars during the transition (Elaine thinks it's an excuse for me to get out of packing, but . . .):

- Dr. Simon Yu's AMA seminar, St. Louis, June 23-25, 2017, and
- MORA Practicum seminar, Toronto, July 6-10, 2017

We anticipate that our phone and email addresses will remain the same, and will keep you posted on any changes and the new location address as we move closer to the big day. I had great fun looking at all the cartoons and clip art in the "moving" theme and although my beloved little Missy is no longer with us, I couldn't resist including this great picture (somebody else's cat!).

Stay tuned for breaking news!

WEBINARS FROM MED-TRONIK!

Every two (2) weeks, Med-Tronik will be conducting a webinar on various subjects with application and function of the MORA[®] Nova. Each webinar will be approximately 30 minutes in length and will be in both German and English.

Click here for the German webinars: <http://www.med-tronik.de/academy/webinare.html>

And here for the English webinars: <http://www.med-tronik.de/en/academy/webinars.html>

Simply press the Register button and sign up. You will be sent a confirmation email, as well as a reminder closer to the date.

This is a terrific opportunity for you to receive ongoing education featuring some of the best and most famous instructors from Med-Tronik including **Dr. Nuno Ruivo**, **Dr. Peter Mahr** and even occasionally **Dr. Gottfried Cornelissen**. If the times don't work for you, don't worry, Med-Tronik will be archiving them so you can watch at your own convenience (or time zone).

Depending on time available, there may even be time at the end for a brief Q & A.

We look forward to you taking advantage of this terrific opportunity to get training on a regular basis. More topics will be available as time permits.

Be sure to save this to your "favorites" and join in regularly.

English BioResonance Power Week: MORA[®] in Daily Practice

The BioResonance Power Week has been devised in order to facilitate our International customers in obtaining their MORA certification. This six-day long English language seminar will cover all standard seminars, Basic, Advanced and Masters.

Price: €400 per person inclusive lunch, scripts, excl. VAT

Duration: 5½ days, Monday-Friday 9 AM to 5 PM, Saturday 8:30 AM to 12 Noon.

Instructors: Dr. Nuno Ruivo and Dr. Peter Mahr

Dates: July 24-29, 2017

To get further details and register go to:

<http://www.med-tronik.de/en/academy/seminar-offers.html>

Dental Treatments for Cancer Patients

By Johanna Graf, DMD and Karlheinz Graf, DMD

From an article in *Naturheilkunde Journal*, Volume 19, May 2017
Machine Translation by SYSTRAN, Lernout & Hauspie, LogoMedia & Prompt
Translation & redaction by: Carolyn L. Winsor, OIRF

© Copyright 2016, Drs. Johanna & Karlheinz Graf, Straubing, Germany

Cancer patients should have immunological and toxic disturbances carefully removed from the oral cavity in order to ease the burden on the self healing forces.

The treatment of a cancer patient must occur according to strict environmental-dental criteria. The goal of every dental therapy is to raise the self-regulation of the body and to ease the burden on the immune system as well as possible. In addition an expertise is necessary which unfortunately is only partially taught within the framework of knowledge transfer in the dental university.

A cancer illness is a severe chronic disease with multiple causes. As a rule it is a result of various disturbances from different subsections of medicine. Depending on the individual constitution someday the point is reached at which the resistance strength of the organism can no longer compensate for this variety of disturbances in their interactions among each other. The self-control (self regularization), the prerequisite of our health is overtaxed – the individual “barrel of disturbances” overflows. Whether and/or when this point is reached depends on various factors, i.e. on:

- The sum of individual disturbances
- The interaction of disturbances among each other
- And from very individual factors like the size of the barrel with their genetic and immunological circumstances (Fig. 1)

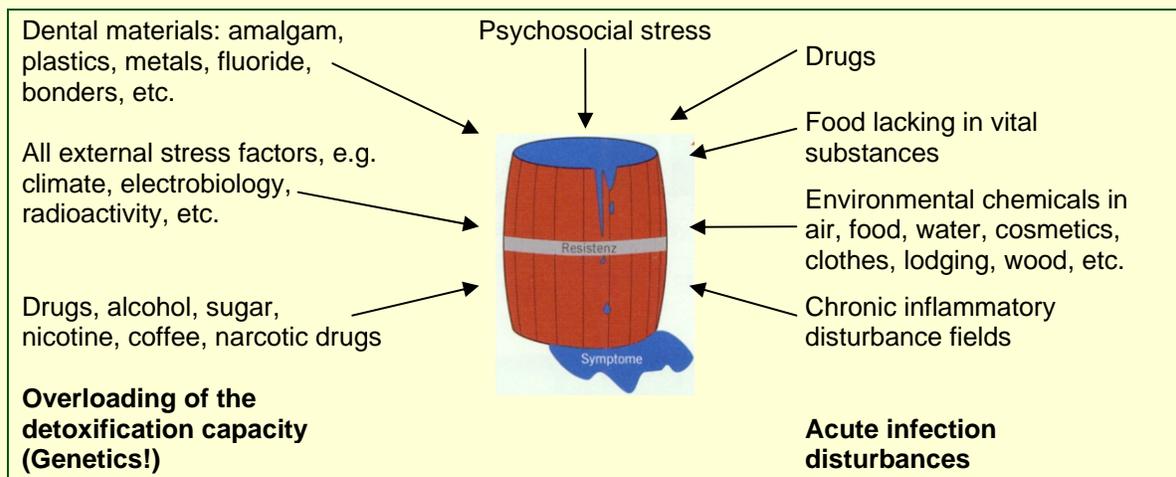

Figure 1: The unit is not crucial, the size of the barrel and the sum of the individual disturbances is crucial.

Therefore the treatment goal for every chronically ill patient must be to empty this “barrel of disturbances” as well as possible, so that the self healing forces can actively work again. For this reason for treatment of cancer patients, a dentist competent in this issue should also always contribute his part to that.

Disturbances in the Teeth

In dentistry we distinguish immunologically relevant disturbances, as chronic inflammation (continuous) disturbances with the main aspect of the non-healable inflammation, and as chronic-toxic disturbances which are predominantly described as problems of dental materials (Fig. 2). In the holistic dental practice two highly explosive problem fields with their interaction among each other are indicated extremely often: Amalgam as well as nerve-dead teeth.

| Relevant Immunological Disturbances from Dentistry | |
|--|--|
| Endogenic = Inflammatory degenerative types | Exogenic = Chronic toxic types |
| <ul style="list-style-type: none"> • Chronic pulpitis • Shifted teeth • Root remnants • Granulomas and cysts • Foreign bodies • Parodontitis marginalis • Chronic Jaw Ostitis • Jaw joint and chewing musculature • Root canal teeth • Scars | <ul style="list-style-type: none"> • Fluoride • Plastics • Cement • Aldehydes • Metals • Root canal teeth <p>= Environmental Dental Medicine</p> |

Figure 2: Relevant immunological disturbances from dentistry

Amalgam is a chronic-toxic filling material (also “old” fillings) which delivers a daily mini-dose of mercury. This mercury is only partially detoxified by the organism and again excreted. However the predominant part remains in the organism, gathers in the connective tissue, in the organ cells, in the nerves and in the brain with a variety of progressive functional disturbances and pathologies. Due to the very strong connection of mercury to organic structures, solely a removal of amalgam from the teeth is absolutely not sufficient enough to accomplish amalgam reduction. An amalgam detoxification after removal of the fillings is always advisable. Therefore over and over again amalgam disturbances are a reality even for patients who often already have no more amalgam in the mouth for many years (Fig. 3).

