## THE BRIDGE

### Linking Practitioners of German Biological Medicine

Volume 14, Issue #5, May 2018

Tuesday, 15 May 2018

Dear Colleagues, Friends and Supporters of OIRF,

#### ➡ Welcome to Volume 14, Issue #5 of "The Bridge" newsletter!

Welcome to your fifth Issue of "The Bridge" for 2018. This issue features a "must read" experiential research article from OIRF Board of Advisors member, **Dr. Robert Cass** entitled "*Re-Igniting Signaling Mechanisms with Degenerative Challenges*". This exceptionally insightful information is based on 45 plus years of practice, research and teaching by Dr. Cass. Our thanks to him for this article.

Additionally, with great sadness we bring you news of the passing of the greatly respected researcher, **Dr. Michael Galle**.

Next month's Issue #6 will feature another article based on one of my recent lectures outlining a definitive and accurate history of EAV-type testing entitled "*The Past, Present and Future of Point and Medication Testing Techniques*".

➡ Please see the 2018 Events Calendar on Page 28 of this Issue and also on the [Events Page](#) of our website where you will find the current conference listings. Watch for announcements of several other conferences and seminars where you will find OIRF in an education or exhibit booth. Many events for 2018 have been fully scheduled and we look forward to participating in some of them!

The updated event/seminar information includes the current 2018 dates for **Dr. Simon Yu's AMA training in St. Louis, MO** and the **English MORA Power Week training** at Med-Tronik in Germany.

➡ **Conference Reminder Notices:** (see details Pages 2, 19, and 27-29 in this Issue):

➤ **AMA** (EAV) hands-on workshop for MD's during August 24-26, 2018 sponsored by **Dr. Simon Yu** of **Prevention and Healing** in St. Louis, Missouri. **Note:** Dr. Yu's AMA training and boot camp session has recently been opened to practitioners with alternate prescribing certification. It focuses on EAV-type testing for parasites and dental problems.

➤ **English MORA Power Week training** at Med-Tronik in Friesenheim, Germany, September 10-15, 2018. Contact OIRF or Med-Tronik for registration and details.

➤ The organizers of the Baden-Baden **Medizinische Woche** have finalized the dates of their annual congress, but will not publish their active lecture schedule until May (later and later every year). To take advantage of their schedule and lecture series, following here are the dates of our **OIRF Germany Tour #45:**

- Medicine Week: October 31 through November 4, 2018
- OIRF Germany Tour #45: October 30 through November 5, 2018

This year, our theme or focus of interest will be **Complementary Diagnostic and Assessment Methods**. We are looking at those methods which are “real” and individualized as well as explanations about the effectiveness of causal diagnostics versus the now popular “global” diagnostics based on statistical analysis.

We are pleased to announce **Dietrich Klinghardt, MD** as our **Keynote Speaker** for this 45th Biological Medicine Group Tour to Germany. Dr. Klinghardt is a highly respected and well received participant of the annual Medicine Week Congress program, and we felt he would be able to speak (in English of course) in greater detail and without the North American constraints during our private lecture schedule. As well as our keynote speaker, here are some of the anticipated special features for Tour #45!

- **Clinic Lecture:** Integrative Cancer and Lyme Disease specialist – **Dr. Friedrich Douwes\***
- **Clinic Lecture:** Biological Medicine specialists using multiple modalities – **Dr. Uwe Reuter\*** and **Dr. Ralf Oettmeier\***
- **Clinic Visit:** A private Biological Medicine Clinic in Frankfurt, Germany
- **Advanced Medical Systems (AMS):** Pulsed Electromagnetic Field Therapy – **Dr. Frank Beck\***
- **Pharmacy Lecture:** RNA Therapy (Regeneresen®) – **Dr. Georg Stommel\***
- **Alfa Thermodiagnosics:** Regulation Thermography – **Dr. Dan Beilin**
- **Heart Rate Variability** (According to Nilas) – **Dr. Jürgen Aschoff**
- **Photon Resonance Test** (PRT According to Schimmel) – **Ute Engelhardt** and **Aina Sylvester-Schimmel**
- **Psychosomatic Energetics (PSE):** – **Dr. Reimar Banis**
- **MBA, ElectroAcupuncture According to Voll (EAV):** – **Knut Henning**
- **Med-Tronik:** BioResonance Therapy and Diagnostics – **Nuno Ruivo** and **Peter Mahr**
- Evening lectures, training sessions and discussions with attending OIRF directors and advisors

\* **Note:** Some of the above lectures are sponsored English language lectures that are part of the Medicine Week Congress program itself. The OIRF group has been invited to attend.

See full details here for the [Germany Tour](#) and [Register](#) early to ensure a place in this exclusive program – attendance is limited this year! You can whet your imagination by joining us in our [Report on Tour #43](#).

### **What others say about these tour programs:**

Dear Carolyn

Can I thank you once again for the wonderful Germany tour you arranged? It was one of the most informative weeks I have ever spent in Germany.

Recently, I have been reviewing the notes I have taken on OIRF tours going back twenty years.

The amount of really useful information I have learnt, most of which I still use in my daily practice is truly staggering. Thanks to you all once again. With Very Best Wishes,

Dr. Robert Jacobs, UK (Dec. 2017 after Tour #44)

➡ **Reminder:** OIRF has begun the process of updating and revising our website . . . Yes, we did that yearend thingy but it seems that our overall site is generally outdated. Carolyn has been looking at various newer website designs and has taken on the job of making some of the changes.

Ours is an extensive site with nearly 100 web pages of information that has been online in one form or another for at least twenty years, and while we completed an extensive re-organization and updating several years ago it is definitely time to "re-study and re-submit" as they used to say with the old Extension Training Program for Acupuncture.

We will definitely maintain our bridge logo and masthead – those are familiar old friends – but we will aim for a more modern look with a smoother and easier accessibility. [*I've been instructed that we need more pictures and to stop being so wordy – harrumph – Carolyn wordy?!*] I know that everyone is looking stuff up on their smartphones, and we will not likely end up too compatible with that kind of format since there's just too much information that we want you to access.

Needless to say, this is a bigger project than our usual yearend updates and will be completed in sections over the next few months. We ask your patience should you experience any glitches or disruptions – and if you see any little slipups or mistakes please let us know so that we can get them all fixed up.

➡ **Advance Notice:** We have just been advised by **Med-Tronik** in Germany that the **MORA Super Plus** has been redesigned to include the new mandatory ODU plugs (as opposed to the old BNC connectors) and is again available for purchase. For the MORA Super users who have delayed upgrading to the computerized MORA Nova model this comes as welcome news.

This tried and true classical MORA BioResonance model (I suppose in today's lingo that makes it Version 1.2) as developed by the original engineer **Erich Rasche** has been utilized in daily practice around the world for more than twenty years.

The MORA Super Plus is registered with Health Canada as a EN ISO 13485 Class IIa Medical device, and we have already begun the process of re-adding the information about this classic device back onto our website. See a few details in this issue and be sure to consider this tried and true MORA model with your next device purchase. Pricing, order and delivery information is available through OIRF office at 1-800-663-8342.

➡ Note that OIRF is now able to accept your credit card payment directly in either USA or Canadian dollars and all pricing has been adjusted to reflect both currencies. Thank you for your continued business and support.

➡ I invite all of you to maintain your email or print subscription to "The Bridge" newsletter. All 2018 issues of "The Bridge" will be sent to you by email and then published on our website. **Access is open to all.** Follow this link to get your PDF print copy of "The Bridge" Volume 14, Issue #5.

Further new and cutting-edge articles from our prestigious Board of Advisors and Directors as well as more of Carolyn's translations of articles from current German journals are underway for future Volume #14 issues of this newsletter. Issue #6 for 2018 should arrive in your Inbox during mid-June and will feature a variety of practical and educational articles.

**Dr. rer. nat. Michael Galle**

April 27, 1960\* – March 7, 2018†

Unexpectedly for all of us, **Michael Galle** died on March 7, 2018. After his studies in biology he worked together with **Prof. Fritz Albert Popp** at the International Institute for Biophysics. He graduated from the mathematical-scientific faculty of the University of Saarbrücken. The interference-like emission patterns of daphnia populations documented among other things in his research examinations were a clear indication that “morphogenetic fields” can be developed across weak electromagnetic interactions in the optical spectral range. His publication attracted worldwide attention.

