

ULTRA-COMPACT LASER DISC (ULD 117)

Modulated Laser Therapy

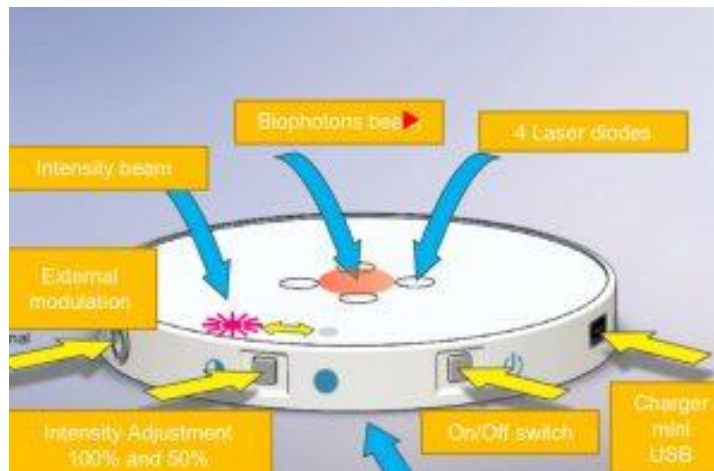

Ultra-compact disc with amazing therapy effects using soft laser and photon therapy. Modulated soft laser and photon therapy, magnetic and scalar field therapy, remedy maker and water energizing all combined in the most "compact device".

Four Laser diodes + Biophoton beam

MAIN FEATURES

- Four laser diodes, each 12 mW at 785 nm for best biological effects and deep penetration; laser class 1M.
- Photons at 633 nm for stimulation of collagen production.
- Magnetic field therapy modulated with the biological beneficial global frequency.
- Tesla Scalar coil with guaranteed 40% scalar waves, 150 micro Tesla.
- Modulation with Schumann Waves 7.8-8 Hz pulse for best bio-energetic information transfer and integration.
- Possible modulation through external connected audio signals such as MP3 (do not use mobile phone or cables).
- New remedy imprinting, transfer of bio-signals directly to your body.
- Poly-frequency modulation with solar white noise (same light spectrum as in nature).
- Miniature extra powerful and efficient rechargeable lithium battery 100-400 mA lasting for a continuous usage of 2 hours; rechargeable through USB cable.
- Main unit: DÍA 95 mm x 11 mm height, weight 60 grams.

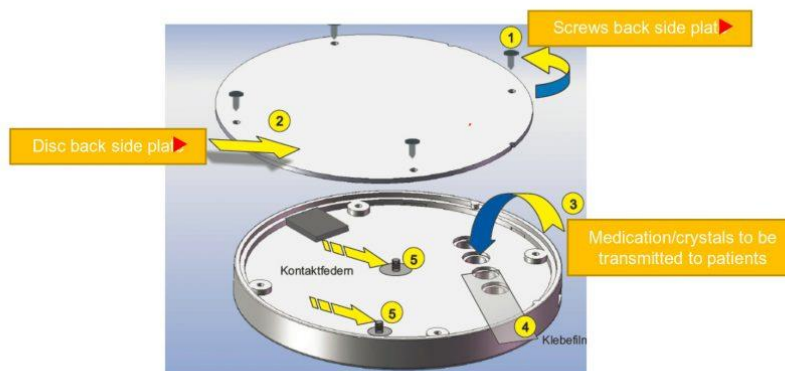

ULD 117 Configuration

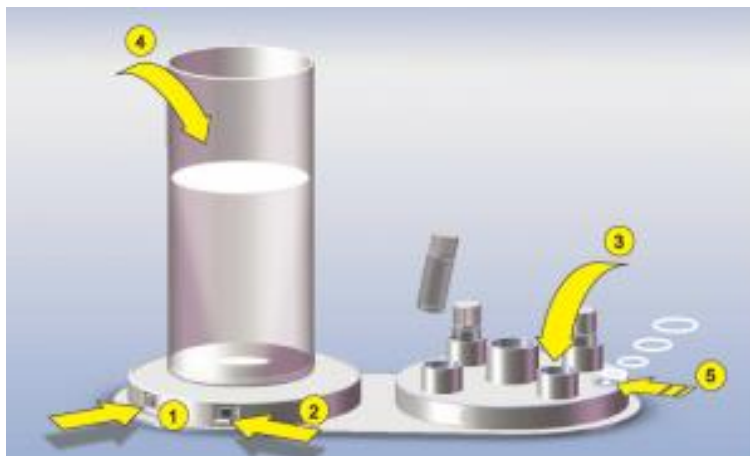

1. Switch on the UBS 315 [Note: This imprint procedure requires use of the Tesla Transmitter optional accessory – see diagram on next page.]
2. Select the color of photon beam depending on the color and consistency of the liquid to be imprinted: water and transparent fluids can be imprinted with white color; more viscous or opaque and turbid liquids can be imprinted only with red color. Imprint time 10-30 sec.
3. Add the original (master) substances/remedies to be carried into the new remedy, water, water-alcohol tinctures or sucrose pellets onto the UBS 315; always use glass vials.
4. Bottle/Vial with the fluid/carrier to be imprinted.
5. During the imprint procedure one white LED is permanently pulsating with a frequency of 7.8-8 Hz.

ULD 117 magnetic-tesla coil modulation

ULD 117 medication containers

ULD 117 Containers to imprint water and/or remedies
(Shown with Tesla Transmitter unit)

HEALTH BENEFITS:

- Cellular regeneration and deep detoxification
- Genetic modulation and genetic correction
- Pain relief, connective tissue, cartilage restoration and energizing of muscular skeletal body
- Therapy of all multiple chronic conditions
- Improvement of rheological properties of body fluids, blood, lymph
- Mitochondrial activation, energy boost
- Stress relief, depression, anxiety and insomnia therapy, emotional trauma cure
- Hormonal, metabolic and self-healing stimulation
- Cellular regeneration especially after injuries, surgeries, cell loss
- Anti-inflammatory
- Brain stimulation and hemispheres synchronization

SCOPE OF DELIVERY:

- Ultra-Compact laser disc ULD 117
- Mini USB cable
- Audio signal connecting cable