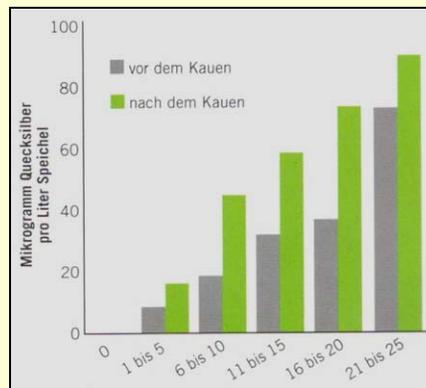

Figure 3: The mercury disturbance increases with the number of amalgam fillings. [Microgram of mercury per liter saliva, Grey = Before mastication, Green = After mastication]

Nerve dead teeth form a permanent multiple disturbance for the immune system (Fig. 4) by:

- The remaining “cadaveric poisons” in the canal system of the devitalized teeth
- The chemical additives of the root filling materials
- The permanent infection by bacteria in the canal system of the dead teeth
- The thereby resulting non-healable inflammation around the nerve dead tooth
- The energetic interaction in the system of the meridians

Thus every devitalized tooth burdens the organ system in a fivefold manner:

- By the toxic protein decomposition products from the canal system of the teeth
- By the root filling materials in the central canal
- By the obligatory bacterial settling in a root canal treated tooth
- By the apical osteitis resulting from it
- As an information and energetic disturbance field

Figure 4: Disturbance of the organism by nerve dead teeth

Since especially the immune system of the chronically ill patient must be relieved, the nerve dead teeth of the severely chronic patients are an absolute contraindication and form a therapy obstacle of the first class.

For patients with amalgam disturbances the aggravating situation comes into effect that mercaptan (cadaveric poisons) from the branch canals of the dead teeth has a high connection ability with mercury and thus can very easily form the highly toxic dimethylmercury, a material by which approximately 200 enzymes can be **in**activated in the metabolism of the organism (Fig. 5).

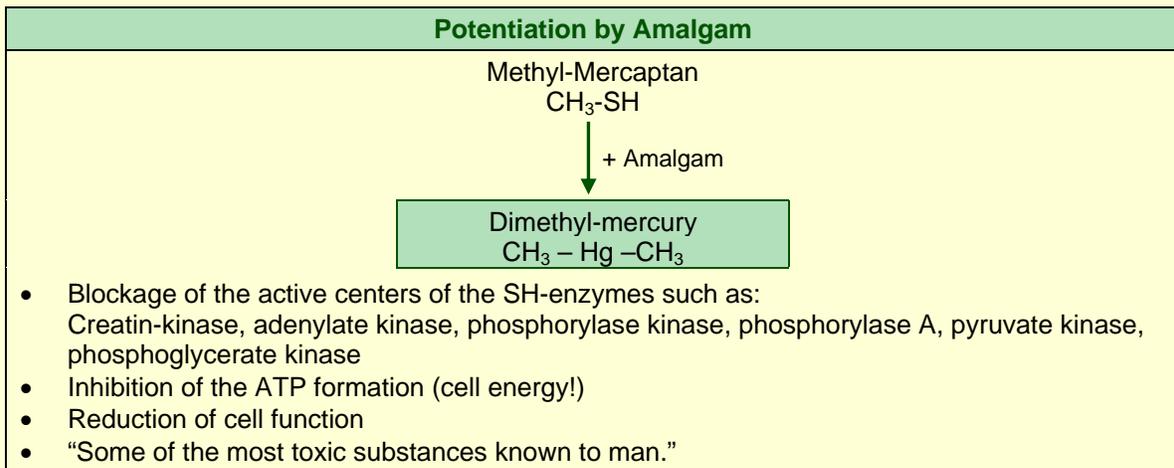

Figure 5: Potentialiation effect from amalgam on mercaptan

Therefore the very first treatment step for cancer patients should be a careful amalgam removal (according to the criteria of the German Society for the Environment and Human Toxicology). For patients who previously had amalgams in their mouth, an amalgam provocation test is recommended depending on the situation at the time, to detect the level of a possible “residual disturbance” in the organism.

Since experience has shown a large number of cancer patients have nerve dead teeth in the mouth, it is also a matter of carefully removing them, regardless whether on the X-ray image an inflammation is recognized or not. Unfortunately, a so called “root tip resection” (apicectomy, i.e. a shortening of the tooth root with a surgical removal of an inflammation) does not resolve the problem, because the cause of the multiple disturbances, namely the tooth itself, is not eliminated.

However already here begins the next treatment problem:
the necessary set of dentures!

Ceramics versus Metal

Usually almost all kinds of dentures have a metallic component – many are even manufactured predominantly from metals. Since there is no **metal** which is absolutely corrosion free (not decomposed) in the mouth, the next source of immunological disturbances for a cancer patient is constituted here. Metals can cause allergic reactions, irritations of the biological regulation and chronic toxic disturbances of heavy and light metallic ions with an inhibition of the self healing strength and an enormous palette of possible symptoms.

As a result toxic effects develop through:

- Functional restrictions of detoxifying organs like e.g. kidney, liver, etc.
- Functional restrictions of hormonal systems like e.g. pituitary, adrenal gland, thyroid gland, pancreas, prostate, etc.
- Functional restrictions in the central and peripheral nervous system
- Functional restrictions of enzymes and the metabolism

In very strong measure the metal problem also applies for the treatment of implants. As a rule **implants** consist of titanium, a base metal that corrodes in the jawbone. It is well known in school medicine that the osseous parts around the existing implant are strongly burdened with titanium and also the regional lymph nodes, the first filtration station of the organism is full of titanium. However, because no allergy to titanium is known and an incompatibility is synchronized with an allergy by school medicine, everyone (according to orthodox medicine) tolerates titanium. As a rule a possible toxic disturbance from titanium is therefore not school-medically of further interest.

Disturbances of the Jawbone

For seriously chronically ill patients **chronic jaw osteitis**, also called NICO*, should as well be emphasized on the list of immunological irritations from dentistry. In this case it concerns a local inflammation in the jawbone without the usually typical inflammation signs like pain, X-ray or increased temperature. Because the inflammation area is difficult to recognize with the conventional dental X-ray procedure, the diagnosis is not very easy. However the jawbone inflammation is a disturbance field of the first order with massive influence on the regularization behavior of the organism and on the immune system.

A chronic jaw inflammation, although it usually appears very “hidden”, can often exhibit an unexpected size (Fig. 6) and as a rule can only be removed surgically, which is not completely **un**problematic with the defense situation of cancer patients. However if the condition of the patient permits, the obligatory elimination of a NICO should occur with reinforcement of the regularization capacity and the immune system before and after therapy, in order to buffer the treatment stress to the organism.

