Energy medical expertise on the effects of “CODED HOLOGRAMS by ODT Marketing GmbH”

Objective

Scientific expertise with four test series, including the meridian and segmental diagnostics regarding the biological, energetic, informative effect of [coded holograms](#) of the company ODT Marketing GmbH, Schulweg 6, 5081 Anif.

Figure 1 - ODT hologram

The aim of this expertise is the proof of the effect of [coded holograms](#) in the application of Neural therapy according to Huneke, in the extended concept of *Information-Energetic-Holographic Neural Therapy IEHNT*, according to Prof. Dr. med. med. Harry Lamers / FA for General Medicine, performed in 4 test series.

Energy medical expertise on the effects of
“CODED HOLOGRAMS
by ODT Marketing GmbH”

Mitochondria

The human body is made up of more than **70 trillion** cells. Each of these body cells contain an average of around 1.000 mitochondria, i.e. more than **70 trillion mitochondria** in total.

The mitochondria produce the energetic fuel we need to exist.

They are the powerhouses of the cells.

Their main task is to produce sufficient energy for the cells and the organs. The organism needs this energy for the metabolism, the assembly and disassembly of cell structures and all other functions that keep the organism alive.

Mitochondria consist of two membranes: one outer and one inner. While the outer membrane gives these cell organelles their oval shape, the inner membrane has numerous crests (cristae) on. The energy production takes place in these cristae. The holograms developed by ODT work exactly in this inner membrane, in which the DNA matrix is located.

The most important task of the mitochondria is the generation of energy in the form of ATP.

The molecule ATP (adenosine triphosphate) energy carrier of each cell, controls the process inside each cell. All metabolic processes are controlled by enzymes, ATP is the biochemical energy food.

Energy medical expertise on the effects of
“CODED HOLOGRAMS
by ODT Marketing GmbH”

Mitochondriopathies

Mitochondrial diseases arise when the cell's power plants, the mitochondria, are defective and not fully functional.

Mitochondrial damage and the resulting malfunction or diminished function can be caused either by genetic, i.e. inherited, defects, or by exogenous factors such as toxins, heavy metals, drugs, or radiation.

Mitochondriopathies are always associated with decreased energy production. As a result, weaknesses occur in the organs that need the most energy, such as the heart, brain and muscles.

Lead results of Mitochondriopathies

The leading finding of Mitochondriopathies is an increase of lactic acid in the blood (lactic acidosis). It is caused by the fact that the defective mitochondria no longer produce the energy fuel ATP (adenosine tri-phosphate) with the help of oxygen (by oxidative phosphorylation), but without oxygen under anaerobic conditions. This produces lactose (lactic acid).

Energy medical expertise on the effects of
“CODED HOLOGRAMS
by ODT Marketing GmbH”

Spectrum of effects of the holograms

The task of the ODT Marketing GmbH was and is, through its specially developed hologram technology, to influence mitochondrial diseases positively which are caused by exogenous toxins such as drugs, pollutants, heavy metals, radiation and electro smog.

When taking up vital nutrients (including possible supplements through dietary supplements), the hologram significantly **increases the energy status of the cell** to absorb the active ingredients.

The life force of each cell is increased.

The hologram enhances and accelerates the production of ATP and supports the regeneration of damaged and healthy, vital cells.

The vibrations mediated by the hologram, act indirectly through procaine 1% and NADH, but directly even more on the function of the respiratory chain and the oxidative phosphorylation.

The hydrogen molecules introduced into the respiratory chain in the form of NADH produce in a reaction with oxygen by electron transport processes, by means of specific enzymes present in the inner mitochondrial membrane, e.g. the NADH cytochrome C reductase ATP (adenosine tri-phosphate) and the cytochrome oxidase, or the cytochrome a₃ / A₃ ..

Increase of the energy level in the base - in the mitochondria

Equity, balance and vital energy are recovered and / or restored by the encoded hologram and the influence on the mitochondria.

Cell nutrition as a driver and power for the cells.

Coded holograms, the fuel for the cells.

The hologram developed by the ODT with Fremona Technology has been used and tested by a team of experts and is successfully used in the administration of important substances, e.g. Procaine 1% and NADH used.