In 1997 he learned about [*the engineer*] **Erich Rasche**, the co-inventor [*with Dr. med. Franz Morell*] of classical BioResonance, founded the Institute for Biophysical Medicine and cooperated with Erich Rasche for the investigation of classical BioResonance and low frequency information transfer. He accomplished an outstanding service in his publication of high quality studies, worldwide research for BioResonance studies and the support of dissertations and theses. With that he helped to create the scientific background of the technology and to make the clinical defense possible in relation to the licensing authorities.

Dear Michael Galle, rest in peace.

Yours,  
Andre Rasche  
BioKat GmbH  
Lahr, Germany

## **Re-Igniting Signaling Mechanisms With Degenerative Challenges**

**By Robert Cass, ND**

© Copyright 2018, Dr. Robert Cass, Arizona/California USA

### **Foreword**

*All of us have lurking in our DNA a most remarkable gene whose job is to protect us from the activation and results of faulty mechanisms; the most dramatic end point may be cancer. This gene and its cofactors constantly scan our cells to ensure that when they grow and divide as part of the routine maintenance of our bodies, they do so without mishap. However, if a cell "makes a mistake" due to the overwhelming onslaught of environmental, pathogenic, emotional toxicities, etc., signaling pathways become corrupt and mutation occurs, physically, mentally, emotionally, and maybe most importantly, energetically. A restorative, healing return requires treatment strategies for all levels. As human beings, we have drifted so far away from the natural design and order of things to the point where we are almost unrecognizable and, in the process, we have dragged all remaining living species along with us. Seen in this light, our mandated responsibility is larger than we might have initially thought, for as it has been said, "Where any are bound none are free".*

### **The Legacy Continuum**

To suggest that we are living in a remarkable time may well be one of the greatest understatements of all time! In the last hundred years our civilizations have achieved monumental advances in science and technology all with the (arguably) noble intent of making our experience of living easier and more fulfilling. Well, that hasn't worked out very well has it (?) as evidenced by the patterns of increasing extremes worldwide; pollution, environmental decay, politics, food shortages, "wars and rumors of wars", disease patterns and their transgenerational oscillatory signatures and so on. Many have made the extended observation that human beings, individually and as a collective, are the cancer of the world. They may have a point ... Yet, there is more than just a glimmer of light at the end of the tunnel. That, however, comes with the specific mandate that a dramatic shift must occur in our perspective and consequent application. Medicine, in form and in principle, could in fact, lead the way.

**Dr. Ronal Pero**, a leading ecogenic toxicologist at Memorial Sloan Kettering Cancer Center opens a noteworthy aperture, *“There is no cure for cancer because there is nothing wrong with cancer. Cancer like everything else vibrates at certain frequencies. The answer out of cancer is to teach people to raise their vibrational rate back to the level where they belong”*.

This of course goes completely against the grain of the current conventional paradigm, compounded by self-sabotaging pathological disbelief which basically states, that *“even if it were true I wouldn’t believe it”* (particularly when one’s salary depends upon it!). This level of marked insanity isn’t just a recent phenomenon.

*“The splitting of the atom”*, said **Einstein**, *“changed everything except man’s mode of thinking”*. Apparently, he too was up against this life draining pathology as were all great, courageous, medical pioneers; **Abbess Hildegard von Bingen**, **Dr. Philippus Aureolus Theophrastus Bombastus von Hohenheim** (Paracelsus), **Dr. Christian Friedrich Samuel Hahnemann**, **Dr. Constantine Hering**, **Dr. Eli Jones** (the Eclectics) and more recently **Dr. Fritz-Albert Popp**, **Dr. Reinhold Voll**, **Professors Enderlein** and **Pischinger** and countless hundreds and hundreds of thousands of honorable and dedicated men and women too numerous to list throughout the ages ... so many. Note that every one of them understood the fact that people were not limited to just a body, mind, a heart, and energetic signature patterns (by any other name). In today’s world we might describe their work in terms of bioenergetic or quantum medicine.

**Niels Bohr**, a Danish physicist who made foundational contributions to understanding atomic structure and quantum theory for which he received the Nobel Prize in Physics in 1922 wrote, *“If quantum mechanics hasn’t profoundly shocked you, you haven’t understood it yet”*.

A few hundred years earlier, the father of homeopathy Dr. Hahnemann had laid it out perfectly for all who have at least a few resonating heart and brain cells left. He felt that *mistunements* of the Vital Force (and its signature patterns) underlie all physical, mental, and emotional symptoms that patients experience and that only through the application of medicines that correctly act *upon* (resonance) or *with* (concordance) the Vital Force can restore health. For him, the **mistunement of the Vital Force as a unified whole, IS the disease** needing treatment, with symptoms providing the unique picture of how this is deranged.

Note that he wasn’t implying that the Vital Force was flawed. Quite the contrary! So what is it that creates this mistunement? He answered, *“disease is a blockage of some sort between the Spirit and the Form”*. Herein is a clue to the fields of connecting substance which is permeable and differentiated from *“above”*, however, not from *“below”*. (*Above* and *below* are terms used to describe energetic frequencies). *Above* provides the imprint to

*below*. However, if *below* is compromised, a blockage or obstacle to cure form, initially energetically, and subsequently emerges through heart, mind and body. These blockages can be measured in the form of energetic signatures often viewed through the mesenchyme, connective tissues, etc., mirrored and amplified via meridian pathways. See Reckeweg's Homotoxicology, Voll's EAV, Mora BioResonance, reproducible muscle testing, energetic signaling test kits/vials, etc.

The alchemists of old described this field in terms of THE Heaven and THE Earth. THE Heaven being the "template of gestation" where the energetic signatures are generated and then gathered together, emerging when stimulated as THE Earth of heart, mind and body. (Note that the heart comes first in this "cascade".) The heart to which the ancients were referring is not the focus of cardio-vasculature. It is more TCM than typical western medicine but with emphasis on the sub-conscious, archetypes, symbols, perceptions, transgenerational energetic patterns and yes, to an extent, emotions, which are also energetic patterns. (Remember: every cell houses and carries "emotions", for the issues are in fact, in the tissues!). This *cascade* continues to emerge through the mind in various patterns and on through to the physical body, revealing forms related to the initiating signal(s) as causal chains. This is an interesting way to think of conventional Western medicine's psychosomatic diseases!

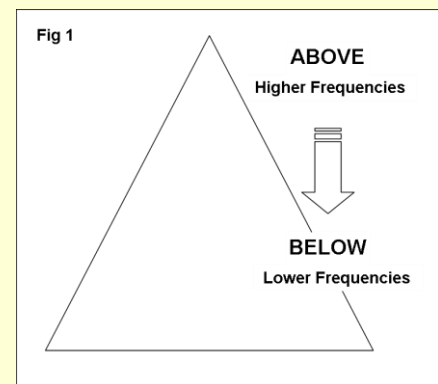

*Dissonance* creates obstacles to cure. *Resonance* with the Vital Force is the cure. Dissonant bioenergetic signals from *below* are the cause of mistunements. Resonant bioenergetic signals from *above* are the attuned expression of the Vital Force.

#### **Laws of BioEnergetic Medicine (Fig. 1)**

The higher frequencies permeate the lower.

The lower frequencies are a differentiation of the higher.

The lower frequencies do not permeate the higher.

Hopefully this **very** basic introduction can be food for thought and integrated in your testing and protocol work. So, in keeping with our alchemical metaphor of THE Heaven and THE Earth let's work with THE Earth with the laws of bioenergetic medicine fermenting in the background.

#### **Signaling Mechanisms**

Borrowing from my introduction, "*All of us have lurking in our DNA a most remarkable gene whose job is to protect us from the activation and results of faulty mechanisms, the most dramatic **end** point of which may be cancer. This gene, known simply as p53*

*constantly scans our cells to ensure that when they grow and divide as part of the routine maintenance of our bodies, they do so without mishap – however, if a cell makes a mistake...”*

So, if a cell does make a mistake at the level where it's copying its DNA during the process of division, p53 stops it in its tracks, sending in the repair team before allowing the cell to carry on dividing. However, if the mistake is irreparable and the rogue cell threatens to grow out of control, p53 commands the cell to commit suicide. Cancer, for example, cannot develop unless p53 itself is damaged or handicapped by some other signaling fault in the system. Not surprisingly then, p53 is arguably, the most studied single gene in history.