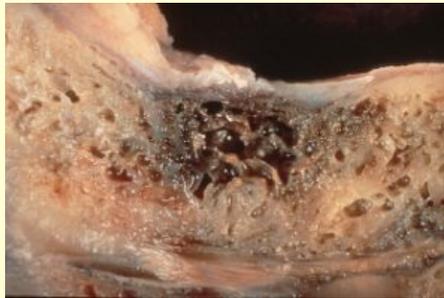

Figure 6: Clinical image of a NICO
Photo courtesy of **Gary M. Verigin, DDS**

Disturbances in the Gums

Moreover, in this connection the role of **marginal periodontitis**, called “periodontosis” in the vernacular, a chronic (continuous) inflammation of the gums, must also be mentioned. Science already agrees for a long time in the fact that “marginal periodontitis” is not to be considered as an isolated illness, but rather indicates only one symptom within a symptom complex, which is again accompanied by certain health risks, like:

- Increased general infection readiness
- Clearly increased risk of a thrombosis formation
- Increased danger exists for coronary arteries up to cardiac infarction
- Pregnancy complications with increased risk of an untimely labor, premature birth or miscarriage
- Interaction and reinforcement effects with environmental poisons and recreational drugs, heavy and light metals as well as hormonal disturbances.

* Neuralgia Inducing Cavitation Osteonecrosis = NICO

Therefore “periodontosis” is simply one symptom for a comprehensive immunological health problem, which requires therapy not only for chronic patients.

Basic Therapeutic Considerations for the Cancer Patient

For caries **preservation therapy** [*dental*] stone cement is the least burdening material. Unfortunately the durability of these materials leaves much to be desired, so that in exceptional cases plastics, in spite of their immunological side effects, can absolutely also find application. Meanwhile there are plastics on the market which dispense with some of the toxic ingredients without deteriorating the durability. However, an immediate, better and more careful preservation treatment for bigger tooth restorations would be with fully ceramic partial crowns.

For **prosthetics (dentures)** metal free treatment is preferential. This applies for all kinds of dentures including a possible treatment with implants. For metal free implants the fully ceramic is preferred to those from PEEK plastics.

With seriously ill cancer patients, a larger **surgical intervention** in the form of row extractions or surgical jaw interventions should be carried out as carefully as possible for protection of the immune system.

Therefore it would be much more sensible for everybody in the sense of genuine prophylaxis, to minimize the multifactorial influences which favor cancer events as well as possible so that it cannot only come to a chronic illness. However in our today’s modern life this is just not quite so easy and requires a critical knowledge.

For patients who would like relevant critical knowledge, various environmental medical associations stand by with support (e.g. DGUHT – proactive for people and the environment *Europaem*, etc.).

The Authors

Johanna Graf, DMD: Study of dentistry in the Charite Berlin, state dental exam in 2012. Since 2013 qualification in the Department of Environmental Dentistry and holistic systemic dentistry. Afterwards specialized in the faculty of metal free implantology and digital full ceramic tooth restoration in Munich and Kreuzlingen, Switzerland. Member of the ISMI (Int. Society of Metal Free Implantology). Member of the practice team Drs. Graf & Partner, Straubing, Lower Bavaria. Author in various specialty journals.

Karlheinz Graf, DMD: Study of odontology in Dusseldorf. In his own practice in Staubing, Lower Bavaria since 1979. Licensed as a Naturopath in 1992. Qualified member of the "International Society for Holistic Dentistry" (GZM) since 1998. Author of the textbook "*Ganzheitliche Zahnmedizin – Fakten, Wissenswertes, Zusammenhänge*" [= Holistic Dentistry – Facts, Interesting Information, Connections] (Joh. Sonntag-Verlag). In 2004 founding of the "Competence and Therapy Centers of Environmental Dentistry and Holistic-Systemic Odontology" in Staubing. Director of the working dental group in the "deutschen Gesellschaft für Umwelt- und Humantoxikologie [= Society for Environmental and Human Toxicology] (DGUHT) since 2008, since 2009 vice-president of DGUHT, and since 2013 is president of the DGUHT. Author of textbooks on the subject of environmental dentistry and holistic dentistry.

FAQ's

The following questions regarding MORA and BioResonance were recently received from a patient, but echo questions I have repeatedly heard from practitioners and researchers during my lectures and exhibitions throughout North America. They arrived just as I was completing a research project in preparation for a lecture on Resonance introducing MORA-Therapy and Assessment. My answers to the gentleman are taken from portions of that lecture. CLW

And the questions from Mr. XXX are:

I have become superficially acquainted with Mora Therapy only very recently, as a patient. I find the concept of Mora Therapy intriguing but utterly obscure, with online resources being scarce and superficial. I understand that the theory of 'how' or 'why' Mora works is still provisional, at least to the same degree that quantum mechanics and physical explanation of homeopathy are provisional, but that there exists a robust body of clinical research showing its effectiveness. I hope you will be able to dedicate a few minutes of your time to answer a couple of my questions about Mora, and perhaps recommend the most detailed and current account of Mora-super theory and citations of the most comprehensive validation studies.

For now I have two questions:

- 1) assuming that the measured/received waveform is a 'complex' superposition of multiple 'simple' waveforms originating from various organs, tissue types and regions, how does the mora machine differentiate between healthy and pathological 'simple' waveforms? Or is the entire 'complex' waveform shifted 180deg. out of phase for therapeutic purposes?
- 2) what are the properties of a 'healthy' waveform and how is that known?

I will limit myself to only these two questions, although I would like to ask many more....

Thank you for indulging my curiosity.

And some of the answers from Carolyn Winsor are:

Dear Mr. XXX,

I thank you for your email and questions and will attempt to offer some basic and brief explanations. Similar to your practitioner, I have personally been involved with MORA Therapy for many long years. Initially, like you, we were skeptical about the concepts and applications of this method but as the 40+ years have passed since its introduction in Germany we have literally seen hundreds of studies and research programs explaining not only the mechanism but also confirming the effectiveness of this classical BioResonance Method.

For further and a bit more in depth information I can refer you to our OIRF website where you will find some other articles and information talking about the concept. There are also a number of publications available, even copies of the elusive MORA Concept book by Dr. Morell that has long been out of print. Seminars, training, conferences and workshops regarding this method are aimed at practitioners and there is not a lot of detailed information available for patients.

In terms of listings of studies outlining mechanisms and validation, I am unfortunately not authorized to release much of that information. Such validations are proprietary to Med-Tronik (and a few other companies) and are being utilized in registration and certification procedures in numerous countries worldwide. A primary example is China, where MORA is registered with their equivalent of the FDA and the device is used extensively within their hospitals and private clinics.

And you are correct that the theory and explanations for this method and other concepts like homeopathy are considered "provisional". The reason for this is that orthodox or "school" medicine is based on chemistry and the body's physical response to trauma, damage or disease and does not take into consideration such so-called esoteric concepts as resonance and energy. Without taking into consideration the physics of those two basic elements there can simply be no true explanation for how MORA and other bioresonance concepts work.