Energy medical expertise on the effects of "CODED HOLOGRAMS by ODT Marketing GmbH"

Measuring device

KRACMAR, together with **HAUSWIRTH**, published "On the Change of the Polarizing Capacity of the Human Body by Physical Therapy Procedures" in **1959**.

In and with this publication KRACMAR created the assignment possibilities for the first time:

The function of the parasympathetic nervous system corresponds to the R (= resistance) values in KOhm

The function of the sympathetic nerve corresponds to the C (= capacity values) values in μF

The standard values for the parasympathetic nervous system are between 8 and 15 KOhms

The standard values for the sympathetic are between 0.15 and 0.25 μF

Dr. RILLING measured with the help of thousands of measurements free of foreign matters from 1950-56, organs, diseases, secretions, cultures, blood, water and drugs. Through the encounter with KRACMAR and HAUSWIRTH, he came in contact with the Viennese measurement technology and took it over. At first it was purely mechanical but with the advent of transistors he took up these possibilities and had new measuring devices developed.

Finally, in **1971**, today's "**Biotonometer®**" *device was created. With the help of 2 hand electrodes, it quickly measures the skin resistance (parasympathetic) and skin capacity (sympathetic) in seconds.

The conclusions from blood findings and illnesses in tabular form, with each increase – drop, rise - decrease in values, led RILLING to create from each a WAAGEBALKEN (libra bars) - scheme for blood and organ changes depending on the dominance of the parasympathetic tone (vagus dominance) or the sympathetic tone:

Thus, more complex vegetative relationships in the body became visually recognizable.

Energy medical expertise on the effects of “CODED HOLOGRAMS by ODT Marketing GmbH”

We know now - although for decades - but simply not accepted by the medical profession:

Our vegetative nervous system is measurable!

We owe this knowledge to a Viennese physicist: Professor Ing. Franz KRACMAR. In 1955, at the constitutional congress in Tübingen (at the clinic of Prof. Kretschmer), O. HAUSWIRTH with "his physical adviser" Prof. Ing. KRACMAR (both from Vienna) reported for the first time on "Vegetative Reactometry" (n. Hauswirth),.

The research in own and interested practices ran over 5 decades and brought a wealth of new knowledge and experiences. In 1977, in a publication of the data, I received data from clinical findings based on clinical results, which were determined over the years by 64,000 measurements on 800 patients at the then renowned Ringberg Cancer Clinic. There were exciting results for the course of disease (especially cancer), where a steady increase in R resistance values suggested that the patient had a poor prognosis. This observation was complex and often done in own practice.

The **Biotonometer** makes it possible to make statements about the current vegetative starting position of the person to be assessed in a matter of seconds. It is a network-independent measuring device for the determination of the ohmic and capacitive AC (alternating current) resistance, or the values of the replacement components of humans, medicines, homeopathic remedies and much more. USB interface enables data transfer to PC. Battery operated delivery: Biotonometer®, hand electrodes, battery charger. Technical data: Measuring range R: 1 ... 150 kOhm Low ohmic range R: 50..100 Ohm Measuring range C: 0.01 ... 0.5µF Low ohmic range C: - Measuring time max. 0.3 sec.

With this Biotonometer®, the vegetative state can be measured in seconds and thus the overall physical condition of a patient can be determined.

The R and C values measured with the device can be graphically displayed as a curve and thus quickly identify a course of disease Source: <https://www.activwell.ch>

* The Biotonometer device was already presented in the early years of the medical week in Baden Baden.

Energy medical expertise on the effects of “CODED HOLOGRAMS by ODT Marketing GmbH”

Methods

The measurement is made using the VNS 3000 device by Ivan Engler with the left and right hand sides.

The skin resistance and the electrical potential of the individual are measured in neural therapy.

Neural therapy is a method not yet scientifically recognized in medical practice in the field of alternative medicine, complementary medicine or holistic medicine. The neural therapy was developed mainly by the physicians Ferdinand and Walter Huneke (source: Wikipedia).

But there are several fathers and mothers in the NT and in the history of their further scientific and clinical development. Harry Lamers is one of them.

In his extended concept of neural therapy and the following treatment method, the change in the energy rigidity (blockage) is provoked by a stich of 0.1 - 10 cc procaine.