Every time a cell divides there is a possibility of genetic errors. As an example, for cancer to develop, it requires the control mechanisms in just one cell to be thrown into disorder, resulting in unlimited replication (daughters) of that rogue cell. Considering the exponential number of cell divisions occurring in the human body daily, the development of cancer is relatively rare. Scientists rightly, have long suspected that there is a very powerful protective mechanism at work.

Insidiously malignant cancers have many seeming causes, known and more probably unknown. p53 may be seen as the single most unifying factor in the disease. For most types of cancer to develop, p53's suppressor activity has to have been disabled. Interestingly, p53 was initially thought to be a cancer-*causing* protein. Then came the moment of clarity and the potentially great unifying principle was born. In 1989, p53 was revealed as the master tumor suppressor.

In the questing spirit of cancer research, the 1979 discovery of the gene named p53 was the equivalent of finding the Holy Grail. One of its discoverers, the oncologist **David Lane**, dubbed it the “Guardian of the Genome” which is an apt description.

The gene, it turned out, is a kind of master switch that orchestrates life and death signals in every cell. Scientists stumbled on p53, while investigating (wouldn't you know it), a monkey virus. Simian virus SV40. I am going to make reference to this a little later on as it is becoming a central factor in much of our work, as you will see.

(Continued . . .)

## **Tumor Suppressor Genes**

In more than half of all human tumors, mutations corrupt p53. Half of all human tumors! This mutated gene starts to propagate cancer rather than prevent it. Very briefly there are two levels of defense to discuss here:

### **The Caretakers**

First line of defense; prevent genomic oncogenic mutations to occur.

### **The Gatekeepers**

Second line of defense; eliminate (by apoptosis) senesce cells with oncogenic mutations

p53 is situated at the crossroads of a network of signaling pathways that are essential for cell growth regulation and apoptosis induced by genotoxic and non-genotoxic stressors.

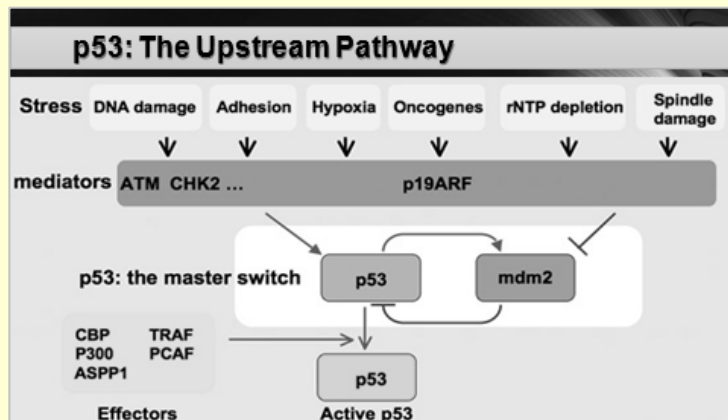

Researchers eventually discovered that when p53 is functioning normally, it attaches itself to the DNA in a damaged cell and takes control of other genes, switching them on and off as necessary and disabling cells that might threaten these organisms. One of the most important functions of p53's armory is the ability to induce a state of permanent arrest and also instruct a seriously damaged cell to commit suicide.

Another purpose of tumor suppressor gene p53 is to prevent cells with damaged DNA from dividing and passing on the DNA damage to daughter cells. The cell can monitor itself for DNA damage during the cell cycle. If DNA damage is detected, the p53 protein plays an important role in putting a "brake" on the cell cycle. This "brake" is not removed unless the DNA damage is repaired. In a cell with a mutated p53 gene, the braking system is defective, and the damaged cell goes on in the cell cycle and divides. A defective p53 gene deprives the cells of crucial signals that normally put the "brakes" on inappropriate cell division and tumor development.

## **UPSTREAM/DOWNSTREAM Transcription Factors**

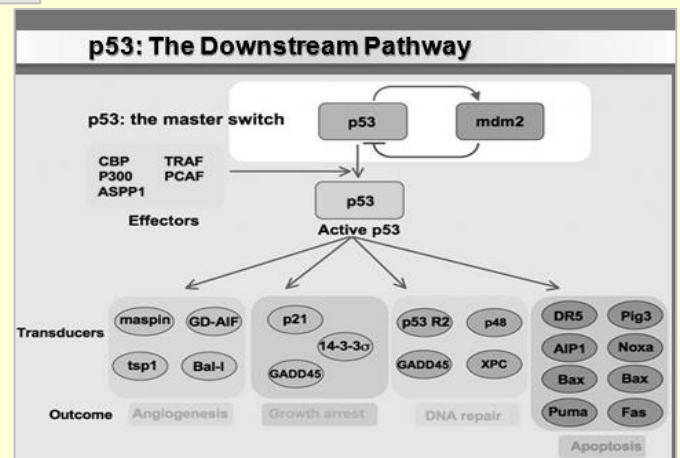

p53 functions primarily as a transcription factor, a protein that regulates and controls the activity and expression of many other genes.

The functional signal transduction circuit of p53 consists of the **upstream mediators** (which sense and relay stress signals to p53), the core regulation components which form the core circuitry **maintaining** and **regulating p53 levels** and the **downstream effectors** (which initiate cellular response programs).

As a functioning transcription factor, p53 stimulates the transcription of a group of target genes. Among them is *p21*, one of the most important. The product of the *p21* gene is a negative regulator of cyclic independent kinases – enzymes that are critical in the progression of the cell cycle and ultimately cell division. By stimulating the transcription of the

*p21* gene, p53 prevents cell proliferation. That is vitally important information. This stoppage gives the cell the opportunity to make repairs, if possible. However, if substantial DNA damage has occurred, the p53 protein can help to trigger cell death. Apoptosis. The death of a cell that has incurred substantial DNA damage is beneficial to the organism because it prevents cells with deleterious mutations from proliferating.

As mentioned, cells have a very efficient repair system for most kinds of DNA damage. Cell suicide is a sacrifice that must be made to protect the overall health of the body. Without it, damaged cells would continue to divide and pass on the defects to daughter cells. More importantly, these damaged cells would continue to accumulate additional mutations that could allow the cell to escape from normal controls, eventually leading to the formation of a life-threatening tumor.

Think of a tumor suppressor gene as an emergency "off" switch. The tumor suppressor gene can prevent a cell with an oncogene from dividing and passing damaged DNA on to other cells. If a tumor suppressor gene is inactivated, or damaged in some way, it can no longer provide this control over abnormal cell division.

How can a cell escape the "stop" signals given by the tumor suppressor gene? One way is to damage the tumor suppressor gene so it can no longer function properly. Tumor suppressor genes are written in a DNA code that must be transcribed and translated to make the protein signal. Mutations to the DNA code can turn off a tumor suppressor gene or disrupt the signal.

By changing the DNA code of a tumor suppressor gene, the cell can no longer make a tumor suppressor signal the cell recognizes. By omitting one letter in the DNA code, the mutated DNA message makes no sense to the cell. In response, the cell may not be able to make the tumor suppressor protein.

Other types of mutations can result in the cell producing a defective tumor suppressor protein that can no longer convey the "stop" or "die" signal. Remember **oncogenes say go** and the **tumor suppressors say stop or commit suicide**. Since the rest of the cell's machinery is still intact, the cell can carry on with the other activities needed for survival.

### **The Nature of Mutated p53 Tumor Suppressor Genes**

The nature of mutated p53 tumor suppressor genes helps to illustrate why traditional forms of cancer treatment, such as radiation, are not always successful in treating cancer. These treatments rely on damaging the cancerous cells more than the normal cells, so that the cancer cells will commit "cell suicide."

This would normally work, since the DNA damage would be detected by the cell, and the p53 proteins would stimulate the cancer cell to commit suicide. However, a cell with a mutated or deleted p53 gene cannot make the "cell suicide" signal. As a result, the treatment will not work effectively.

### **All Chronic Conditions**

Now this doesn't just relate to cancers. All chronic conditions carry various forms of DNA mutations, mostly related to p53 and its transcriptions as p53 is at the crossroads.

If a mutated tumor suppressor gene is already present in the sperm of the father or egg of the mother, this genetic damage can be passed on to their children. The pickings in the gene pool are slim.