The most important and underlying concept of this method is resonance. A quote from **Dr. Albert Einstein** states: *"Everything is energy and that's all there is to it. Match the frequency of the reality you want and you cannot help but get that reality. It can be no other way. This is not philosophy. This is physics."*

And also a quote from the engineer **Nicola Tesla** states that *"If you want to find the secrets of the universe, think in terms of energy, frequency and vibration . . ."*

Much of the generalized intent of those quotes is substantiated by the research and work of **Prof. Dr. Fritz-Albert Popp**, **Prof. Dr. Roeland van Wijk**, **Prof. Dr. Alfred Pischinger** and **Prof. Dr. Harmut Heine**. The concept here is that energy is the basis of all, and that all energy and frequency communication happens through light. Although I am not a physicist, there are multiple kinds of textbooks, articles, research and studies available to you within the fields of physics, quantum physics and technology if your interest lies in those directions. As far as we are concerned, it is the communication of energy, light and information via the electromagnetic pulse that is the basis of BioResonance.

One of the dictionary definitions of resonance is "*a sound or vibration produced in one object that is caused by the sound or vibration in another*". If we work from the standpoint that all things possess a unique vibrational energy, then we must also accept that some frequencies will resonate (work together in harmony) and some will not (creating disharmony).

And so to your questions:

1) This is a very astute question and represents the key difference between MORA and other bioresonance devices and biofeedback. By using fundamental electronic or electromagnetic pulse concepts the energy and frequency information of the patient is measured/read and can then be returned to the patient.

- With **biofeedback** for example, the device measures all incoming frequencies and gives them back to the patient as therapy. There is no processing of the frequencies or energetic information. Some biofeedback devices claim to focus (usually via frequency) on specific areas of disease or disorder in the body, and are very effective in handling the emotional and mental aspects.
- With many **alternate bioresonance** devices, they utilize the concept which you mentioned here. Initially they use the biofeedback principle, and alternately to treat disorders like allergies they use phase inversion by 180° of **all** incoming frequencies. Although this is effective for some applications it is certainly not effective when treating patients who are ill with more complex issues than allergies.
- With **MORA BioResonance Therapy** by Med-Tronik – and I must mention only from Med-Tronik – **Dr. Franz Morell** and Mr. **Erich Rasche** developed a very specific filter mechanism for processing these incoming frequencies and which is a testament to their genius. Not unlike the filter concept of a Reverse Osmosis water filter which separates the molecules by size, they developed a frequency filter mechanism which is an electronic filter in combination with an organic component. (I suspect that component is something like chlorophyll, but have never been privy to that very proprietary information.) This filter is able to "read" the incoming frequency information and separate that information into two distinct sets of frequencies based solely on resonance. Those frequencies which resonate with – or echo – or resound with – the patient's body are considered harmonious and pass through the filter without processing or change. Then only those frequencies which are dissonant or disharmonious can be processed separately from those which are resonant. This filtration is based on the same principle as the infamous resonating harmonious tuning forks for determining what is physiological and what is pathological. The secret and the key is that filter mechanism.

The concept here is that the harmonious/resonant energy is returned to the patient (sometimes amplified) to assist the body with its own self healing energy. The disharmonious/dissonant energy is phase inverted 180° and returned to the patient to neutralize the dissonance similar to the noise cancellation technology used in our favorite earphones when we're traveling. Obviously, both technically and in application there is more to it, but the fundamental concept is easily explained within regular physics let alone the research now available to us through the use of quantum physics and biophotons (communication through light).

- With a few of the **alternate bioresonance** devices (usually copies of the MORA devices) the filter mechanisms they utilize do not include the proprietary organic component but rather are only an electronic filter which has limitations in separating and processing the incoming energy information.
- 2) The properties of the physiological and pathological waveforms are determined via resonance. As with auditory or music tones, those notes or tones or frequencies or vibrations which resonate or are harmonious will vibrate together – one setting off another without impulse like the strings on a piano.
- However the pathological waveforms will be dissonant. They will create a dissonant beat pattern that automatically separates them from resonance. Like the piano tuner uses the beat pattern of dissonance to re-tune the piano strings, so does the filter of the MORA device discern the different – the disharmonious – frequencies allowing them to be re-tuned or processed for return to the patient.

I hope this brief explanation will answer your questions regarding how MORA Therapy works. With kind regards . . .

Occidental Institute Research Foundation

44th Biological Medicine Tour to Germany

Thursday, Oct. 26 through Wednesday, Nov. 1, 2017

**Theme: Putting It All Together: A Comprehensive Overview
of Effective Modalities in Biological Medicine**

Coordinated and Hosted by: Carolyn L. Winsor,
OIRF Managing Director

Keynote Speaker: *Manfred Doepp, MD*, Founder of DGEIM, Researcher

Beautiful Baden-Baden in the Fall!

- Visit and participate in the famous **Baden-Baden Medicine Week Congress**

Here's part of the group gathering outside the Medicine Week Congress House

- Plus exclusive and Med-Week English language lectures for our OIRF group:
 - **Clinic Lecture:** Integrative Cancer and Lyme Disease specialist – *Dr. Friedrich Douwes*
 - **Clinic Lecture:** Biological Medicine specialists using multiple modalities – *Dr. Uwe Reuter and Dr. Ralf Oettmeier*
 - **Clinic Lecture:** Diagnostic and Therapeutic procedures and results, as well as newer therapies such as Laser IV Therapy – *Dr. Olaf Kuhnke*
 - **Pharmacy Lecture:** RNA Therapy – *Dr. Georg Stommel and Dr. Siddhartha Popat*
 - **Alfa Thermodiagnosics:** Regulation Thermography – *Dr. Daniel Beilin*
 - **ONDAMED:** Pulsed electromagnetic field therapy with biofeedback – *Dr. Silvia Binder*
 - **THERAGEM:** Fusion Light Therapy utilizing gemstones – *Catharina Jansma*
 - **Med-Tronik:** BioResonance Therapy and Diagnostics – *Dr. Nuno Ruivo and Dr. Peter Mahr*
 - Evening lectures, training sessions and discussions with attending OIRF directors and advisors
- Our private lectures present the latest information and research in our field, with ample time for questions and hands-on
- Presentations from famous German Biological Medicine Clinics
- Presentations by several instrumentation companies on the practical application
- An opportunity to talk with like-minded colleagues and learn from the experience and expertise of attending OIRF Directors and Advisors.
- Be treated like family with good food, good friends and good conversation in friendly hotels
- Travel in comfort with plenty of room for luggage, and stay in a family run hotel close to Baden-Baden.
- Tour price of C\$3,895/US\$2,795 includes full tour program, 7 nights single room and all but a few meals.
- **Register early!** Attendance will be strictly limited this year.

The FIT 915 from Medical Electronics

Light: Scientific research results confirm the importance of correct light conditions

Healthy with light

The correct light at the right time; this leads to an outstanding potential of until now unused possibilities in energetic regeneration. Discoveries in the areas of photo-biology and chrono-biology reveal new and easy to use technologies within a wide ranging spectrum with effective application of light in a bio-energetic therapy.