Procaine has two levels of action according to Lamers:

Classically energetically, it has a charge potential of 290mV and quantum energy, or bio-photonic 13.6 eV. This triggers provocation and initiates regulation via the mitochondria.

Energy medical expertise on the effects of
“CODED HOLOGRAMS
by ODT Marketing GmbH”

In the extended concept of Prof. Dr. med. Harry Lamers the holistic principle of the regulatory mechanism is provoked over the 13.6 eV.

Annotation:

In 1986 Harry Lamers was the first physician to lecture and publish that biochemical local-anaesthetic on the cell membrane is not the cause of the neural therapeutic holistic effect, but the biophysical values of 13.6 eV.

This particular biophoton effect, in the mitochondria at cytochrome a / A3, is the second level of neural therapeutic effect postulated by Harry Lamers. However, Harry Lamers confirms that these levels, in his opinion, always seem to resonate together (holistic depth = harmony), from which the neural therapeutic phenomenon life, respectively the energetic, or biophotonic (13.6 eV) life principle of the regulation medicine according to Prof. Dr. med. Harry Lamers is born.

Energy medical expertise on the effects of
“CODED HOLOGRAMS
by ODT Marketing GmbH”

Procedure

1. Test series

Initial measurement / basic measurement (pre-measurement)

2. Test series

Neural therapy with procaine 1%

3. Test series

Neural therapy with procaine 1% and with NADH 20 mg

4. Test series

Neural therapy with procaine and with NADH 20 mg and the
coded ODT holograms

All 8 measurements in the four series of measurements were taken in succession on the same day.

Energy medical expertise on the effects of “CODED HOLOGRAMS by ODT Marketing GmbH”

Measurement results in four measurement series

Value 1 = skin resistance / value 2 = skin capacity

The respective sums divided by the number of subjects (30) gives the average values

Explanation of the measurement

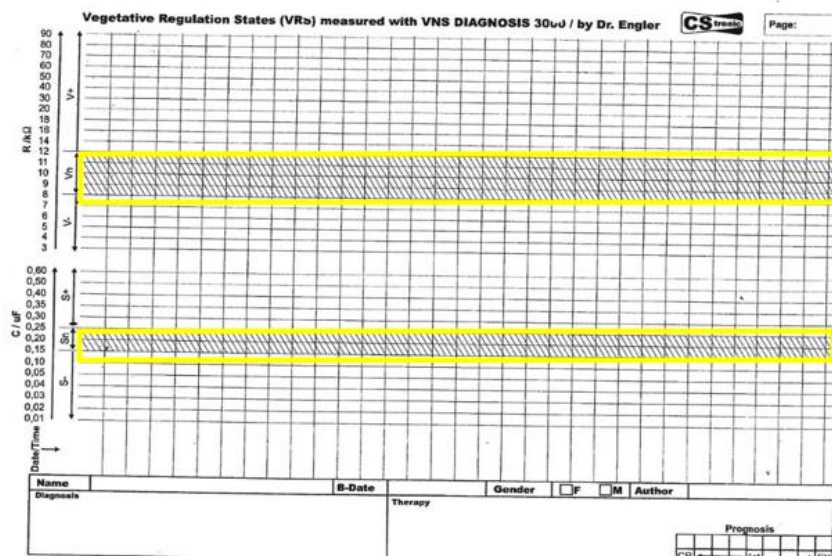

The Vegetative Regulation Status (VRS) is measured

Value 1 skin resistance R k Ω

- Measured in R k Ω
- Standard range 8 - 12
- improvement = from V - to 8
- deterioration = from V + to 12

Value 2 skin capacity C in μF

- Measured in: μF
- Standard range 0.15 - 0.25
- improvement = from S + to 0.25
- deterioration = from S to 0.15

Energy medical expertise on the effects of
 “CODED HOLOGRAMS
 by ODT Marketing GmbH”

Measurement results

Value 1: skin resistance in R k Ω

Standard range R = 8-12 k Ω

Energy medical expertise on the effects of "CODED HOLOGRAMS by ODT Marketing GmbH"

Documentation

Measurement series of a patient

Example

Note Prof. dr. med. Harry Lamers:

The measurement series of this patient is therefore shown in particular to show the healing energetic-medical effect on the first day of treatment (in the presence of Prof. Ivan Engler).