### **Simian Virus 40 (SV40) & Mesothelioma**

SV40 was the 40th virus found in rhesus monkey kidney cells when these cells were used to make the polio vaccine. This virus contaminated both the Inactivated Polio Vaccine (IPV) created by **Dr. Jonas Salk** and the Oral or "Live" Polio Vaccine (OPV) created by **Dr. Albert Sabin**.

CDC made this statement: *"All of the current evidence indicates that polio vaccines have been free of SV40 since 1963."*

Not so. In 2005, the journal *Cancer Research* published a study titled, "[Some oral poliovirus vaccines were contaminated with infectious SV40 after 1961.](#)" The research for the study was prompted by the detection of SV40 in a wide range of human tumors, leading the World Health Organization to issue a recommendation in 2000 to test polio vaccines produced after 1961. They found that vaccines from a major eastern European manufacturer (EEVM) contained infectious SV40 which was "*produced from early 1960s to about 1978 and were used throughout the world.*" In other words, they don't know!

How many of your patients (how many of us) received these vaccinations?

Today, a multi-institutional study supported by the International Mesothelioma Interest Group confirms the presence of SV40 in humans, with rare forms of cancer, such as malignant mesothelioma. The study printed in *Cancer Research* on October 15, 1998, suggests a "*co-carcinogenic interaction between SV40 and asbestos in humans should be carefully tested in future investigations.*" The study goes on to state, "*If SV40 and asbestos are co-carcinogens, people who are SV40 positive may be at a higher risk of developing mesothelioma when exposed to asbestos. Identifying individuals at higher risk may offer opportunities for prevention.*" It's apparent that there are a wide range of co-infections implicating SV40, not just cancer. Lyme would be a primary example.

So what is it that damages these tumor suppressor genes, particularly p53? Viruses for one. The virus gets into the cytoplasm and wreaks havoc on it; stealth Virus, HPV, Coxsackie, Herpes, adenoviruses, SV40, etc. In addition, xenobiotics such as mycoplasmas, glyphosates, EMFs, heavy metals, radiation, chemicals, a myriad of pathogens, chemotherapeutic agents, vaccines, etc. Isn't this what we're dealing with in our practices much of the time?

### **Hormesis and the Arndt Shultz Law**

However, it's not just the pathogen and environmental factors that create the stressors. It is the signature patterns that are locked up deep in the fields with which I began the article. The mesenchymal fields, the subconscious fields, the archetypal fields, the pathogenic fields, the transgenerational field, the emotional fields and so on. These energetic signals must be removed out of The Field if there is to be complete restoration. Failure to do so results in a recycling of the original insult as well as the translocation of biological interferences and their signatures and the reabsorption at deeper levels as seen in the processes of hormesis, heat shock proteins, micro inflammatory processes, rigid signals, adaptation and adoption.

If the pattern has been long standing and/or transgenerational, you will always be dealing with **rigid signals**. More often than not these rigid signals are fixed in a causal chain pattern that has been *adapted to and adopted by the body AS SELF* in a final attempt to isolate

these errant signals and contain damage. Typically, you will see this reflected on the Reckeweg Homotoxicology chart as within the final column. This is challenging as for all intents and purposes the signal isn't there! It's been adapted to and adopted by the body as self. There is a specific protocol that we teach to EAV and BioResonance practitioners which has also been adopted by auricular and muscle testers that through the application of specific nosodes, a heat shock protein involving a micro inflammatory current diagnostically brings the cloaked and fixed rigid signal to the attention of the immune system. A cascading effect draws the signal away from the mesenchymal field as one example, and out through the fields of the emunctories or drainage pathways. When the field is clarified and the drainage pathways are opened, the healing power of the Vital Force restores and repairs heart, mind and body quickly and effectively.

Hormesis is a term used by toxicologists to refer to a biphasic dose response to an environmental or xenobiotics agent. It is characterized by low dose, moderate dose and high dose stimulation. In other words, the Arndt-Shultz Law, which basically states: *For every substance, low doses stimulate, moderate doses inhibit, large doses kill.* We use very low dose nanomolecular nosodes to provide a sequential stimulation.

In the fields of biology and medicine, hormesis is defined as an adaptive response of cells and organisms to a moderate (usually intermittent) stress. Tobacco farmers know this. Bee keepers know this. Recent findings have elucidated the cellular signaling pathways and molecular mechanisms that mediate hormetic responses which typically involve enzymes such as kinases and deacetylases, and transcription factors such as Nrf-2 and NF- $\kappa$ B. As a result, cells increase their production of cytoprotective and restorative proteins including growth factors, protein chaperones (*heat shock proteins*), and phase 2 antioxidant enzymes.

It's important to have an understanding of the right remedy, at the right time, at the right level and in the right sequence. With this in place the Vital Force can work its wonderful magic. (This is where BioResonance instruments such as the Mora, and EAV instrumentation along with other bio dynamic testing procedures and protocols provide us with such an advantage. Adding artistic and masterfully formulated remedies which are highly energetic (The Heaven) and organically sourced and free of chemical manufacturing (The Earth) provides the greatest service to the patient.

### **Remedy Ingredient Suggestions**

I like to use liposomes as part of a complete protocol treatment. A true liposome (@100 nm depending on the substance) which is also chirally correct, will not be degraded in the digestive system and will by-pass the first pass of the liver. An ionic ligand, target directs the remedy to the binding sites after it reaches the immune lymphatic cells of the small intestine. (Many of you may remember Dr. Voll stressing the importance of the gut

associated lymphoid tissues and Peyer patches. Of course he was insistent and rightly so, of the odontoma connection, the palatine tonsils, sinuses, and so much more!). I also use many causal-chain combinations of potentized Homeopathics, Spagyric botanicals and Matrix Nutritionals.

## Conclusion

*From age to age, these transgenerational patterns have now vanished into the mists leaving only a faint and distant, signal. Mistunements of the Vital Force reach far back into antiquity; since the “fathers fell asleep”. They have plagued human kind through endless cycles of terrible physical, mental and emotional traumas of seeming indiscernible origin. However, these are at the causative core of every obstacle to cure and every disturbance through which human beings suffer; body, mind and heart.*

*As human beings, we have drifted so far away from the natural design and order of things to the point where we are almost unrecognizable and, in the process, we have dragged all remaining living species along with us. Seen in this light, our mandated responsibility is larger than we might have initially thought, for as it has been said, “Where any are bound none are free”.*

Please feel free to contact me and I will send you in the right direction for remedy medicines, unique to this current cycle, which provide causal chain-specific homeopathic detox/drainage/sarcodé/milieu potentized signatures, hand-crafted Spagyric ethno Intrinsic botanicals and matrix nutritionals to care for The Earth (heart, mind, body) and The Heaven (fields within fields) of your patients.

It is my great pleasure and privilege to greet you in the spirit of collaborative, encouragement.

Dr Robert Cass

[drrobertcass@rogers.com](mailto:drrobertcass@rogers.com)

PS Please don't confuse this article as flat world, new age, techno-babble! It is the result of over four decades of successful, personal, clinical practice, built on the shoulders and hearts of exceptional mentors living and in the near and distant past, and on the experience of thousands of International BioEnergetic practitioners who work closely together with me in this grand adventure!

Dr Robert Cass, Naturopathic Physician, is a highly successful clinician, master formulator, researcher and educator for 46 years in the field of Clinical BioEnergetic Medicine. He graduated from the British School of Naturopathy (London) in 1972 and has practices in the UK, Canada and the United States. As the founder and director of the Academy of International BioEnergetic Sciences, Dr. Cass and faculty promote a broad perspective that embraces yet moves beyond the traditional western and eastern views of medicine to encompass the dynamic ranges of physics and energetic influences. Dr. Cass has earned international acclaim over many years as a Master Formulator and Founder of Physica Energetics (hand-crafted ethno Intrinsic Spagyric Botanicals and Homeopathics and Matrix Nutritionals). He continues actively writing, formulating and teaching in North America, Europe and the Middle and Far East where his protocols and healing strategies are successfully being applied in thousands of clinics throughout. Dr. Cass is also on the Medical Advisor Board for OIRF. When he is in the USA he spends his time between his homes in Santa Barbara, California and Tucson, Arizona with his wife, children and grandchildren.