Light: a phenomenon which has occupied human beings since ancient times. It is only now that we understand the enormity of the biological processes which are connected to this energy but which are still not fully understood. Only slowly is natural science recognizing how extremely important the interaction between biological processes in our bodies and the existence of the correct amount of light together with the correct spectrum range at the right time. In nature nearly all biological processes are synchronized by the light-dark phases of the natural sunlight.

White light, an important contributor to our health

Healthy and fit with correct light

Is it possible to be put into a good mood and feel fit by pressing a button? Most probably! Our mood and health are primarily controlled by hormones. These hormones are mainly controlled by light which we absorb with our eyes. This knowledge opens up untold new possibilities to positively influence the body. New technology is making this possible now.

Astonishing results based on the study of light are gaining more and more importance. The natural science branch involved in researching this field is called chronobiology. Practical understanding in this field teaches us about the significance of the correct light at the right time. Important hormones for our health and well being are endorphins, dopamine and serotonin which are controlled by light. Their existence is the immediate reaction to the absorption of natural light or light with equal physical properties. The intensity and the spectrum play an important role. A specially important part of the daylight spectrum is the large proportion of blue light (450-480 nm).

Red light regenerates and repairs holistically

Optimal wave length for holistic regeneration of all eye functions.

Scientific studies confirm that red light with a wave length of 630 nm offers maximum benefits for tissue regeneration. This wave length is also preferably used in photobiology to stimulate holistic body healing effects. Maximum depth penetration and optimal absorption guarantees the best possible treatment results, even in deeper skin tissue. This ensures that the eye itself and all linked supply systems are benefitting from the healing energy of the photons.

The brain needs the information provided by light to be able to cope with numerous tasks

The light absorbed by our eyes is used by the brain for various tasks. Only about 15% of the light which the eyes absorb is used for orientation purposes. The remaining 85% are used in various parts of the brain. Circulation, metabolism, blood pressure, hormones and a whole range of other important functions are directly or indirectly dependent on the light absorbed by the eyes.

Sunlight is variable and continually changes its brightness and color combination

Starting at sunrise and through to sunset the sunlight spectrum arriving on the earth's surface is constantly changing. Since the beginning of time this dynamic light has nurtured all life on this earth. All living organisms have adjusted to this natural biologic rhythm and accepted it as the pacemaker for their inner life rhythm. Accordingly the hormone production is adjusted to the relevant time in the day because of the dynamic of light. Control of the complete hormonal balance can be lost if this dynamic is missing (night work/shift work).

Artificial light sources create biologically unfavorable light

Living areas and work places which are illuminated by artificial light sources induce a raft of problems of the inner synchronization to the outside world. Important wave lengths are missing in this light and it has a permanent unnatural color combination and brightness. The light flickers with toxic frequencies and transfers by plasma discharges of mercury gas corresponding spectral information via the eyes to our brain. Over time this can have disastrous consequences for our health.

Modern Technology offers a solution

Due to new developments in producing light we now have light sources (LED) with extreme brightness and an ideal spectrum at our disposal. With the modern high intensity LEDs it is now possible to produce light which is utilized by our organism like natural sunlight. The development of the light unit **FIT 915** fulfils all requirements which our organism needs from natural light.

The solution is the **FIT 915**

Intensive white radiation 9,000-14,000 lux wavelength 400-700 nm

Intensive red light radiation 12,000-20,000 mc (12,000-20,000 lux) wavelength 630 nm

Follow this link for a full description of this remarkable **FIT 915** device!

Practice Applications:

MORA® Nova

True BioResonance Therapy with the Patient's own Frequency Spectrum
From Med-Tronik – The Home of MORA® BioResonance

Design meets Technology
For Innovation
In Diagnostics and Therapy
MORA® Nova

State-of-the-Art MORA BioResonance Therapy

MORA® Nova incorporates the original BioResonance Therapy research according to *Dr. Franz Morell* and *Mr. Erich Rasche* with the latest and most up-to-date technology, innovative software and perfection in every detail and design. **MORA® Nova** offers everything you need for easy and effective application in your practice with more than 40 years of experience in the proven MORA BioResonance method plus new design, ease of operation, enhanced therapy options and last but not least, State-of-the-Art technology.

MORA® Nova Features:

| | |
|---|--|
| <ul style="list-style-type: none"> • Easy navigation via 15-inch touch screen with full visual display even in sitting position • Space saving integration of input and output cup electrodes (removable for cleaning) • Space saving integration of foot electrodes • MORA® Mouse function | <ul style="list-style-type: none"> • Indication of active electrodes • Display inclination adjustable • New stylus design with extended functions • Integration into an existing network / Central control by an administrative PC • Graphic images of measuring point as well as the respective organ • Graphic menu navigation |
|---|--|

Technical Data:

| | |
|---|---|
| <ul style="list-style-type: none"> • 2 channel technology • 2 Interfaces (Mode A + Abar – inverted A) • Scott-Morley for 2 channels and significant technical improvement • Frequency range: 0.1 Hz to 1 MHz • Filter adjustment range: 1Hz to approx. 900 kHz • Amplification 0.1 to 1 Million per channel and mode • Modular design (channels, interface, etc.) • Integrated PC • Laser electrodes (Optional) • Electronic remedy software (Optional) | <ul style="list-style-type: none"> • Programs with up to 16 single steps • Selective automatic 4 or 6 segment measurement • Automatic detection Hypo/Hyper • Extension of standard fixed programs • Therapy recommendation from the EAP-measurement • Therapy cycles freely adjustable 1 – 65,000 • Pulse/Pause adjustable 0.1 – 100 sec. • Integrated MORA®-Mouse, cup electrodes • Graphic display of measuring points • Square-wave generator 1 Hz to 500 kHz • Sine-wave generator 1 Hz to approx. 250 kHz |
|---|---|

European MORA® Nova Features:

| | |
|---|--|
| <ul style="list-style-type: none"> • Allergies – diagnosis and treatment • Indication oriented standard programs w/o EAP test • Global Scaling Basic therapies • Psychosomatic programs acc. to Nienhaus • Color therapy acc. to Gruba | <ul style="list-style-type: none"> • Color therapy (e.g. mirrored nature images during the therapy session) • Music therapy (Psychophonia) via headphones • Addiction therapy, drugs, alcohol, etc. • Individual software for faculties • And much, much more . . . |
|---|--|

List of Electronic Test Sets for Therapy with MORA Nova

| Individual Test Sets – All test sets together comprise approximately 20,000 single substances | Test Set Group – Contains single test sets selected for the user at special pricing conditions |
|--|--|
| <ul style="list-style-type: none"> • 5-Elements • Allergy • Alzheimers & Dementia (Cornelissen) • Bach flowers • Biological catalysts • Chemical elements • Dental • Geopathy • Labo Life • Meridian test set (Morell) • Mycosis • Nosodes • Orthica – Orthomolecular substances • Sanum • Schüssler Salts • System test set (Cornelissen) • Heel • Wala | <p>NOVA-Elements Group</p> <ul style="list-style-type: none"> • 5-Elements • Allergy • Bach flowers • Chemical elements • Geopathy • Mycosis • Nosodes • Schüssler Salts • Horvi • Meridian test set <p>Individual Test Sets (Continued):</p> <ul style="list-style-type: none"> • Horvi – snake serum and enzymes • Pascoe – homeopathic substances • Pekana • Vitortho – Orthomolecular substances • Inus – Orthomolecular substances • Color test set |