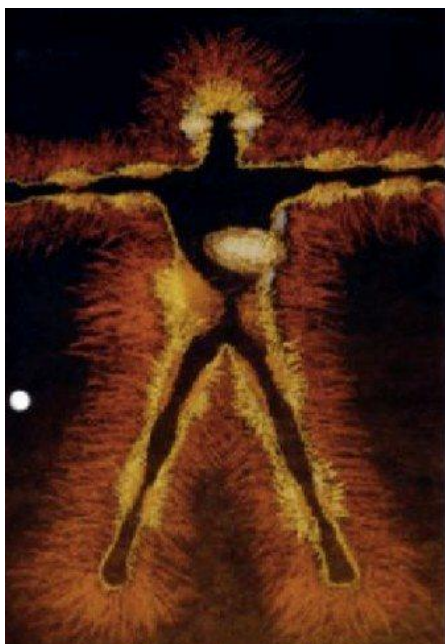

Today this patient lives in good health, his values have stabilized in the normal range; However, he comes to the doctor's office a few times a year to Prof. Dr. med. Harry Lamers to continue to support his regulatory process.

Energy medical expertise on the effects of “CODED HOLOGRAMS by ODT Marketing GmbH”

Synopsis concerning energy and information

The effect of magnetic vector potentials (MVP), in contrast to the effect of force fields, is not energetic, but informative. The information is superior to energy and, moreover, to matter. However, until today it can only be indirectly demonstrated by its effects. The organism as a whole has a variety of dipoles and other transmitting and receiving structures that can go into resonance with human being as an object is standing in the centre.

The human body is to be understood as a cavity resonator whose skin serves as a reflector against both external and internal waves. Only in this way can living creatures survive on earth despite the immense cosmic radiation effect to this day: "skin effect". A large number of electrical impulse processes take place inside of the body, which radiate as waves due to their inconstancy, these are reflected on the inner skin and form waves as a result of the interference ("beats"), whose nodes impress among others as meridians. Accordingly, the inside of the body forms a wholeness and reacts accordingly holistically.

Electrons are the suppliers of electromagnetic waves / fields

Radiation of electromagnetic waves / fields of a human being. These radiations are emitted by the electrons of a human being.

Source: Pavlov Institute of Physiology of the Russian Academy of Sciences from the Physiological Institute of the USSR Academy of Sciences.

Energy medical expertise on the effects of "CODED HOLOGRAMS by ODT Marketing GmbH"

To counteract the impression that this is an esoteric conception, I enclose copies of a "Lexikon der Physik" (author: R. Knerr, Faktum Lexicon Institute, Bertelsmann Lexikon Verlag, Gütersloh (Munich, 2000), on the topics: potential (specific scalar potentials and vector potential), resonance and vector.

Three quotes from it

1. Quote:

"The physical interpretation of the potential is that of a potential energy normalized to the" unit charge ". This interpretation applies to so-called scalar potentials such as the electrostatic potential or the gravitational potential (page 499). "

2nd Quote:

"Force fields that have no sources are called *source-free*. For this reason all their lines of force are closed in itself (\Rightarrow magnetic field). However, such fields can also be attributed to a potential which then has a vector character. The derivation of a vector field may seem unhandy, but its meaning comes from the theory of relativity, in which the scalar potential and the vector potential merge into a four-potential (page 500). "

3rd Quote:

"Rotation is a measure for in itself closed field lines, i.e. for whirl. For source-free vector fields the divergence is zero, for spin-free the rotation is zero (page 672).

This means that purely material-technical tests cannot lead to a positive result, indeed cannot even lead, since it cannot prove zero. This requires other methods.

Anyone who doubts these findings is no longer on the state of physics since about 1930, but on an outdated status, which must be described as unscientific.

Energy medical expertise on the effects of “CODED HOLOGRAMS by ODT Marketing GmbH”

Summary

With the test and the result of 30 people with Neural Therapy (NT) according to Huneke, in the extended concept of Prof. Dr. med. Harry Lamers / FA for general medicine, is provoked with the implemented by him holistic principle of neural therapy of the regulatory mechanism on the 13.6 eV, from which the phenomenon of life, or the life principle of regulatory medicine according to Prof. Dr. med. Harry Lamers is born.