## The **UBS 315** from Medical Electronics

<b>Energize water with this high tech miniature unit at your place of work or while travelling</b>	
	<p><b>Starting the day full of energy</b></p> <p>All kinds of healthy teas whether it is herbal tea, green tea or white tea (which is the most beneficial) all develop a significantly better biological effect. This application is also very successful in improving the blood flow. Using a special blood test, dark field microscopy, the positive effect on the red platelets (erythrocytes) can be very graphically displayed.</p> <p>See full details at <a href="http://www.oirf.com/pdf/UBS_315.pdf">www.oirf.com/pdf/UBS_315.pdf</a></p>
	<p><b>It is important to drink water during the day</b></p> <p>There have been many reports about the importance of drinking water. As mentioned on previous pages there are vast differences regarding the water qualities which are available to us. Not everyone is fortunate enough to live next to a natural spring. Very few can afford glacier water. Based on biological evolution humans are made exactly for this type of water. Nature does not know about water pipes or plastic bottles. However, with the <b>UBS 315</b> unit it is possible to restructure this biologically lifeless water. Structured water is a special biological power source.</p>
	<p><b>Photons carry information</b></p> <p>Photon penetrated water or other liquids carry the bioenergetic information before they are consumed. Bio energetic information can therefore be transferred to oneself without having to swallow anything. This is in particular a great advantage when bitter herbs or similar are involved. Like the ingredients of red wine (OPC) are active all the time while the glass is standing in front of you. Also crystals, or other effective information carriers like plant extracts dissolved in water, show remarkable results when used with the <b>UBS 315</b> unit.</p>
<b>Contact OIRF for price and ordering information: <a href="mailto:support@oirf.com">support@oirf.com</a> or 1-800-663-8342</b>	

And, as highly recommended by Dr. Michael Galitzer see the following information on the **FIT 915 BioPhoton** light "glasses" on the following pages!

## **The FIT 915 from Medical Electronics**

### **Light: Scientific research results confirm the importance of correct light conditions**

#### **Healthy with light**

The correct light at the right time; this leads to an outstanding potential of until now unused possibilities in energetic regeneration. Discoveries in the areas of photo-biology and chrono-biology reveal new and easy to use technologies within a wide ranging spectrum with effective application of light in a bio-energetic therapy.

**Light:** a phenomenon which has occupied human beings since ancient times. It is only now that we understand the enormity of the biological processes which are connected to this energy but which are still not fully understood. Only slowly is natural science recognizing how extremely important the interaction between biological processes in our bodies and the existence of the correct amount of light together with the correct spectrum range at the right time. In nature nearly all biological processes are synchronized by the light-dark phases of the natural sunlight.

### **White light, an important contributor to our health**

#### **Healthy and fit with correct light**

Is it possible to be put into a good mood and feel fit by pressing a button? Most probably! Our mood and health are primarily controlled by hormones. These hormones are mainly controlled by light which we absorb with our eyes. This knowledge opens up untold new possibilities to positively influence the body. New technology is making this possible now.

Astonishing results based on the study of light are gaining more and more importance. The natural science branch involved in researching this field is called chronobiology. Practical understanding in this field teaches us about the significance of the correct light at the right time. Important hormones for our health and well being are endorphins, dopamine and serotonin which are controlled by light. Their existence is the immediate reaction to the absorption of natural light or light with equal physical properties. The intensity and the spectrum play an important role. A specially important part of the daylight spectrum is the large proportion of blue light (450-480 nm).

### **Red light regenerates and repairs holistically**

#### **Optimal wave length for holistic regeneration of all eye functions.**

Scientific studies confirm that red light with a wave length of 630 nm offers maximum benefits for tissue regeneration. This wave length is also preferably used in photobiology to stimulate holistic body healing effects. Maximum depth penetration and optimal absorption guarantees the best possible treatment results, even in deeper skin tissue. This ensures that the eye itself and all linked supply systems are benefitting from the healing energy of the photons.

### **The brain needs the information provided by light to be able to cope with numerous tasks**

The light absorbed by our eyes is used by the brain for various tasks. Only about 15% of the light which the eyes absorb is used for orientation purposes. The remaining 85% are used in various parts of the brain. Circulation, metabolism, blood pressure, hormones and a whole range of other important functions are directly or indirectly dependent on the light absorbed by the eyes.

**Sunlight is variable and continually changes its brightness and color combination**

Starting at sunrise and through to sunset the sunlight spectrum arriving on the earth's surface is constantly changing. Since the beginning of time this dynamic light has nurtured all life on this earth. All living organisms have adjusted to this natural biologic rhythm and accepted it as the pacemaker for their inner life rhythm. Accordingly the hormone production is adjusted to the relevant time in the day because of the dynamic of light. Control of the complete hormonal balance can be lost if this dynamic is missing (night work/shift work).

**Artificial light sources create biologically unfavorable light**

Living areas and work places which are illuminated by artificial light sources induce a raft of problems of the inner synchronization to the outside world. Important wave lengths are missing in this light and it has a permanent unnatural color combination and brightness. The light flickers with toxic frequencies and transfers by plasma discharges of mercury gas corresponding spectral information via the eyes to our brain. Over time this can have disastrous consequences for our health.

**Modern Technology offers a solution**

Due to new developments in producing light we now have light sources (LED) with extreme brightness and an ideal spectrum at our disposal. With the modern high intensity LEDs it is now possible to produce light which is utilized by our organism like natural sunlight. The development of the light unit **FIT 915** fulfils all requirements which our organism needs from natural light.

The solution is the **FIT 915**

**Intensive white radiation 9,000-14,000 lux wavelength 400-700 nm**

**Intensive red light radiation 12,000-20,000 mc (12,000-20,000 lux) wavelength 630 nm**

Follow this link for a full description of this remarkable [\*\*FIT 915\*\*](#) device!

Follow this link for full information on the [\*\*UBS 315\*\*](#) for the revitalization of water.

Contact OIRF offices toll free at 1-800-663-8342 or by email at [support@oirf.com](mailto:support@oirf.com) for further pricing, order and delivery details.

## WEBINARS FROM MED-TRONIK!

Every two (2) weeks, Med-Tronik will be conducting a webinar on various subjects with application and function of the MORA® Nova. Each webinar will be approximately 30 minutes in length and will be in both German and English.

Click here for the German webinars: <http://www.med-tronik.de/academy/webinare.html>

And here for the English webinars: <http://www.med-tronik.de/en/academy/webinars.html>

Simply press the Register button and sign up. You will be sent a confirmation email, as well as a reminder closer to the date.

This is a terrific opportunity for you to receive ongoing education featuring some of the best and most famous instructors from Med-Tronik including **Dr. Nuno Ruivo**, **Dr. Peter Mahr** and even occasionally **Dr. Gottfried Cornelissen**. If the times don't work for you, don't worry, Med-Tronik will be archiving them so you can watch at your own convenience (or time zone).

Depending on time available, there may even be time at the end for a brief Q & A.

We look forward to you taking advantage of this terrific opportunity to get training on a regular basis. More topics will be available as time permits.

Be sure to save this to your "favorites" and join in regularly.

### English BioResonance Power Week: MORA® in Daily Practice

The BioResonance Power Week has been devised in order to facilitate our International customers in obtaining their MORA certification. This six-day long English language seminar will cover all standard seminars, Basic, Advanced and Masters.

**Price:** €400 per person inclusive lunch, scripts, excl. VAT

**Duration:** 5½ days, Monday-Friday 9 AM to 5 PM, Saturday 8:30 AM to 12 Noon.

**Instructors:** Dr. Nuno Ruivo and Dr. Peter Mahr

**Dates:** September 10-15, 2018

To get further details and register go to:

[Register Here](#)

### Practice Applications:

#### **MORA® Super Plus**

True BioResonance Therapy with the Patient's own Frequency Spectrum  
Designed and Developed by **Dr. Franz Morell** and the original engineer **Erich Rasche**

**From Med-Tronik – The Home of MORA® BioResonance**

## **Re-Introduction of the famous MORA® Super Plus**

Pictured above is the **MORA-Super Plus** device, with the **MORA Interface** (installed in the lower right-hand corner of the electrode board) and the **Electronic Homeopathy software** program showing on the computer screen.