Some European Practice Applications (Mora Therapy):

- Allergies and Food Intolerances (Europe and Canada)
- Geopathic stresses
- Functional Circulatory disorders
- Acute and chronic pain and inflammatory conditions
- Metabolic disorders
- Building immune system.
- Delivery of medication information.
- MORA BioResonance Therapy will always increase speed and efficacy of complementary therapies.
- Can also be complemented by:
 - BioPhoton Therapy – especially for skin rashes and other skin disorders
- Follow this link for [MORA BioResonance details](#).
- For order, delivery & pricing information contact OIRF Office at 1-800-663-8342

Carolyn's Comments: In recent years we have watched some of our top rank Naturopaths going back to the books to prepare for the dreaded "prescribing exam". Personally I wonder about why our NDs are being trained and examined to prescribe (allopathic) medications when as Naturopaths they would normally "prescribe" homeopathics, supplements, herbs, etc. On the other side of the coin we are seeing our homeopathics and natural remedies being taken off the market by Health Canada and the US FDA. Where can we now turn for remedies for our patients? Note that Sanum, Heel and other North American "discontinued" remedy companies are definitely licensed and included in the software above . . .

OIRF Special Reports:

- 1) **Report on LM Potencies** (Homeopathy). Translated and prepared by **Dr. Walter D. Sturm** based on the work of **Dr. Samuel Hahnemann**. This is pivotal information for all homeopaths. In the last years of his life Dr. Hahnemann turned solely to the use of LM potencies for his patients instead of the "usual" C and X potencies still utilized today. This knowledge was suppressed for nearly 80 years and revolutionized the practice of homeopathy when that famous 6th edition of his Organon of Medicine was finally published. Read the story and see the meticulous research and translation left us by Dr. Sturm. See further information on this important report at this link. 51 Pages. \$40
- 2) Collection of **Three Reports by Dr. Gottfried Cornelissen** (BioResonance). 1) A Critical Examination of Current EAV Diagnosis (individual report below); 2) Increasing Efficiency of Allergy Cancellation Therapy by Application of Substance Specific Frequency Ranges; and, 3) The Problem of A and Inverted A in Homeopathic Nosodes (individual report below). 31 Pages. \$20
- 3) **The Problem of A and Inverted A in Homeopathic Nosodes** (BioResonance). Translated and prepared by **Dr. Walter D. Sturm** based on the research of **Gottfried Cornelissen, DMD**. Advanced BioResonance information. 4 Pages. \$5
- 4) **A Critical Examination of Current EAV-Diagnosis, the Mebe-Ampule and Filter Procedure** (EAV & BioResonance). Translated and prepared by **Dr. Walter D. Sturm** based on the research of **Gottfried Cornelissen, DMD**. Digital single oint mwasurement according to Dr. Cornelissen. Advanced BioResonance and EAV-Diagnostic information. 14 Pages. \$10
- 5) **Transliterations of the Chinese Acupuncture Point Names with Explanations**. This is a supplement to the Modern & Traditional Acupuncture Program. Every single traditional acupuncture point is shown with the point name transliteration (with both new and old – Pinyin and Wade Giles – spellings) along with a full explanation. Translated by **Michael C. Barnett, DAcu, LAc** from the work and research of **Jean-Claude Darras, MD**. 35 Pages (free to all M&TA program subscribers)
- 6) **The Genital System**. Translated by Carolyn L. Winsor; revised and edited by **Sean Christian Marshall, DSc** based on the work and research of **Jean-Claude Darras, MD**. Advanced traditional acupuncture information explaining the energetics of the genital system including disorders and treatment. 23 Pages. \$25
- 7) **A transcript of Dr. Morell's BioElectronic Vincent Lecture (BEV/BE-T-A)**. **THIS OFFICIAL TRANSCRIPT** of Dr. Franz Morell's 3-hour lecture is available from the Institute. It consists of thirty-one pages plus reproductions of his slides – it gives an excellent introduction to this objective bio-electronic testing method (BEV). Dr. Morell took us even further into the BIO-ELECTRONIC "VINCENT" Method during a subsequent seminar and introduced a totally new [at that time] German built instrument for it (by the Med-Tronik company, and Mr. Erich Rasche again!) to this country. \$15
- 8) See the OIRF [Archives Page](#) for past issues of "The Bridge" newsletter.

And don't forget to order your copy of:

The OIRF Special Report On Medication Testing

A translation of Dr. Kramer's full medication testing guidelines from beginning to highly advanced aspects. Dr. Kramer has given us the most complete, step-by-step guidelines for learning medication testing on your own. Based on his seventeen years of practice and teaching, he also suggests the preparations you need to get started. Recommendations on how to order a set of those preparations for yourself are included within the report, and most are now included within the Electronic Remedy Test Sets Software. If you follow all of the report instructions, you will learn how to do medication testing by yourself, easily, quickly and correctly. If not, something is wrong with your Electro-Acupuncture instrument – not you!

This SPECIAL REPORT available in electronic or printed format for \$30.00
(Report is over fifty pages. Preparations are not included.)

OIRF Video Training Programs:

- 1) **Diagnostics & Therapeutics Seminars by Dr. Walter Sturm†** (full set). Older seminar workshop where Dr. Sturm covered Diagnostic approaches (EAV, point and medication testing) and BioResonance Therapy approaches (MORA, Electronic Homeopathy and Remedy Information transfer). Five DVDs plus 1 disc with all overheads and handout materials. \$200
- 2) **Biological Medicine Symposium 2012** (full set). Keynote speaker was Prof. Dr. Roeland van Wijk (colleague of Prof. Dr. Fritz-Albert Popp) specialist in BioPhoton light therapy, biophysical chemistry and molecular biology. 10 other well known complementary medicine practitioners, dentists and researchers. 12 DVDs plus Symposium Manual. \$100
- 3) **How to Use the MORA III**. Dr. Walter Sturm† teaches how to use the MORA III unit for therapy and reviews the use of the RM200 diagnostic option. #35
- 4) **Introduction to the MORA Super Plus and ELH**. Dr. Brian MacCoy† teaches how to hook everything up, how to get started, how to get set up with all the "goodies" that come with the device. \$35
- 5) **How to Start Treating Patients with the MORA Super Plus**. Dr. Brian MacCoy† covers use of the Therapy Hand Book (applicable to all models of the MORA) as well as the basic electronic homeopathy applications. Here's how to set the device with the pre-set therapy programs. Get a good understanding of the scope and capability of these dynamic healing devices.
- 6) **MORA Nova Training Seminar**. Dr. Nuno Ruivo (Med-Tronik). How to take the unit out of its shipping box and set it up. 3-part overview of BioResonance and patient simulations with emphasis on practical application in your practice. \$100
- 7) **MORA BioResonance Therapeutic Possibilities**. Marguerite Lane, ND. How to get the best out of your MORA, how it works, and the basic concepts of classical BioResonance. Expert guidance on how to tackle the most common underlying problems in health. \$190
- 8) See ongoing training in **Webinar** format from Med-Tronik.