The "*Information-Energetic Neural Therapy IENT*", based on the extended concept of Prof. Dr. med. Harry Lamers, is logically consistent with the classic neural therapy and optimizes the conventional therapy success.

The *Information-Energetic Neural Therapy IENT*, based on the extended concept of Prof. Dr. med. Harry Lamers with Procaine 1% and with NADH, has achieved significantly positive effects.

The *Information-Energetic Neural Therapy IENT*, based on the extended concept of Prof. Dr. med. Harry Lamers with Procaine 1% and NADH as well as the coded ODT holograms, had a significant to highly significant positive change. See measurement results on pages 14 and 15 of this expertise.

As a result of the significance of this expertise, the coded ODT holograms can thus be said to have a significantly positive informational, energetic, biological effect, from which the postulated Information-Energetic-Holographic Neural Therapy IEHNT is realized.

Prof. Dr. med. Harry Lamers
Facharzt für Allgemeinmedizin

Roermond, 20.09.2018

Energy medical expertise on the effects of
“CODED HOLOGRAMS
by ODT Marketing GmbH”

Curriculum vitae Prof. Dr. med. Harry Lamers / FA for general medicine

- **1936** born in Roermond (NL).
- **1944-1945** Housed in the emergency hospital Salvator in the front town of Roermond, during the war.
- **1949-1956** visit of the episcopal grammar school in Roermond
- **1956-1964** Medical studies at the University of Nijmegen with biochemistry and physics as minor subjects
- **1962** As a prospective doctor, he concluded a cooperation agreement with Dr. Ing. Marcel Mol, in the Julianalaan in Roermond / Maasniel.
- In **1964**, on March 6, he swore the Hippocratic oath and began to practice as a general practitioner in his own practice in the Wilhelminalaan.
- **1964-65** As a naval lieutenant and a Royal Navy doctor, he began an internship at the Naval Hospital in Overveen.
- **1965** At the end of this year, a cooperation began with Dr. med. J. Varro from Dusseldorf, the surgeon, and specialist in oncology and experiential healing. He also conducted research in the fields of neural therapy, ozone therapy, ionized oxygen therapy and naturopathy.
- **1966** Move to his own practice in Roermond / Donderberg.
- **1967-1968** appointment as the personal physician of the city carnival club "D'n Uul", which he remained until 2011, i.e. 43 years. Since then he is the proud bearer of the title "honorary personal doctor".
- From **1966-1969** he worked as a biology teacher at the Rijks-HBS and from the 1970's as a community college teacher (Opleidingen Guild), addressing all alternative methods of medicine.
- In **1974** he took in Dr. Rard Sampers and Dr. André Weel the practice.
- **1972** Première of an audition demonstration in the waiting room of the practice Harry Lamers, which caused an international sensation.
- **1977** Foundation of a joint practice in Roermond / Donderberg.
- **1978** Member of the board of various international groups for holistic medicine and from 2002 as president of DAH (German Association of Herd and Regulation Research, founded 1950), also as international lecturer, with the main topic "Chronic multiple diseases and insensitivity for conventional medicine, hereditary diseases and cancer " was in focus.
- **1979** Renewed establishment of a free practice of his own from which he worked as an independent doctor, scientist and lecturer of his own thinking model around the topic of neural therapy in teaching and practice.
- (Co) foundation of "Vesta Research", "Patmos Research", "Stiching Neural Therapy" and the "Ferdinand Huneke Institute" in his practice with apartment annex. Always faithful to his vision that the humanities should not be separated from integral medicine.
- In **1980**, Dr. Harry Lamers was requested by the University Group of the Faculty of Molecular Cell Biology / University of Utrecht - NL, under the direction of Prof. (then still

Energy medical expertise on the effects of “CODED HOLOGRAMS by ODT Marketing GmbH”