**Available by Special Order only through:  
OCCIDENTAL INSTITUTE RESEARCH FOUNDATION**

### From a therapeutic point of view:

<ul style="list-style-type: none"> <li>• Easy navigation via 15-inch touch screen with full visual display even in sitting position</li> <li>• Space saving integration of input and output cup electrodes (removable for cleaning)</li> <li>• Space saving integration of foot electrodes</li> <li>• MORA® Mouse function</li> </ul>	<ul style="list-style-type: none"> <li>• Indication of active electrodes</li> <li>• Display inclination adjustable</li> <li>• New stylus design with extended functions</li> <li>• Integration into an existing network / Central control by an administrative PC</li> <li>• Graphic images of measuring point as well as the respective organ</li> <li>• Graphic menu navigation</li> </ul>
---	--

### From a technical point of view:

<ul style="list-style-type: none"> <li>• 2 channel technology</li> <li>• 2 Interfaces (Mode A + Abar – inverted A)</li> <li>• Scott-Morley for 2 channels and significant technical improvement</li> <li>• Frequency range: 0.1 Hz to 1 MHz</li> <li>• Filter adjustment range: 1Hz to approx. 900 kHz</li> <li>• Amplification 0.1 to 1 Million per channel and mode</li> <li>• Modular design (channels, interface, etc.)</li> <li>• Integrated PC</li> <li>• Laser electrodes (Optional)</li> <li>• Electronic remedy software (Optional)</li> </ul>	<ul style="list-style-type: none"> <li>• Programs with up to 16 single steps</li> <li>• Selective automatic 4 or 6 segment measurement</li> <li>• Automatic detection Hypo/Hyper</li> <li>• Extension of standard fixed programs</li> <li>• Therapy recommendation from the EAP-measurement</li> <li>• Therapy cycles freely adjustable 1 – 65,000</li> <li>• Pulse/Pause adjustable 0.1 – 100 sec.</li> <li>• Integrated MORA®-Mouse, cup electrodes</li> <li>• Graphic display of measuring points</li> <li>• Square-wave generator 1 Hz to 500 kHz</li> <li>• Sine-wave generator 1 Hz to approx. 250 kHz</li> </ul>
---	---

### List of Electronic Test Sets for Therapy with MORA Super *Plus*:

ETS Standard Test Sets (Group)	Individual Test Sets
• 5-Elements	• Sanum
• Allergy	• Wala
• Bach Flowers	• Biological Catalysts
• Chemical Elements	• Meridian Test Set (Morell)
• Geopathy	• Biodynamics
• Mycosis	• Nutramine
• Nosodes	• Allopathic Medications
• Schüssler Salts	• Pesticides
• Dental Materials	• Organotherapy
• Orthomolecular Substances	• Trace Elements
<b>Cornelissen</b>	• LaboLife
• System Diagnosis Test Set	• LaboLife
• Mitochondriopathy/Cancer	• Herbalgem
• Alzheimers + Dementia	• Heel
Request a full listing with pricing and availability!!	

### Some European Practice Applications (Mora Therapy):

- Allergies and Food Intolerances (Europe and Canada)
  - Geopathic stresses
  - Functional Circulatory disorders
  - Acute and chronic pain and inflammatory conditions
  - Metabolic disorders
  - Building immune system.
  - Delivery of medication information.
  - MORA BioResonance Therapy will always increase speed and efficacy of complementary therapies.
  - Can also be complemented by:
    - BioPhoton Therapy – especially for skin rashes and other skin disorders
  - Follow this link for [MORA BioResonance details](#).
- For order, delivery & pricing information contact OIRF Office at 1-800-663-8342

Pictured in the Med-Tronik lecture and teaching room in Friesenheim, Germany. **MORA Super Plus** shown with optional WIN-Color software showing on the computer screen for application of Color and Pain Therapy according to Gruba.

**Carolyn's Comments:** In recent years we have watched some of our top rank Naturopaths going back to the books to prepare for the dreaded "prescribing exam". Personally I wonder about why our NDs are being trained and examined to prescribe (allopathic) medications when as Naturopaths they would normally "prescribe" homeopathics, supplements, herbs, etc. On the other side of the coin we are seeing our homeopathics and natural remedies being taken off the market by Health Canada and the US FDA. Where can we now turn for remedies for our patients? Note that Sanum, Heel and other North American "discontinued" remedy companies are definitely licensed and included in the software above . . .

And **an added note** for all upcoming participants of Dr. Simon Yu's AMA "boot camp workshop", the MORA Super Plus is the device used by Dr. Yu for all of his diagnostic testing. It is the printout charts from this diagnostic software which Dr. Yu shows in all of his many (international) lectures and presentations. CLW

## OIRF Special Reports:

The following publications have all been researched (many also translated) and published exclusively through OIRF for our members and supporters, and offer advanced insight into these methods. Invaluable in every practitioner's library.

- 1) **Report on LM Potencies** (Homeopathy). Translated and prepared by **Dr. Walter D. Sturm** based on the work of **Dr. Samuel Hahnemann**. This is pivotal information for all homeopaths. In the last years of his life Dr. Hahnemann turned solely to the use of LM potencies for his patients instead of the "usual" C and X potencies still utilized today. This knowledge was suppressed for nearly 80 years and revolutionized the practice of homeopathy when that famous 6th edition of his Organon of Medicine was finally published. Read the story and see the meticulous research and translation left us by Dr. Sturm. See further information on this important report at this link. 51 Pages. \$40
- 2) Collection of **Three Reports by Dr. Gottfried Cornelissen** (BioResonance). 1) A Critical Examination of Current EAV Diagnosis (individual report below); 2) Increasing Efficiency of Allergy Cancellation Therapy by Application of Substance Specific Frequency Ranges; and, 3) The Problem of A and Inverted A in Homeopathic Nosodes (individual report below). 31 Pages. \$20
- 3) **The Problem of A and Inverted A in Homeopathic Nosodes** (BioResonance). Translated and prepared by **Dr. Walter D. Sturm** based on the research of **Gottfried Cornelissen, DMD**. Advanced BioResonance information. 4 Pages. \$5
- 4) **A Critical Examination of Current EAV-Diagnosis, the Mebe-Ampule and Filter Procedure** (EAV & BioResonance). Translated and prepared by **Dr. Walter D. Sturm** based on the research of **Gottfried Cornelissen, DMD**. Digital single oint mwasurement according to Dr. Cornelissen. Advanced BioResonance and EAV-Diagnostic information. 14 Pages. \$10
- 5) **Transliterations of the Chinese Acupuncture Point Names with Explanations**. This is a supplement to the Modern & Traditional Acupuncture Program. Every single traditional acupuncture point is shown with the point name transliteration (with both new and old – Pinyin and Wade Giles – spellings) along with a full explanation. Translated by **Michael C. Barnett, DAcu, LAc** from the work and research of **Jean-Claude Darras, MD**. 35 Pages (free to all M&TA program subscribers)
- 6) **The Genital System**. Translated by Carolyn L. Winsor; revised and edited by **Sean Christian Marshall, DSc** based on the work and research of **Jean-Claude Darras, MD**. Advanced traditional acupuncture information explaining the energetics of the genital system including disorders and treatment. 23 Pages. \$25
- 7) **A transcript of Dr. Morell's BioElectronic Vincent Lecture (BEV/BE-T-A). THIS OFFICIAL TRANSCRIPT** of Dr. Franz Morell's 3-hour lecture is available from the Institute. It consists of thirty-one pages plus reproductions of his slides – it gives an excellent introduction to this objective bio-electronic testing method (BEV). Dr. Morell took us even further into the BIO-ELECTRONIC "VINCENT" Method during a subsequent seminar and introduced a totally new [at that time] German built instrument for it (by the Med-Tronik company, and Mr. Erich Rasche again!) to this country. \$15
- 8) See the OIRF [Archives Page](#) for past issues of "The Bridge" newsletter.

**And don't forget to order your copy of:**

### **The OIRF Special Report on Medication Testing**

A translation of Dr. Kramer's full medication testing guidelines from beginning to highly advanced aspects. Dr. Kramer has given us the most complete, step-by-step guidelines for learning medication testing on your own. Based on his seventeen years of practice and teaching, he also suggests the preparations you need to get started. Recommendations on how to order a set of those preparations for yourself are included within the report, and most are now included within the Electronic Remedy Test Sets Software. If you follow all of the report instructions, you will learn how to do medication testing by yourself, easily, quickly and correctly. If not, something is wrong with your Electro-Acupuncture instrument – not you!

This SPECIAL REPORT available in electronic or printed format for \$30.00  
(Report is over fifty pages. Preparations are not included.)