A Special Report

The Ground Regulation System (GRS)

By o. Univ.Prof. Dr.rer.nat. med.habil. Hartmut Heine †

A few years after his serious illness in 2011 **Prof. Dr. Hartmut Heine** published a series of seven articles on the **Ground Regulation System**. I [*Carolyn Winsor*] was honored to be able to translate this incredible research into English for the first time and to publish it in our newsletter, "The Bridge".

As I worked my way through translation of the first article, the wealth of knowledge and understanding imparted in even that introductory article left me scrambling for dictionaries, research documents hidden away in the old OIRF library and way beyond "Google searches" to make sure that I was doing justice to the information Prof. Dr. Heine was imparting. Combined with the succeeding six further articles, his gift to us of knowledge and of understanding is truly priceless.

In respect for Prof. Heine I have merged those seven articles into one single report and have republished it separate from that older newsletter. With a total of 48 (mind-blowing) pages, this work is not just "worthwhile" reading, but mandatory reading for all practitioners of orthodox and complementary medicine. Available in electronic or print format for \$30, here is an outline of the contents:

- Part 1** – The Ground Regulation [A History and Background]
- Part 2** – GRS as a non-linear system – Structure, function and determined chaos
- Part 3** – GRS as a non-linear system– Structural components of the extracellular matrix (ECM)
- Part 4** – Spatial structure of the ECM and material transport within the system
- Part 5** – Contact, limitation and clogging up: Cell adhesion, basal membrane and glycosylation
- Part 6** – Functional relations of the ground regulation with the central nervous system
- Part 7** – The Ground Regulation and the Circadian Rhythm
 - The Ground Regulation and Alzheimer Dementia

➤ **OIRF Resource Materials:**

- For more information and instruction about point and medication testing with EAV see the OIRF: [Medication Testing Report](#) and the [EAV Desk Reference Manuals](#) (both available on disc).
- For more information and instruction about [Diagnostic and Therapeutic Techniques in Biological Medicine](#) with emphasis on BioResonance Therapy be sure to order the recently re-released videos of Dr. Walter Sturm's seminars.
- For a complete [listing of OIRF resource materials](#), including publications, reports, books and videos please follow this link to our website. There are full descriptions of all printed and recorded materials online.
- For a complete [listing of OIRF recommended instrumentation](#), including diagnostic, therapeutic and BioResonance devices please follow this link to our website. There are full descriptions of all instrumentation online.
- Of the three full "home-study" or "extension training" programs developed by Occidental Institute, two have been fully updated and are available in PDF format on disc. Research and publication of each of those programs has been pivotal in the development and application of Acupuncture and Biological Medicine in North America and around the world. Be sure to obtain your copies of these famous and well respected volumes for your library and study purposes.
 - Modern & Traditional Acupuncture: \$165
 - Master of Acupuncture Program: Translations of the ancient acupuncture classics (The Nei Ching consisting of the Su Wen and Ling Shu, as well as the "Difficult Classic" the Nan Ching) are still available in printed format – \$125
 - EAV Desk Reference Manuals, Parts 1 & 2 – \$200
 - Diagnostics and Therapeutics Seminars of Dr. Sturm – \$200

Get more details at <http://www.oirf.com/resources.html>

"EXTENSION TRAINING" PROGRAM IN MODERN & TRADITIONAL ACUPUNCTURE

Over twelve hundred pages of printed materials incorporating applicable materials from the supplementary textbook ([An Outline of Chinese Acupuncture](#)) and set of four charts (by [China Cultural Corp.](#)). Program starts off assuming you know nothing about acupuncture (a good place to start even if only as a thorough review of the basics) and takes you right through to the most heavy-duty advanced aspects of true, 'energetical' acupuncture. The finest and most comprehensive material in the English language, covers all seventy-one meridians of traditional acupuncture; that 'missing sixty percent' of acupuncture knowledge most "acupuncturists" have never even heard of; and, the modern electronic 'needle-less' treatment methods (Electro-Acupoint Therapy) now so popular.

Over 3,000 students were originally enrolled in this famous Extension Training Program, and the OICS graduate listings read like a "Who's Who of Acupuncture" in the English speaking world. This program takes you as far as anyone possibly can in a 'written' format prior to the clinical finesse and practicum needed to round out your acupuncture study to professional levels.

FULL THIRTY-THREE LESSON PROGRAM NOW AVAILABLE ON DVD

Price includes disc with all 33 Lessons, applicable supplementary textbook (An Outline of Chinese Acupuncture) passages and representation of set of acupuncture charts (China Cultural Corporation set of four). [Current editions of the textbook and charts can be easily obtained from suppliers of acupuncture books and supplies.] Price does **not** include printed materials, binders; or, any tutorial, examination, or certification privileges. Follow above link for full details. **Full set on one disc available for CDN \$165.**

2017 Calendar of Events!

| Event | Lecturers | Dates | Details/Contact |
|--|---|---|--|
| Concordia | Dr. Robert Cass and others TBA | Tucson, Arizona Feb. 24-25, 2017 | Concordia Conference sponsored by AOIBS – COMPLETED! |
| Acupuncture Meridian Assessment St. Louis, MO | Dr. Simon Yu Carolyn Winsor | St. Louis, MO March 24-26, 2017 | Register at Prevention And Healing For MD, DO, DDS only COMPLETED! |
| Theragem Basic Training | Catharina Jansma | San Diego, CA May 6-7, 2017 | For registration information contact: Website: medicahealth.org/ COMPLETED |
| Int'l Neural Therapy Conference | Dr. Michael Gurevich Dr. Hans Borop Dr. Alberto Duque Dr. James Oschman And many others | Ottawa, ON Canada May 11-13, 2017 | Register by email: info@internationalneuraltherapy.com Get more details at: Neural Therapy Conference COMPLETED |
| Acupuncture Meridian Assessment St. Louis, MO | Dr. Simon Yu Dr. Doug Cook Dr. Rob Cass Carolyn Winsor | St. Louis, MO June 23-25, 2017 | Register at Prevention And Healing For medical/health practitioners inc'g MD, DO, DDS, DMD, DC, ND, RN |
| Med-Tronik Power Week and Individual Seminars | Dr. Nuno Ruivo Dr. Peter Mahr | Friesenheim, Germany July 24-29, 2017 | Contact Med-Tronik to register |
| VivaMayr, Advanced Training II | Dr. Harald Stossier | Maria Wörth, Austria July 23-Aug. 4, 2017 | To register contact: kirsten@viva-mayr.com and visit VivaMayr Academy |
| International Biological Medicine Conference | Dr. Simon Yu Dr. Rob Cass Dr. Lee Cowden Dr. Michael Gerber Dr. Tony Jimenez Dr. Dietrich Klinghardt Dr. Michael Rehme & more | St. Louis, MO Sept. 29 to Oct. 1, 2017 | For further details and to register please contact: www.iamconf.com/ |
| 51st Medicine Week Congress, Baden-Baden, Germany | Lectures primarily in German language - participants of Tour #44 will attend | Baden-Baden, Germany Nov. 1-5, 2017 | Contact OIRF for registration and participation details |
| Biological Medicine Tour #44 to Germany | Dr. Manfred Doepp Dr. Friedrich Douwes Dr. Olaf Kuhnke Dr. Uwe Reuter and Dr. Ralf Oettmeier | Starts in Frankfurt, Germany, Oct. 31 to Nov. 6, 2017 | For further details and registration information please contact: www.oirf.com/germany2017.html |
| Throughout 2017 OIRF will participate in numerous conferences and seminars with exhibit and education booths. | | | Watch your newsletter and the Events Page on this website as details are announced. |

➡ **Conferences and Conventions:** As an ongoing approach to bring this information and education to a broader range of practitioners, OIRF will sponsor speakers and lecturers in a number of conferences and events throughout the USA, Canada and Germany.