- Dr.) R. Van Wijk, at that time head of the scientific team for Integral Medicine of the Department of Molecular Cell Biology, as scientific and practical experienced physician to co-found the TIG - "Transferpunt voor Integrale Geneeskunde". This happened in collaboration with Prof. Dr. med. Fritz Albert Popp, great researcher and discoverer of biophotons.
- **1984** On March 20, Dr. Harry Lamers was a guest speaker at the Symposium "Pain Relief. How and why not?" At the Erasmus University in Rotterdam. The occasion was an article published on 12th November 1983 in the Dutch magazine "Elsevier" on the "Added value of neural therapy in integral medicine".
- **1990-1995** Harry Lamers co-founded the Center for Integrated Medicine (CGG), which opened in Winterswijk-NL in September 1990, when, with a political change in 1995, subsidies from the Ministry of Health, Welfare and Sport were discontinued, had to be closed again.
- **1995-2010** Further development and testing of the new teaching and practice of Energy Information Neural Therapy (E-I Neural Therapy) according to Harry Lamers / Vesta research, referring to the traditional Neural therapy according to Huneke.
- **2010** Publication in the issue "Regulation and Awareness - The Future of Medicine!", On the occasion of the 60th anniversary of the German Medical Association for Herd and Regulation Research e. V. "(Editors Dr. med. Harry Lamers and Bernhard Kohl, Matrimed Verlag, Heidelberg 2010).
Univ. Prof. Dr. med. Ivan Engler (†) proves the thesis proposed by dr. Harry Lamers, according to which the effects of procaine and ionized oxygen (iO₂) are identical, namely by "absorption spectrum resonance" and the "redox potential rules".
- **2013** Foundation of the Academy of Energy Information Medicine on April 3, 2013 in Los
- Cristianos - Tenerife - Terralava, Spa Hotel Mar y Sol. Central theme: the E-I neural therapy in the personally integral medicine.
- **2014** appointment as lecturer of EI-NT (Energy Information NeuralTherapy) in Dnjetropetrovsk.
- **2016** laudatory speech to Prof. dr. Harry Lamers on "50 Years of Experience and Science" on the occasion of the largest international medical congress, MEDWOCHE, in Baden-Baden, in gratitude for his contributions during the last 50 years.
- Nomination at the University of Traditional and Non-Traditional Medicine in Dnjetropetrovsk (Ukraine) as a professor of neural therapy. At the same time, he is a member of a teaching and research network for energetic-informative medicine with professors from Munich, Berlin, Grimma / Leipzig, Rostock, Freiburg, Bonn / Rolandseck, Los Cristianos-Tenerife, Unterlembach and Salzburg.

Energy medical expertise on the effects of “CODED HOLOGRAMS by ODT Marketing GmbH”

- **2017** An important publication on the new theory and practice of integral biophoton therapy entitled Het ontstaan van Het Harry Lamers Filter – Nieuwe ontwikkelingen in de integrale Geneeskunde: Samenhang en synergie bij combinatie van Acupunctuur en Neuraltherapie (" The Emergence of the Harry Lamers Filter - New Developments in Integral Medicine: Correlation and Synergy in the Combination of Acupuncture and Neural Therapy "). Authors: Bert Heintzberger, dentist and registered AVIG member and Harry Lamers, physician and registered AVIG member.
- From 01.04.2017: start of cooperation with Prof. Dr. Dr. George Birkmayer, Vienna. Its NADH - its fluid hydrogen molecule, the beginning of the respiratory cycle in the **mitochondria** - as a new, important topic in our Energy Information Medicine in general and in Information Energy Medicine in particular.
- From 27.10. until 01.11.2017 speaker and chairman of the DAH, as well as conference chairman at the 51st MEDWOCHE in Baden-Baden.
Held a 4-hour seminar on regulatory medicine, information-energy-medicine, where the synergy of the extended NT, according to the concept Harry Lamers' in combination with NADH-Birkmayer and coded ODT holograms was shown, reviewed and discussed.
- 21.04.2018, in Schloss Leopoldskron / Salzburg - International conference on NADH and its therapeutic applications.
Prof. Dr. med. Harry Lamers' topic: "First application of NADH in neural therapy" in combination with ODT holograms, stem cells and growth factors.
- 27.04.2018 was by Prof. Dr. med. Harry Lamers in Leipzig in the commemorative 25th anniversary of the Medical Institute of Traditional and Non - Traditional Medicine - Dnjetroperovsk, written and published on the topic of IENT (Information-Energy-NeuralTherapy).