### **OIRF Video Training Programs:**

- 1) Diagnostics & Therapeutics Seminars by Dr. Walter Sturm<sup>+</sup>** (full set). Older seminar workshop where Dr. Sturm covered Diagnostic approaches (EAV, point and medication testing) and BioResonance Therapy approaches (MORA, Electronic Homeopathy and Remedy Information transfer). Five DVDs plus 1 disc with all overheads and handout materials. \$200
- 2) Biological Medicine Symposium 2012** (full set). Keynote speaker was **Prof. Dr. Roeland van Wijk** (colleague of **Prof. Dr. Fritz-Albert Popp**) specialist in BioPhoton light therapy, biophysical chemistry and molecular biology. 10 other well known complementary medicine practitioners, dentists and researchers. 12 DVDs plus Symposium Manual. \$100
- 3) How to Use the MORA III. Dr. Walter Sturm<sup>+</sup>** teaches how to use the MORA III unit for therapy and reviews the use of the RM200 diagnostic option. #35
- 4) Introduction to the MORA Super Plus and ELH. Dr. Brian MacCoy<sup>+</sup>** teaches how to hook everything up, how to get started, how to get set up with all the "goodies" that come with the device. \$35
- 5) How to Start Treating Patients with the MORA Super Plus. Dr. Brian MacCoy<sup>+</sup>** covers use of the Therapy Hand Book (applicable to all models of the MORA) as well as the basic electronic homeopathy applications. Here's how to set the device with the pre-set therapy programs. Get a good understanding of the scope and capability of these dynamic healing devices. \$75
- 6) MORA Nova Training Seminar. Nuno Ruivo, DO** (Med-Tronik). How to take the unit out of its shipping box and set it up. 3-part overview of BioResonance and patient simulations with emphasis on practical application in your practice. \$100
- 7) MORA BioResonance Therapeutic Possibilities. Marguerite Lane, ND.** How to get the best out of your MORA, how it works, and the basic concepts of classical BioResonance. Expert guidance on how to tackle the most common underlying problems in health. \$190
- 8) See ongoing training in Webinar format from Med-Tronik.**

## A Special Memorial Report

# The Ground Regulation System (GRS)

By o. Univ.Prof. Dr.rer.nat. med.habil. Hartmut Heine †

A few years after his serious illness in 2011 **Prof. Dr. Hartmut Heine** published a series of seven articles on the **Ground Regulation System**. I [*Carolyn Winsor*] was honored to be able to translate this incredible research into English for the first time and to publish it in our newsletter, "The Bridge".

As I worked my way through translation of the first article, the wealth of knowledge and understanding imparted in even that introductory article left me scrambling for dictionaries, research documents hidden away in the old OIRF library and way beyond "Google searches" to make sure that I was doing justice to the information Prof. Dr. Heine was imparting. Combined with the succeeding six further articles, his gift to us of knowledge and of understanding is truly priceless.

In respect for Prof. Heine I have merged those seven articles into one single report and have republished it separate from that older newsletter. With a total of 48 (mind-blowing) pages, this work is not just "worthwhile" reading, but mandatory reading for all practitioners of orthodox and complementary medicine. Available in electronic or print format for \$30, here is an outline of the contents:

- Part 1** – The Ground Regulation [A History and Background]
- Part 2** – GRS as a non-linear system – Structure, function and determined chaos
- Part 3** – GRS as a non-linear system– Structural components of the extracellular matrix (ECM)
- Part 4** – Spatial structure of the ECM and material transport within the system
- Part 5** – Contact, limitation and clogging up: Cell adhesion, basal membrane and glycosylation
- Part 6** – Functional relations of the ground regulation with the central nervous system
- Part 7** – The Ground Regulation and the Circadian Rhythm
  - The Ground Regulation and Alzheimer Dementia

### ➡ **OIRF Resource Materials:**

- For more information and instruction about **point and medication testing with EAV** see the OIRF: [Medication Testing Report](#) and the [EAV Desk Reference Manuals](#) (both available on disc).
- For more information and instruction about [Diagnostic and Therapeutic Techniques in Biological Medicine](#) with emphasis on BioResonance Therapy be sure to order the recently re-released videos of Dr. Walter Sturm's seminars.
- For a complete [listing of OIRF resource materials](#), including publications, reports, books and videos please follow this link to our website. There are full descriptions of all printed and recorded materials online.
- For a complete [listing of OIRF recommended instrumentation](#), including diagnostic, therapeutic and BioResonance devices please follow this link to our website. There are full descriptions of all instrumentation online.
- Of the three full "home-study" or "extension training" programs developed by Occidental Institute, two have been fully updated and are available in PDF format on disc. Research and publication of each of those programs has been pivotal in the development and application of Acupuncture and Biological Medicine in North America and around the world. Be sure to obtain your copies of these famous and highly respected volumes for your library and study purposes.
  - Modern & Traditional Acupuncture: \$165
  - Master of Acupuncture Program: Translations of the ancient acupuncture classics (The Nei Ching consisting of the Su Wen and Ling Shu, as well as the "Difficult Classic" the Nan Ching) are still available in printed format – \$125
  - EAV Desk Reference Manuals, Parts 1 & 2 – \$200
  - Diagnostics and Therapeutics Seminars of Dr. Sturm – \$200

Get more details at <http://www.oirf.com/resources.html>

### **"EXTENSION TRAINING" PROGRAM IN MODERN & TRADITIONAL ACUPUNCTURE**

Over twelve hundred pages of printed materials incorporating applicable materials from the supplementary textbook (*An Outline of Chinese Acupuncture*) and set of four charts (by *China Cultural Corp.*). Program starts off assuming you know nothing about acupuncture (a good place to start even if only as a thorough review of the basics) and takes you right through to the most heavy-duty advanced aspects of true, 'energetical' acupuncture. The finest and most comprehensive material in the English language, covers all seventy-one meridians of traditional acupuncture; that 'missing sixty percent' of acupuncture knowledge most "acupuncturists" have never even heard of; and, the modern electronic 'needle-less' treatment methods (Electro-Acupoint Therapy) now so popular.

Over 3,000 students were originally enrolled in this famous Extension Training Program, and the OICS graduate listings read like a "Who's Who of Acupuncture" in the English speaking world. This program takes you as far as anyone possibly can in a 'written' format prior to the clinical finesse and practicum needed to round out your acupuncture study to professional levels.

### **FULL THIRTY-THREE LESSON PROGRAM NOW AVAILABLE ON DVD**

**Price includes** disc with all 33 Lessons, applicable supplementary textbook (*An Outline of Chinese Acupuncture*) passages and representation of set of acupuncture charts (China Cultural Corporation set of four). [Current editions of the textbook and charts can be easily obtained from suppliers of acupuncture books and supplies.] Price does **not** include printed materials, binders; or, any tutorial, examination, or certification privileges. Follow above link for full details. **Full set on one disc available for CDN \$165.**

## Occidental Institute Research Foundation

### 45th Biological Medicine Tour to Germany

Tuesday, Oct. 30 through Monday, Nov. 5, 2018

#### Theme: Complementary Diagnostic and Assessment Methods

We will explore which methods are "real" and individualized as well as explanations about the effectiveness of causal diagnostics versus the now popular "global" diagnostics based on statistical analysis.

**Coordinated and Hosted by:** Carolyn L. Winsor,  
OIRF Managing Director

**Keynote Speaker:** *Dietrich Klinghardt, MD*, Founder of the famous Klinghardt Academy, world renowned practitioner, researcher and lecturer.

Beautiful Baden-Baden in the Fall!

- Visit and participate in the famous **Baden-Baden Medicine Week Congress**

Here's part of the group gathering outside the Medicine Week Congress House

- Our private lectures present the latest information and research in our field, with ample time for questions and hands-on
- Presentations from famous German Biological Medicine Clinics
- Presentations by several instrumentation companies on the practical application
- An opportunity to talk with like-minded colleagues and learn from the experience and expertise of attending OIRF Directors and Advisors.
- Be treated like family with good food, good friends and good conversation in friendly hotels
- Travel in comfort with plenty of room for luggage, and stay in a family run hotel close to Baden-Baden.
- Tour price of C\$3,995/US\$2,995 includes full tour program, 7 nights single room and all but a few meals.
- **Register early!** Attendance will be strictly limited this year.