Plans and registrations for OIRF to be present at a number of important international conferences have been arranged, and we are looking forward to the many activities of this exciting and busy year. It is our hope that you will join us in our efforts to expand the use and knowledge of Biological Medicine in Canada, the USA and around the English speaking world.

Here are **some** of the events where our OIRF Board of Directors and Advisors are giving presentations and participating. Be sure to check out the announcements of events and conferences enclosed and on the [Calendar of Events](#) on our website. Make plans **today** for which events you will attend during exciting and busy 2017 year. Your support for the organizers is greatly appreciated, and gives you the benefit of fascinating, informative and educational programs that will enhance your practice – and CEU's! OIRF directors, advisors and/or members are active in each of the recommended events. See also Pages 3, 5 and 27-29 (PDF) for further details.

➤ **Acupuncture Meridian Assessment Training.** Registration for this boot camp training session has been opened to medical healthcare practitioners including MD, DO, DDS, DMD, DC, ND, PA and RN. Primary focus is teaching medical practitioners how to check the essential acupuncture points to look for disturbances which might be an indication of parasites or dental problems. This training covers many clinical case histories that will amaze you with the healing results that occur where prior numerous doctors and specialists failed to succeed. Class consists of lectures and lots of hands on "boot camp" drills for 2½ days held in St. Louis, Missouri **June 23-25, 2017**. Sponsored by **Dr. Simon Yu** and also featuring **Dr. Robert Cass, Dr. Doug Cook, Gordon Johnston** and **Carolyn Winsor**. To register contact Kate, Office Manager at 314-432-7802 or [Prevention and Healing](#)

➤ **The Tenth International Medical Conference** supported by **Dr. Simon Yu's Gateway Foundation for Biological and Integrative Medicine** features a theme of "*Parasites, Fungus, and Dental Conundrum: Curing the Incurable by Measuring the Immeasurable.*" Featured speakers include: **Dr. Daniel Beilin, Dr. Robert Cass, Dr. Douglas Cook, Dr. Lee Cowden, Dr. Antonio Jimenez, Dr. Dietrich Klinghardt** and many others. This always exceptional and highly recommended conference will take place in **St. Louis, Missouri on Sept. 29, 30 and Oct. 1, 2017**. You can find all the registration and conference details on their website at www.iamconf.com/ OIRF will be there! Plan even now to attend and get your registration in today.

Continued . . .

➤ **Mayr Therapy:** This is a method that has been recommended by OIRF for many years. We have sponsored at least six official English language Mayr training programs in the past that featured the direct students of **Dr. F. X. Mayr**, including **Dr. Erich Rauch** and **Dr. Ernst Kojer**. In Austria this training was offered solely to MD's, but with the passing of many of the original practitioner/teachers those requirements have been somewhat relaxed. It was interesting to see both the two main Mayr organizations well represented at the Medicine Week Congress. Both organizations have been offering English language training and it is my pleasure to re-introduce this method to our members and supporters. Even though there are no commercial or financial ties between OIRF (and none of our Advisor/Directors are directly involved) and these Mayr organizations, we felt it important to continue our recommendation for this well proven and highly effective method.

This year the **VivaMayr** organization in **Maria Wörth, Austria** (oh, such a beautiful area!) is offering two programs in English which feature **Harald Stossier, MD**. Contact Kristen by email at kristen@viva-mayr.com for details and registration information. Courses available in Maria Wörth are:

- ~~Basic Intensive Course, I & II: Jan. 15-27, 2017~~ – COMPLETED.
- **Advanced Training II: July 23 to Aug. 4, 2017**

➤ **51st Medicine Week Congress.** Dates are **Oct. 28 through Nov. 1, 2017** in Baden-Baden, Germany with OIRF Advisors, Directors and Germany Tour participants attending. Usually more than 3,000 doctors participate with nearly 200 lectures, workshops and courses (German and English language). Exhibit area with more than 220 exhibits provides you with an excellent insight into the big product offerings in natural healing and complementary medicine. There you can find out directly, and compare. Contact OIRF for attendance possibilities.

➤ **Biological Medicine Tour #44 to Germany, October 26 through November 1, 2017.** Join us for our **44th** group tour including the world famous "Medicine Week" Congress in Baden-Baden. Tour program also includes exclusive OIRF English language lectures from renowned German clinicians and researchers as well as pharmacy and clinic visits. Speaker, event, itinerary and registration details are posted on our website.

To tempt you for the 2017 tour program follow this link to our [report on our 2016 program](#) and activities. Follow this [Germany Tour](#) link to see the unfolding plans and speakers for 2017. Spring and summer conference schedules are very busy and we recommend that you plan early to participate as attendance will be strictly limited.

➤ **MORA BioResonance Therapeutic Possibilities**, 1 day course on therapeutic applications with **Marguerite Lane, ND**, Australia. 4 DVD set of video recordings are now available through OIRF for US \$150 plus shipping.

🔄 Follow this link to our website to see Issue #6 in print/PDF format.

➡ **Updates, Reminders and Announcements:**

- Watch for seminar and conference updates. Plan early which events you will be attending this year.
- Watch for Volume 13, Issue #7 of the "The Bridge" newsletter to arrive in your Inbox around mid-July 2017. There are a number of new and exceptionally well written articles by Med-Tronik researchers and instructors that have been published in the German *CO'Med* and *Naturheilkunde* journals. Carolyn is busily translating as many of them as possible for future newsletter issues. We are looking forward to introducing some of the new devices (a newer model of the RM10 diagnostic device) and methods that were seen in Germany during the 2016 tour.

- Visit our **Facebook** page – will you be our friend?

I trust you have found much of interest in these pages. During 2017 we are looking forward to participating in numerous conferences while supporting various speakers and several complementary organizations. Additionally there are a variety of informational articles being prepared for the next Issues of Volume 13 of "The Bridge". Electronic publication with access open to all will continue throughout 2017 and we will continue bringing you that cutting edge information for which OIRF is famous.

We look forward to meeting you during our forthcoming 2017 activities and programs. As always your comments are welcome. Remember that this is your newsletter. Your suggestions, article contributions, critiques, FAQ's and compliments are gratefully accepted.

Yours in health,

Carolyn