Plus exclusive and Med-Week English language lectures for our OIRF group:

- **Clinic Lecture:** Integrative Cancer and Lyme Disease specialist – *Dr. Friedrich Douwes\**
- **Clinic Lecture:** Biological Medicine specialists using multiple modalities – *Dr. Uwe Reuter\** and *Dr. Ralf Oettmeier\**
- **Clinic Visit:** A private Biological Medicine Clinic in Frankfurt, Germany
- **Advanced Medical Systems (AMS):** Pulsed Electromagnetic Field Therapy – *Dr. Frank Beck\**
- **Pharmacy Lecture:** RNA Therapy (Regeneresen®) – *Dr. Georg Stommel\**
- **Alfa Thermodiagnosics:** Regulation Thermography – *Dr. Dan Beilin*
- **Heart Rate Variability** (According to Nilas) – *Dr. Jürgen Aschoff*
- **Photon Resonance Test (PRT)** According to Schimmel – *Ute Engelhardt* and *Aina Sylvester-Schimmel*
- **Psychosomatic Energetics (PSE):** – *Dr. Reimar Banis*
- **MBA, ElectroAcupuncture According to Voll (EAV):** – *Knut Henning*
- **Med-Tronik:** BioResonance Therapy and Diagnostics – *Nuno Ruivo* and *Peter Mahr*
- Evening lectures, training sessions and discussions with attending OIRF directors and advisors

## 2018 Calendar of Events!

Event	Lecturers	Dates	Details/Contact
<b>Concordia</b>	Dr. Robert Cass and others TBA	Tucson, Arizona March 9-10, 2018	<a href="#">Concordia Conference</a> sponsored by AOIBS COMPLETED!
<b>Theragem Basic Training</b>	Catharina Jansma	TBA	For registration information contact: Website: <a href="http://medicahealth.org/">medicahealth.org/</a>
<b>Neural Therapy &amp; Integrative Biological Medicine</b>	Dr. Michael Gurevich Dr. Ralf Oettmeier Dr. Joseph Vizkelety	Jamaica, NY March 16-18, 2018	Contact: 516-674-9489 or Email: <a href="mailto:gurevichmd@gmail.com">gurevichmd@gmail.com</a> COMPLETED!
<b>Acupuncture Meridian Assessment St. Louis, MO</b>	Dr. Simon Yu Dr. Gary Weile Carolyn Winsor	St. Louis, MO <del>April 27-29, 2018</del> Aug. 24-26, 2018	<a href="#">Prevention And Healing</a> For medical/health practitioners inc'g MD, DO, DDS, DMD, DC, ND, RN
<b>Med-Tronik Power Week and Individual Seminars</b>	Nuno Ruivo Peter Mahr	Sept. 10-15, 2018 Friesenheim, Germany	Contact <a href="#">Med-Tronik</a> to register
<b>Neural Therapy Workshops</b>	Dr. David Vinyes Dr. Teresa Garcia Caballero	Glen Head, NY Oct. 5-7, 2018	Contact: 516-674-9489 or Email: <a href="mailto:gurevichmd@gmail.com">gurevichmd@gmail.com</a>
<b>52nd Medicine Week Congress, Baden-Baden, Germany</b>	Lectures primarily in German language - participants of Tour #45 will attend	Baden-Baden, Germany Oct. 31-Nov. 4, 2018	Contact OIRF for registration and participation details
<b>Biological Medicine Tour #45 to Germany</b>	TBA	Starts in Frankfurt, Germany, Oct. 30 to Nov. 5, 2018	For further details and registration information please contact: <a href="http://www.oirf.com/">http://www.oirf.com/</a> Make this the year you participate!!
<b>Throughout 2018 OIRF will participate in numerous conferences and seminars with exhibit and education booths.</b>			Watch your newsletter and the Events Page on this website as details are announced.

➡ **Conferences and Conventions:** As an ongoing approach to bring this information and education to a broader range of practitioners, OIRF will sponsor speakers and lecturers in a number of conferences and events throughout the USA, Canada and Germany.

Plans and registrations for OIRF to be present at a number of important international conferences have been arranged, and we are looking forward to the many activities of this exciting and busy year. It is our hope that you will join us in our efforts to expand the use and knowledge of Biological Medicine in Canada, the USA and around the English-speaking world.

Here are **some** of the events where our OIRF Board of Directors and Advisors are giving presentations and participating. Be sure to check out the announcements of events and conferences enclosed and on the [Calendar of Events](#) on our website. Make plans **today** for which events you will attend during exciting and busy 2018 year. Your support for the organizers is greatly appreciated, and gives you the benefit of fascinating, informative and educational programs that will enhance your practice – and CEU's! OIRF directors, advisors and/or members are active in each of the recommended events. See also Pages 2, 19, and 27-29 (PDF) for further details.

➤ **AMA** (EAV) hands-on workshop for MD's during August 24-26, 2018 sponsored by **Dr. Simon Yu** of **Prevention and Healing** in St. Louis, Missouri.

**Note:** This AMA training and boot camp session has recently been opened to practitioners with alternate certification. It focuses on EAV-type testing for parasites and dental problems.

➤ **Neural Therapy and Integrative Biological Medicine:** Sponsored and organized by **Michael I. Gurevich, MD**. Program includes: Advanced Neural Therapy, New injection techniques, Holistic Biological Dentistry, Introduction to vital blood analysis and the Basics of European Phytotherapy. Features **Ralf Oettmeier, MD and Joseph Vizkelety, MD, DDS**. Jamaica, New York March 16-18, 2018. [This initial seminar is now Completed!]

Also **Neural Therapy Workshops:** Oct. 5-7, 2018 Glen Head, New York. Call 516-674-9489 or email [gurevichmd@gmail.com](mailto:gurevichmd@gmail.com) for further details and registration!

➤ **English MORA Power Week training** at Med-Tronik in Friesenheim, Germany, September 10-15, 2018. Contact OIRF or Med-Tronik for registration and details.

➤ **52nd Medicine Week Congress.** Dates are **Oct. 31 through Nov. 4, 2018** in Baden-Baden, Germany with OIRF Advisors, Directors and Germany Tour participants attending. Usually more than 3,000 doctors participate with nearly 200 lectures, workshops and courses (German and English language). Exhibit area with more than 220 exhibits provides you with an excellent insight into the big product offerings in natural healing and complementary medicine. There you can find out directly, and compare. Contact OIRF for attendance possibilities.

➤ **Biological Medicine Tour #45 to Germany, October 30 through November 5, 2018.** Join us for our **45th** group tour including the world famous "Medicine Week" Congress in Baden-Baden. Tour program also includes exclusive OIRF English language lectures from renowned German clinicians and researchers as well as pharmacy and clinic visits. Speaker, event, itinerary and registration details will be posted on our website.

To tempt you for the 2018 tour program follow this link to our [report on our 2016 program](#) and activities. Watch this [Germany Tour](#) link to see the scheduled plans and speakers for 2018 as they are arranged and finalized. We highly recommend that you [register early](#) as **attendance is once again being strictly limited**.

➡ Follow this link to our website to see Volume 14, Issue #5 in PDF print format.

➡ **Updates, Reminders and Announcements:**

➤ Watch for seminar and conference updates. Plan early which events you will be attending this year.

➤ Watch for Volume 14, Issue #6 of the "The Bridge" newsletter to arrive in your Inbox in mid-June 2018. Anticipate an article based on a recent lecture from your OIRF Director **Carolyn L. Winsor**. There are a number of new and well written articles about BioResonance Assessment and Therapy that have been published in several of the German journals. Carolyn is busily translating as many of them as possible for future newsletter issues. Watch for news of new devices and the **Re-Introduction of the MORA Super Plus!!!**.

➤ Visit our **Facebook** page – will you be our friend?

I trust you have found much of interest in these pages. During the 2018 winter and spring seasons we are looking forward to participating in numerous conferences while supporting various speakers and several complementary organizations. Additionally, there are a variety of informational articles being prepared for the next Issues of Volume 14 of "The Bridge". Electronic publication with access open to all will continue throughout 2018 and we will continue bringing you that cutting-edge information for which OIRF is famous.

We look forward to meeting you during our forthcoming 2018 activities and programs. As always, your comments are welcome. Remember that this is your newsletter. Your suggestions, article contributions, critiques, FAQ's and compliments are gratefully accepted.

Yours in health,

*Carolyn*
